## 49 WALKED AWAY FROM THIS 'CRASH'

Safe belly landing at Montreal's International Airport Sunday night climaxed dramatic but futile four-hour struggle by seven-man crew to lower jammed landing gear of TCA Vanguard with 42

passengers aboard. While ambulances stood by, plane made "perfect landing" on its belly, suffered only scratches and bent propellers. Story page 2. (AP Wirephoto).

## TWENTY-SEVEN ARRESTED IN LONDON

# 'Ban-Bomb' Protests In Britain, Canada

### 500 March At Vancouver

By The Canadian Press  
Anti-nuclear weapons demonstrators marched Saturday in centres across Canada.

In Regina, Premier T. C. Douglas told 450 ban-the-bomb marchers the main hope for world peace lies in nations surrendering their national sovereignty to a world authority with powers to maintain and enforce peace.

Other anti-nuclear demonstrations were held in Montreal, Toronto, Vancouver, Winnipeg, Regina and Quebec City. Addressing men, women and children from the steps of the Saskatchewan legislature, Mr. Douglas suggested four steps Canada could take to promote a world authority.

Canada, he said, should withdraw from the NORAD defence agreement with the United States and insist all defence pacts be under United Nations auspices; ban nuclear weapons from its soil; give leadership in UN negotiations for progressive disarmament with inspection; and turn over all its weapons to the UN for use in enforcing world peace.

**1,000 MARCHERS**

In Toronto, about 1,000 people marched from the University of Toronto to city hall where Rabbi Abraham Feinberg, chairman of the Toronto Committee for Nuclear Disarmament, said he is encouraged by the stand Howard Green, Canadian minister of external affairs, seems to be taking against having nuclear weapons in Canada.

More than 1,000 people, largely university students, converged in Lafontaine Park in eastern Montreal in an anti-nuclear demonstration.

In Vancouver, 500 marchers paraded from Kitsilano Park to city hall and the march in Winnipeg followed a nine-mile route from the outskirts of the city to the downtown cenotaph to emphasize the distance effects of a nuclear bomb would be felt.

### KENNEDY TO VISIT DE GAULLE IN PARIS

PALM BEACH, Fla. (AP) — President Kennedy will visit Paris for three days starting May 31 for talks with French President Charles de Gaulle.

The Paris visit will be Kennedy's first trip abroad as president. However, he will go to Canada in advance of going to France.

Chancellor Konrad Adenauer will invite President Kennedy to visit West Germany, authoritative government sources said today.

Adenauer, who leaves for Washington April 11 for his first meeting with Kennedy, will undoubtedly make use of his trip to extend the invitation, the sources said.

## New U.S. Helicopters Ferry Goods to Front

FREED

Red China agreed today to release Robert McCann, critically ill U.S. businessman serving 15-year prison term for espionage. The Communists said McCann, suffering from cancer, was freed in the spirit of humanitarianism. His wife, appealed for his release after being allowed to visit him.

### Killer Jailed for Life

OTTAWA, Ill. (UPI) — Chester Otto Weger, convicted bugeon slayer, today was sentenced to life imprisonment for the murder of one of three matrons slain at Starved Rock State Park more than a year ago.

### U.S. Embassy Focal Point

LONDON (AP) — A ban the H-bomb rally spilled over tonight into a riotous demonstration in front of the United States Embassy in Grosvenor Square.

Police arrested 27 persons. There was no attempt to damage the embassy and nobody was injured.

The Grosvenor Square disturbance was an offshoot of an earlier anti-nuclear meeting in Trafalgar Square, where 40,000 marchers assembled to demand for abolition of atomic weapons.

After this meeting, held in a drizzle of rain, several thousand of those who took part marched through the streets to the U.S. Embassy, about a mile away.

"We stand for sanity in a mad world," Earl Bertrand Russell, 88, philosopher and dean of the nuclear disarmament movement, told the cheering crowd. "The possibility of complete disaster remains deadly and immediate. Nuclear war in the near future is probable unless Eastern and Western governments change their policies."

### LIMED IN

The crowd had gathered in Trafalgar Square after two columns of demonstrators limped in after trekking through the English countryside.

Hundreds of police mingled with the banner-waving and singing demonstrators, packing the square.

Representatives from 30 countries, who had marched under the banners of their home lands, received a rousing cheer from the crowd packed around Nelson's monument.

A roar of applause went up as the 450-strong West German contingent strode into the square. There was another cheer for a lone Japanese.

Several other Japanese had intended to march but Deputy Prime Minister R. A. Butler refused to grant them entry visas.

### PROTEST RIGHT

"It's a terrible thing that the Japanese have been refused permission to come here," Canon John Collins of St. Paul's Cathedral told the crowd. "The Japanese, if anybody, have the right to protest against nuclear weapons."

Organizers had hoped for a turnout exceeding the 70,000 demonstrators who assembled a year ago at the end of the annual Aldermaston-to-London trudge.

OL VIC SAYS:

Them supermarket robber's will also git free parkin' if they're caught.

Everbody's against fightin' in Laos, an' everbody's fer talkin'. So now, uh, if they'll jist stop fightin' an' start talkin'.

Whatever became o' Formosa? Algeria? Th' Congo?

### LAOS

## Red China Threatens To Step In

JAKARTA, Indonesia (AP) — Communist China today held a threat over the West to turn Laos into another Korea if the Southeast Asia Treaty Organization (SEATO) sends troops into the strife-torn Indochina kingdom.

Peking's Foreign Minister Chen Yi, winding up a visit to Indonesia, told reporters that if SEATO sends troops into Laos, "then China will also send troops."

Marshal Chan Yi, who led the Chinese Communist 3rd Army into Korea in 1950 before becoming foreign minister, alluded to SEATO's warning that it was prepared to take "appropriate action" to prevent an armed Communist takeover of Laos.

The marshal insisted "that up to now China has not taken part in the Laotian civil war."

The foreign minister said Peking's solution to the fighting between pro-Western and pro-Communist forces in Laos is to "let the Laotian people settle their differences themselves and withdraw all foreign intervention. This would ensure peace and neutrality in the country."

A communique on Chen Yi's talks with Indonesian President Sukarno contended that the United Nations efforts to solve world problems would be seriously weakened unless Peking is admitted to membership in the international organization.

### IN AGREEMENT

On Laos and The Congo, the two leaders declared: "All forms of intervention in all its forms and manifestations in these two countries should be discontinued."

The situation in Laos was described Sunday by Malaysian Prime Minister Abdul Rahman as "still extremely serious."

He pointed out the vagueness of the Soviet reply to the British proposal about the timing of a cease-fire in the jungle kingdom.

Leaving Britain Sunday after a month-long visit, the Malaysian leader suggested that the Russians were hedging about ending the fighting.

With the Communist-supplied rebels holding the initiative, he said, the Russians "realize they are at an advantage and that if the cease-fire were to take place immediately they would lose that advantage."

Diplomats in Moscow reported that Britain soon would propose to the Soviet Union a definite date for the two countries — as co-chairmen of the 1954 Geneva conference that partitioned French Indochina and gave Laos independence.

to issue an appeal to the Laotian factions in the jungle civil war to stop fighting.

### Earl Home to Work With Rusk on Reply

WASHINGTON (AP) — Foreign Secretary Earl Home of Britain arrives here tonight to start preliminary work with U.S. State Secretary Dean Rusk on a Western reply to Russia's note on Laos.

They are expected to have a draft of the reply ready by the time Prime Minister Macmillan reaches here late Tuesday afternoon for conferences with President Kennedy.

ADOLF EICHMANN

### Eichmann Moved As Trial Nears

JERUSALEM (UPI) — Adolf Eichmann has been brought from his secret prison to stand trial on charges of slaughtering millions of Jews, informed sources said tonight.

Official sources declined to confirm the report.

The trial opens next Tuesday, April 11.

The indictment against Eichmann is to be read the first day of the trial with preliminary defence arguments following April 12 or 14.

### TO APPEAL

The U.S. Supreme Court today agreed to hear an appeal by former Teamsters' Union president Dave Beck, 66, against his conviction at Seattle on a charge of grand larceny involving embezzlement of \$1,900 received from the sale of a car owned by the union. He was sentenced to 15 years but has been free on bail.

## NO 'DONKEY' ON SKATES

Slick skater is three-year-old Pinky, pet donkey of owner-trainer Chick Hoover, Banning, Cal. Not only can Pinky skate but he can jump hurdle while on skates. Full grown, he is on his eighth pair of skates which, for a four-legged skater, adds up to 32 skates. His are especially designed metal half shoes into which the hooves fit. (AP Wirephoto).

## Safe Blown At Colwood

Professional cracksmen early today blasted a Colwood supermarket safe and stole \$15,000 in cash and cheques.

It is believed to be the largest single safe robbery in the Victoria area in recent times.

Colwood RCMP said the force of the explosion used to burst a three-ton concrete and steel vault was enough to scatter parts of it through Highway Foodliner, 1860 Island Highway, and twist 8 by 8-in. wooden columns supporting the roof.

Although residents of the Colwood Corner area reported later they heard a detonation at about 6 a.m., police were not called until 8.15 when the shattered interior was discovered by produce manager Victor Lee arriving for work.

Co-owner Earl Dennison said at least \$10,000 of the missing safe contents was in cash, the balance in cheques.

Considerable damage was done to other contents of the safe by the force of explosion. The safe's metal door was thoroughly shattered — "like shrapnel," one RCMP said — and blown about the premises with mechanical parts of the lock.

It was thought nitroglycerine was used to do the job. Members of Colwood RCMP detachment, Victoria subdivision criminal investigation branch and identification bureau, city and Saanich detectives are co-operating in investigation.

Normally, Dennison said, there would not be so much money left in the store over a weekend, but with the holiday intervening Friday there was brisk business Saturday.

Besides, he said, "we just missed the bank Saturday by 10 minutes."

"It was the only weekend of the year when there was that much money on hand. We usually deposit Friday."

Only other theft noticed amid the upset interior was several cartons of cigarettes taken from stock.

### \$10,000 Insurance Coverage

Much of the damage was caused by the shock of explosion rather than flying debris, police said.

Mr. Dennison said insurance carried covered only a \$10,000 loss by theft.

Co-owner of the store with Clair Taylor, he was on the premises until 12.30 a.m. today.

### WRONG KIND OF 'JUICE'

SAVONA, Italy (AP) — The Italian radio today broadcast a warning to the thief who stole 20 bottles from a Swiss tourist's automobile Sunday — the bottles contain a poison that kills almost instantly on touch.

Local newspapers said the poison, zinkalium, penetrates the pores and is similar to that used by Hermann Goering when he committed suicide in prison in October, 1946.

## WIRE BRIEFS

### Bennett to Open Fair

VANCOUVER (CP) — Premier Bennett will officially open the 1961 British Columbia International Trade Fair at Exhibition Park in Vancouver May 3.

### 30 Drown in Iran

TEHRAN, Iran (UPI) — Thirty persons were drowned in the Shatt-al-Arab River Sunday when a motor launch carrying 80 persons capsized, press reports said here today.

### Girl, 6, Missing

VANCOUVER (CP) — Police today were searching for a six-year-old girl, missing since Sunday morning. Debbie Volarech was last seen when she left home to attend Sunday school.

### Girl's Injuries Fatal

NEW WESTMINSTER (CP) — Candice Clark, 4, of Coquitlam, severely injured in a highway accident Sunday, died in hospital here today. Her father, Donald Clark, driver of a car hit broadside by another, suffered a broken jaw and other injuries. He was in satisfactory condition.

## RADIO BUSY—SOVIET SPACE TRY IMMINENT

BONN (AP) — There is mounting evidence of an imminent Soviet space experiment, a spokesman of the Bochum Observatory said today.

"Since several days a surprising increase in intensity of Russian telegraphic and telephonic communication on frequencies generally used by space rocket launching stations has been observed," the spokesman declared, adding: "Communication on these frequencies became particularly strong today."

The spokesman said that in the past such increased communication has always preceded a Soviet space experiment.

O.C. SOCCER ON PAGE 2

## Radio in Scotland Flashes Atom Sub Data to Soviets

LONDON (Reuters) — Britain's secret-service is searching for a radio believed to be beaming messages from Scotland to a Soviet trawler fleet operating near the U.S. nuclear submarine base at Holy Loch, the London Daily Telegraph reports today.

The newspaper, in a front

page story, says security officials in the Glasgow area are trying to pinpoint signals from an unknown source strong enough to reach the trawlers, lying outside the three-mile limit.

"The trawlers are in the area which U.S. nuclear submarines armed with Polaris missiles

must pass through after leaving Holy Loch," the paper says.

A spokesman of the U.S.S. Proteus, a nuclear submarine supply ship at Holy Loch, said he could make no comment.

The Telegraph reports rumors of an unusual number of Soviet trawlers off the west coast of Scotland. "Many of the trawlers have been seen in fishing grounds never before used by the Russians."

It was thought advanced radar equipment carried by the trawlers could be used to check various electronic devices used by naval units and air force shore stations.

"If they are also fitted with a side underwater sounding equipment of the most advanced pattern, it might also be possible for them to trace the course of the Polaris-carrying submarines, and the Russians would know the approximate point of the first dive."

## CUBAN ARMY WATCHES NAVY FOR UPRISINGS

HAVANA, Cuba (UPI) — Cuban army units today controlled most of the island's naval installations to prevent further uprisings by naval personnel opposed to the pro-Communist policies of the Castro regime.

Twenty-one sailors and one officer — the entire detachment of a small navy post at Guanahua Beach — were reported to have defected and escaped aboard a Coast Guard craft Sunday.

On Saturday, reports in Havana said the government had broken up a counter-revolutionary movement by 300 naval personnel. It was the fourth reported mutiny by naval officers and men.

## THIS WORLD OF OURS

### People and Things

(Times News Services)

KINVER, England — Joe Jordan, 83, and his wife, Alice, 77, had their customary drink at the Old Plough pub last night — then headed for their separate homes.

The practice dates back to 1953 when Joe took Alice for his bride. Everybody toasted the elderly couple at a top-of-the-tails reception unaware that some folks can't change their ways.

When the last of the well-wishers had left and the newlyweds headed out of the reception hall, Joe said: "Right, love, now we'll go home."

"I'm not living in your house," retorted Alice.

"And I'll be damned if I'll live in yours," said Joe.

Neither won the argument. They both slept in their own homes on their wedding night and neither has been able to persuade the other to move.

Alice goes to Joe's place daily to do the housekeeping. But she steadfastly refused to move in.

"We're a darned sight happier this way than lots of couples I know who get on each other's nerves being together every minute of the day," philosophized Joe.

BILOXI, Miss. — A 20-year-old Indian from Bullhead, S.D., officially changed his name Saturday to George Sherman Ironshield.

His old name? George Runs Away From Him Jr.

COLUMBUS, Ohio — Too bad a cop answered. Policeman Richard Neff, arresting an alleged bookie at the latter's home Saturday, answered the phone when it rang.

Neff took a \$50 bet from the caller on a horse named Melrose Silver. The horse lived up to its name, winning the third race at Aqueduct and paying \$13.

The bettor would have won \$325.

CATANIA, Sicily — In eastern Sicily, where blondes are rare as snowflakes, one showed up Saturday with a loose garter and a shapely leg — and got away with robbery.

The victim of the robbery was Angela Privitera, who runs a little electric appliance shop. Angela told the police the blonde came into the shop apparently embarrassed and said: "My garter has broken. I simply dare not try to fix it out in the street. Have you some place more private?"

Angela showed her into a back room. The blonde opened her handbag, took out a rubber "billy," and slugged Angela neatly behind the ear.

Then a male accomplice, about 35, came in and held Angela's wrists while the blonde gagged her with a scarf. After that they robbed the shop full of 42,000 lire (\$70).

"The blonde spoke very faltering Italian," the shop owner told police afterward. "And she and the man jabbered in some language I never heard before."

LONDON (UPI) — There's always a silver lining. The Sunday Observer carried this extract from a letter in its "Sayings of the Week" column:

"The spy trial cheered me up no end. I thought we had nothing to be secret about."

## PATRONAGE CHARGED

### Manitoba Opens Highways Probe

WINNIPEG (CP) — Liberal Progressive leader D. L. Campbell today opened his case before the legislature public accounts committee on his charges that the Manitoba Progressive Conservative government was guilty of political patronage.

An extraordinary hearing with all the aspects of a courtroom drama, it had been anticipated since the session opened in February when the opposition leader first suggested that all was not above board in the handling of the province's road program.

In a two-hour fight in the legislature last Wednesday Mr. Campbell declined to make

## B.C. Man Held

KEY WEST, Fla. (AP) — Six adventurers, one a Canadian, were arrested Sunday in the Florida Keys as they tried to sail for Cuba in a stolen 42-foot boat, it was learned today.

The men were arrested by the United States border patrol and turned over to the Key West sheriff's office. The Canadian was identified as George Badgett, 28, of Dawson Creek, B.C. The five others are Americans.

## ATTEMPT TO BLOCK TRIAL

### Lawyer Seeks to Prove Eichmann Was Abducted

JERUSALEM (Reuters) — Adolf Eichmann's lawyer was given permission Sunday to call two airline officials as witnesses in an attempt to block Eichmann's trial next week by arguing that he was abducted into Israel.

A Jerusalem district court overruled protests by Attorney-General Gideon Hausner and ordered the two airline officials to appear in court on April 12 — the second day of the trial.

Cologne lawyer Robert Servatius asked the court to summon the two officials to testify

about the "cloak-and-dagger" stage of Eichmann's capture. Israel never has given details of how Eichmann was brought to Israel last May, but it has been widely reported that he entered the country aboard an Israeli airliner returning from Argentina's 150th anniversary celebrations.

Servatius plans to argue that an Israeli court has no right to try Eichmann for the murder of 6,000,000 European Jews because Eichmann was forcibly abducted from Argentina — and not properly extradited.

Hausner opposed calling the two witnesses on the grounds

UP AND OVER — but not out — went young Peruvian bullfighter Hugo Bustamante Sunday. At this stage the bull had all the best of Hugo in their encounter at Lima, Peru. But the young matador miraculously made a four-point, hands and knees landing to escape with bruises only to his dignity. (AP Wirephoto).

## NEAR LEAGUE TITLE

### 'Spurs Take 5-Point Lead

LONDON (AP) — Tottenham Hotspurs defeated Chelsea 3-2 today and took another big step forward in its bid to become the first English soccer team for 64 years to win the league and cup in one session.

The victory, scored on goals from centre forward Bobby Smith, left wing Terry McDermid and centre half Maurice Norman, sent the Spurs into a five-point lead at the top of the league standings. Only five more matches remain to be played.

Sheffield Wednesday, Spurs' closest challengers in the league, slumped to a 1-1 tie against lowly Newcastle United as the Easter program neared its end.

Tottenham has 60 points from 37 matches and Sheffield Wednesday has 55. The program calls for 42 games.

Tottenham already is in the cup final to be played against Leicester City May 6.

## O.C. SOCCER RESULTS

## Drillers Go Deep Into Earth Crust

OFF GUADALUPE ISLAND (AP) — Rock samples identified as from the middle layer of the earth's three-layer crust have been brought from 540 feet under the ocean floor.

The achievement by the drill ship Cuss I late Saturday was hailed as a milestone in the exploration of the oceans.

Mohole Project director Willard Bascomb identified the samples as basaltic rock from the long-sought second layer of the earth's crust. One was about the size of a small can of frozen fruit juice. The other was 10 feet long.

This apparently is the upper surface of the so-called second layer which long puzzled oceanographers because its depth corresponds to that predicted by seismic surveys, Bascomb said. "Reaching and sampling this layer was a major scientific objective of the present tests."

The outer layer of the earth's crust is soft sediment. The second mystified scientists because the speed of earthquake waves passing through it indicated it could be any of three different materials, one of which is basalt. The third layer is believed composed of still-harder rock. It may be beyond the reach of the present drilling project. The drilling ship lowered its pipe to a water depth of 1,700 feet before it started probing the ocean floor.

## Soviet Reply On Laos Plan 'Encouraging'

MOSCOW (Reuters) — Diplomats here summed up the Soviet reply to Britain's peace plan for Laos as "moderate, reasonable and encouraging."

Observers were struck by Russia's moderate language and apparent readiness to end the fighting in Laos despite the recent successes of the pro-Communist troops.

The Soviet Communist party newspaper Pravda gave front-page prominence to the Russian call for an international conference and the three-nation commission under the headline "Laos must be a neutral, unified, independent and peaceful state."

Moscow Radio said there was hardly any difference in principle between the British and Russian positions.

## 4-HOUR DRAMA

### Belly Landing Ends Crisis For Vanguard

By ALAN DUCKETT  
Canadian Press Staff Writer

MONTREAL (CP) — A tense four-hour drama over Montreal international airport at suburban Dorval ended happily seconds before 11 p.m. Sunday night when a Trans-Canada Air Lines aircraft made a belly landing after developing landing-gear trouble.

With 42 passengers and a crew of seven aboard, the four-engine turbo-prop plane's Vanguard made what passengers labelled "a perfect landing" and wound up at the end of the runway with buckled propellers and little other damage. There were no injuries.

Sparks flew from the runway as the plane's fuselage touched down and scraped along 1,500 feet of tarmac but from the main airport terminal it looked like a normal landing except for milling ambulances, fire trucks and airport officials.

The plane, flight 781 from Tampa, Fla., arrived over Montreal airport nearly 10 minutes ahead of its 7:20 p.m. scheduled landing time and finally crash-landed at 10:59 p.m. after the crew had worked feverishly to try to lower the faulty left landing gear.

More than 25 ambulances and countless fire trucks converged on the airport and RCMP and Quebec Provincial Police helped by Montreal and suburban police prevented a mass of sightseers from approaching as the aircraft circled overhead.

The Vanguard, in TCA service since Feb. 1, was the fourth TCA plane in less than a month to develop landing-gear trouble.

Last week a DC-8 jet aircraft had similar trouble in Edmonton and Friday a four-engine super-constellation had to make an emergency landing at a United States air force base near Goldsboro, N.C., for similar trouble.

Capt. E. T. Marriott of Baie d'Urfe, Que., pilot of the aircraft, said he used all prescribed methods to try to lower the faulty landing gear, "including dives and pullouts."

Finally, after consultation between Montreal control tower and the Vanguard manufacturer—Vickers-Armstrong in Derby, England—it was decided to try a belly-landing.

"I fully concurred in this decision," Capt. Marriott said. The 17-year TCA veteran and supervisory pilot of all TCA Vanguard flights said "we realized we were in trouble as soon as we approached Montreal and tried to lower the undercarriage to land."

"The port landing gear would not come down and this left us with two unpleasant alternatives—either to try a belly-landing or to come in on the nose and right wheels."

He said "the landing was not as rough as I expected it to be."

## BAN BOMB PROTEST

Continued from Page 1  
But the rain kept thousands of supporters away.

Wrapped in raincoats, the marchers kept up a brave show of enthusiasm but even the accompanying jazz bands sounded limp. Some of the demonstrators, mostly youngsters, wore bowler hats with their jeans and carried umbrellas.

Leading the marchers were several Labor Members of Parliament and churchmen.

Marchers from Wetherfield appealed for police protection Sunday after guerrilla bands claiming to be Empire Loyalists threw fireworks and smoke bombs at them.

Three groups of young Conservatives ambushed the marchers from Aldermaston as they straggled through the London suburbs Sunday night. The Conservatives lined the route with banners bearing the slogan "ban the canon but keep the bomb."

Each side gave the other a jeering cheer.

There was criticism that the annual protest march was becoming nothing but a mammoth petting party. This was caused by unsegregated sleeping in schools and church halls and the youth of many of the marchers.

Said Canon Collins: "Of

## SAFE LANDING AFTER SCARE

BOSTON (AP) — An Eastern Airlines plane with 70 aboard, its nose landing gear out of order, made a safe wheels-down landing on a foam-covered runway Sunday night after circling Logan international airport for more than two hours to use up most of its fuel.

## Soviets Lose As UN Votes Congo Money

UNITED NATIONS (CP) — The United Nations General Assembly overrode Soviet opposition today and approved a temporary extension of Secretary-General Dag Hammarskjöld's spending powers for the Congo operation.

The vote on the stop-gap resolution was 51 to 10 with 22 abstentions. The negative votes were cast by the Soviet bloc and Mali.

Soviet delegate A. A. Roschin challenged the legality of the assembly's action. He said the United Nations is carrying out the Congo operation in the interest of the colonial powers and is pushing itself into bankruptcy by actions which violate the UN charter.

## U.S. 'DIGGED' — 'LIBERATE RED INDIANS'

LOURENCO MARQUES, Mozambique (Reuters) — Pamphlets were distributed in this Portuguese colony Sunday calling for donations to help "in liberating the red Indians of North America who live in reserves and concentration camps."

A large crowd at a bullfight in this Southeast African colony laughed and cheered the pamphlets which said the "red Indians" were descended from old races which inhabited the Americas "before the barbaric European occupation."

The handouts said money would be used among other things to buy knives "for distribution among the Indians to enable them to restart the art of scalping."

Portuguese observers said the pamphlets were to "dig" the United States, which March 15 voted "yes" to an abortive United Nations security council resolution calling for an inquiry into conditions in the Portuguese West African colony of Angola.

## Eye Bank Advance

MONTREAL (CP) — Britain has developed a method to preserve eyes for corneal transplants for up to three months, a British medical expert said Sunday. Formerly transplants had to be made almost immediately.

## New Attempt To Work Mine

VANCOUVER (CP) — Work on an abandoned gold mine that is part of the romance of the Cariboo gold rush of the last century, is to be undertaken by a newly-incorporated British Columbia Company.

The property is the old Windgam mine on Lightning Creek, 27 miles east of Quesnel on the Barkerville Road.

The new company, Windgam and Lightning Creek Mining Company Limited, will attempt to stabilize the underground silt by chemical grouting—forcing in chemicals which will harden the silt.

Attempts at underground mining were made in 1870, 1896, 1903, 1921 and 1931. In the last attempt a large-scale, British-financed program was undertaken. It met some success until a cave-in in 1938.

**Amazing Skin Cream Discovery**

**Quickly Fades Horrid BROWN AGE SPOTS from Hands, Face, Neck, Arms**

Just discovered! Sensational cosmetic formula called FAYD penetrates skin surface to break up masses of pigment which cause ugly brown spots, freckles and embarrassing surface blemishes. They quickly dim and fade. Works equally well on face, hands, neck and arms. Makes skin softer, smoother, whiter.

30-Day Supply \$1.50 3-Month Supply \$3.95

Leaves Skin Softer, Smoother, Lighter, Clearer, Younger-Looking

Satisfaction Guaranteed—or no cost. So sure are the makers of FAYD that you will be overjoyed with results—we can offer to let you try FAYD at home for 7 days without risking loss of one penny. Get a jar today. Be satisfied or return for purchase price refund at Drug and Dept. Stores.

807 GOVERNMENT STREET—One Block Up from the Empress

DOUBLE GUARD

# Kennedy Won't Talk About Plot

PALM BEACH, Fla. (CP)—The security guard was doubled when President Kennedy and his wife attended Easter church services, but the president himself would not comment on alleged kidnapping-assassination plots against his family.

The vacationing president, who arrived last Thursday, will return to Washington Tuesday. Originally, he had intended to fly back today.

Pro-Castro Cubans allegedly were behind plots to kidnap Kennedy's three-year-old daughter Caroline or assassinate the entire Kennedy family—father, mother, Caroline and John Jr., four months old.

Secret service agents have had the Cuban suspects—three men and a woman—under around-the-clock surveillance in this area, but have held off arresting them for lack of evidence.

A crowd estimated at 1,000 had assembled in the vicinity and in front of St. Edward's Roman Catholic Church long before the president and Mrs. Kennedy arrived Sunday—almost 10 minutes late—for 10 a.m. Easter mass.

## CROWD DISAPPOINTED

The first precaution the secret service took disappointed the crowd. The usual route from the Kennedy estate was changed and the president and his wife slipped in through a side door of the church, almost unnoticed, while the spectators waited out in front.

Well in advance of the Kennedys' arrival, secret service men augmented by local, county and state police had filtered into the crowd to keep a close watch for any potential troublemakers.

Secret service chief U. E. Baughman said the security force he directed at the church was about double the usual size.

A Puerto Rican organization in Miami has been credited with first bringing the reported kidnapping plot to the attention of U.S. security officials.

Through the group, the Puerto Rican Democratic Organization, information on a reported remark of a pro-Castro Cuban employee of a Miami garment plant was passed up to the secret service, which immediately launched an investigation.

A source familiar with details of the development, said the Cuban garment worker was heard to remark:

## SUGGESTS ABDUCTION

"We ought to abduct Caroline Kennedy to force the United States to stop interfering with Cuba's Castro government."

At a meeting of the Puerto Rican group in Miami March 24, that remark and others were reported, and the next day a representative of the group passed them on to Wendell Rollason of Miami, director of the Inter-American Affairs Commission.

Rollason got in touch with Frank Watterson, a U.S. state department security officer in Miami, and he in turn called the secret service.

Tony Varona, co-ordinator of the anti-Castro democratic revolutionary front in Miami also was informed and he put that organization's intelligence forces to work. They learned the garment worker has pro-Castro relatives in Cuba.

The secret service located four Cuban suspects, one reported to be a woman, and has had them under close surveillance since.

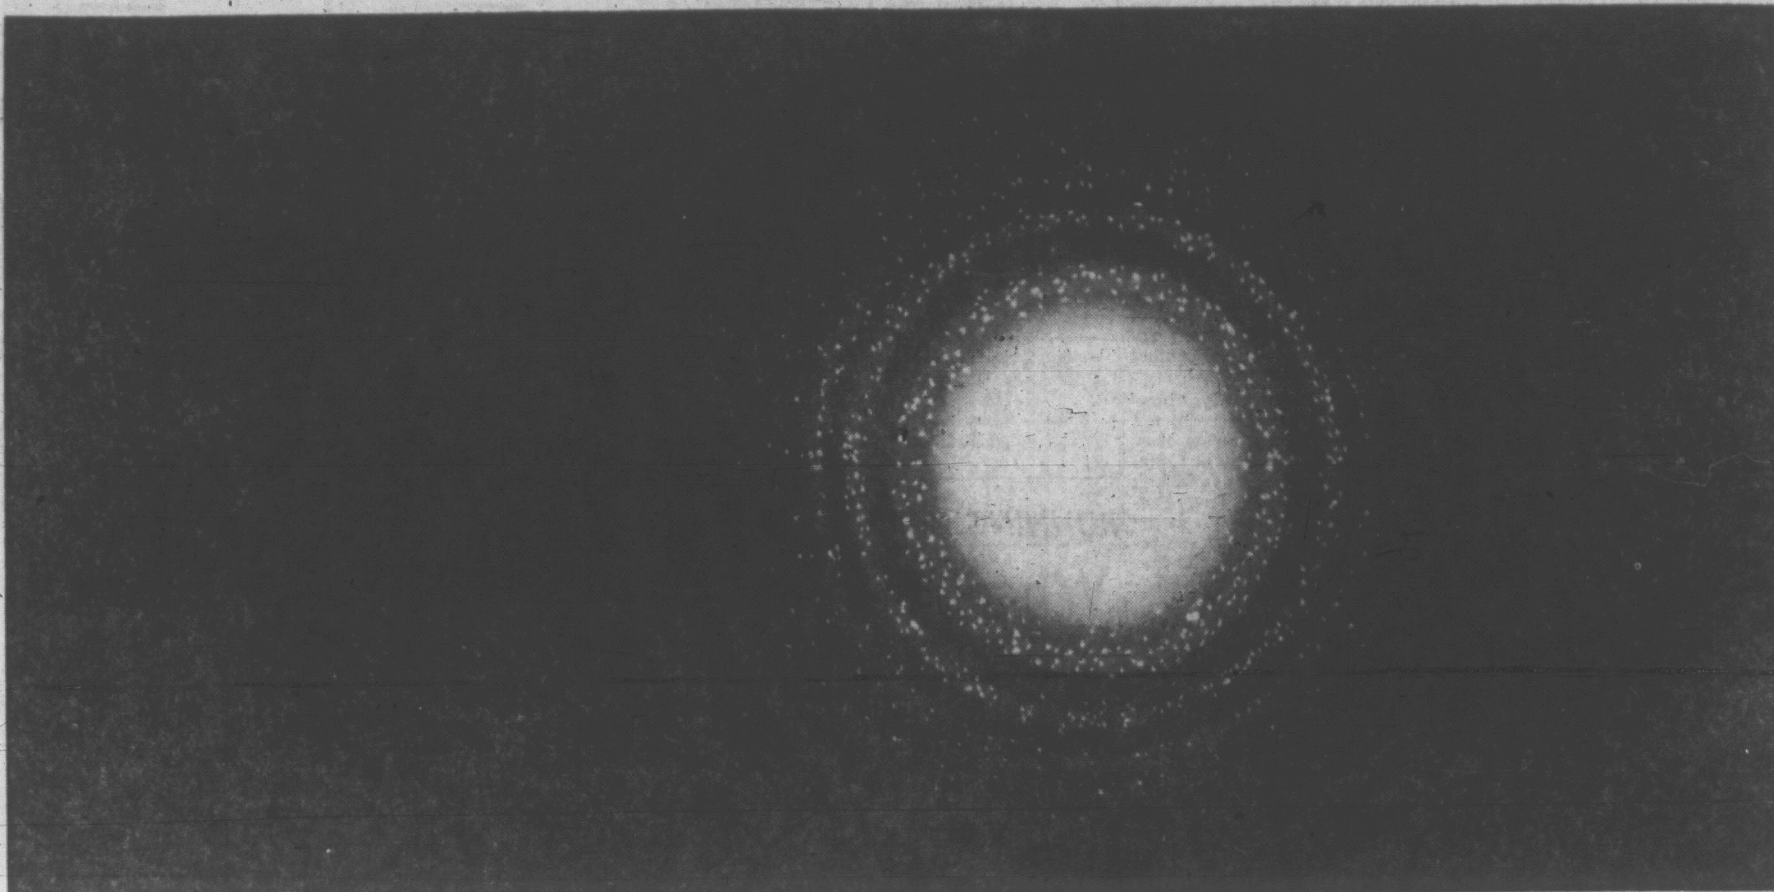

# Macmillan Chops Day Off Visit

OTTAWA (CP)—Prime Minister Macmillan, who had hoped to spend next weekend quietly in the Ottawa surroundings in which he met his wife, Lady Dorothy, has shortened his visit by a day—throwing government officials here into a tizzy of rearranging their program.

Mr. Macmillan and his wife, originally scheduled to come here from Washington on Friday, April 7, first put off the visit until Saturday, April 8, and now have rescheduled their arrival for Sunday, April 9.

Their four-day stay will be spent at Government House as guests of Governor-General and Mme. Vanier. Their original intention was to spend a quiet weekend there with no formal functions arranged.

While details of Mr. Macmillan's visit are still being arranged, it is expected he and Prime Minister Diefenbaker will have an informal personal talk Sunday night and the main conferences between the government leaders will be held Monday and Tuesday, April 10 and 11.

Circular pattern identifies deposits scraped from combustion chamber. It tells researchers many secrets. To get this pattern, deposits are ground up and placed above a film. Electrons are beamed directly at the deposits. The

beam is diffracted—scattered at precise and characteristic angles. This registers as the pattern of dots shown above. Reading this photograph, Shell scientists learn composition of deposits, determine how to neutralize them.

# BULLETIN:

## Weird electron "pictures" help Shell scientists develop improved TCP for today's Super Shell— to give your car top performance

Read how electron diffraction revealed the secrets of the combustion deposits inside your car's engine. How improved TCP was developed to neutralize these deposits, prolong spark-plug life, increase mileage—and release up to 15 per cent more power.

Here's the full story of today's Super Shell—and of the 9 ingredients that give your car top performance.

TODAY'S improved Super Shell formula contains an aviation grade of TCP\* that does its job better than ever.

It neutralizes certain harmful effects of combustion deposits—deposits that can prevent you from ever knowing your engine's top performance.

### Why your power falls off

There's not a single engine with more than a few thousand miles on it that doesn't have this type of deposit in its combustion chambers. These deposits can cause real trouble when you need power most.

They glow red-hot and set off the fuel before the spark plug has a chance to get into the act.

The experts call this pre-ignition. The explosion punches the piston on the way up. Two forces meet head-on. No wonder your power falls off.

Deposits can also cramp your car's performance by short-circuiting the spark. This leads to misfiring.

Problem: How to add something to gasoline that neutralizes the effects of deposits.

Answer: Shell Research.

### A scientific detective story

Shell scientists announced the first TCP additive eight years ago, after research had proved it could virtually end this misfire problem once and for all. TCP was hailed as the greatest advance in gasoline in thirty-one years.

To produce an improved, aviation grade of TCP, Shell used scientific detectives like the electron "photograph"—(above). Such pictures helped Shell scientists to look engine deposits

right in the face. And to find how best to neutralize them.

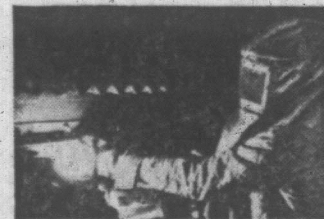

### What today's TCP can do

Tests have already proved that TCP can help you get up to 15 per cent more power, up to 17 more miles per tankful. And it can make plugs last up to twice as long.

Yet TCP is only one of the nine remarkable ingredients in today's Super Shell. Read about the others. And how each helps your car deliver its top performance.

### Ingredient #2 is "cat-cracked" gasoline for power with a purr

This is petroleum that has actually cracked under 1000-degree heat and catalytic action. Its heavier molecules have been shattered into livelier lighter ones.

Shell man checks furnace which pre-heats the petroleum before it is fed into cat-cracker. Stand near by, and the roar sounds like Hades.

The result is a high-octane ingredient that makes your engine purr with power the moment you put your foot down.

NOTE: "Cat-cracking" refers to the use of a catalyst—a substance that has the mysterious ability to alter molecules without changing itself.

### Ingredient #3 is heavy alkanes—for both power and economy at all speeds

Shell scientists will tell you that gasoline can be too sensitive.

That's their unflattering description of a "touchy" gasoline that performs well enough when you're driving slowly, but causes knock and loss of power when you speed up.

So they put heavy alkanes into Super Shell. This ingredient is prized for its insensitivity. It keeps octane ratings high enough to give you plenty of knock-free power at all speeds.

NOTE: Heavy alkanes also have the advantage of lowering your fuel consumption. Your engine can use them up slowly—and still give you all the power you need.

### Ingredient #4 is anti-knock mix for extra resistance to knocks

You might suppose that two high-octane ingredients are enough to give you knock-free performance. But Shell scientists have ears like musicians.

They insist on adding a special anti-knock mix. A mix, so effective, one teaspoon per gallon can boost anti-knock rating by seven points.

This mix has the tricky job of regulating combustion so that Super Shell gives each piston a firm, even push—rather than a sharp blow which would cause a knock.

### Ingredient #5 is butane for quick starts on icy mornings

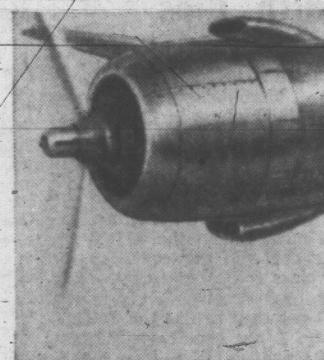

By itself, butane is so volatile that it would actually boil in your refrigerator. In Super Shell, it helps your engine fire in seconds. Think what this means in cold weather. Your battery is relieved of strain—and so is your patience.

NOTE: Super Shell is primed with butane all year round. In winter, Shell scientists simply increase the quick-start dose.

### Ingredient #6 is an "anti-icer" to stop stalls due to carburetor icing

Super Shell's formula is adjusted up to eight times a year for your area to beat

the weather. Whenever the temperature is likely to be less than forty-five degrees, an anti-ice ingredient is added.

When Shell research scientists were tackling the problem of propeller-icing, they discovered that a "surfactant" film, one ten-millionth of an inch thick, was enough to help prevent ice sticking to metal. This same principle is the secret of the anti-icing ingredient that goes into today's Super Shell.

Why add an anti-icer at forty-five degrees? Because, even then, frost can form in your carburetor just as it does in your refrigerator. It can choke your engine dead.

### Ingredient #7 is a mixture of pentanes for fast warm-ups on cold days

Pentanes are made by tearing gasoline apart, much as you split logs into kindling to start a log fire.

In this case, the "logs" are petroleum's heavier hydrocarbons. A special process transforms their molecules from slow-burning "logs" to quick-firing "kindling."

NET RESULT: Fast warm-up and top performance in a hurry.

### Ingredient #8 is a special gum preventive to keep the fuel system clean

Even the purest gasoline can form gum when stored.

This can clog carburetors, fuel lines, and pumps. But, with Super Shell, you needn't worry.

A special gum preventive does the trick. It acts like a policeman controlling

a mob. Keeps an eye on unstable elements—stops them from clotting and forming gum.

Super Shell makes gummed-up engines a thing of the past.

### Ingredient #9 is Platformate for extra energy, more mileage

It takes one million dollars' worth of platinum catalyst for Shell to produce its Platformate.

But fortunately for you and for us, this precious stuff can be used over and over again.

The platinum process, which gives Platformate its odd name, re-forms petroleum into super-energy components—such as benzene, toluene and xylene.

These three alone release 7 per cent more useful energy per gallon than the best 100-octane aviation gasoline.

But make no mistake. This is not untamed energy. Far from it. The super-energy of Platformate is harnessed by the eight other ingredients in Super Shell, where it behaves so well you scarcely know it's there. That is until you note your extra mileage. After that, there is no doubt.

### Test Super Shell for yourself

Try Super Shell next time you fill up. You'll soon feel and hear a difference in the way your engine runs.

That difference is top performance.

## Unanimous Verdict

WHEN THE LEGISLATURE votes unanimously on any issue it must surely represent the overwhelming opinion of British Columbia. When the Legislature votes unanimously against the introduction of nuclear weapons into Canada there can be no doubt that most of the people agree. Such a vote must therefore be regarded as highly significant and it will be noted at Ottawa.

The issue of nuclear weapons in Canada has taken a long time to clarify and is not fully clarified yet.

When Mr. Pearson first proposed that our money should be diverted from defence measures that we can neither afford nor manage adequately, he was accused of neutralism and pacifism. The fact that he was not proposing to reduce our total defence cost by a dollar but was prepared, if necessary, to increase it, could be conveniently overlooked by his critics.

But most people understand now what he is trying to do.

He is trying, first, to prevent the spread of nuclear weapons beyond the four great powers now possessing them, lest they fall into irresponsible hands throughout the world, with terrible danger to peace. He is trying, second, to concentrate our resources where they will do the most good.

That is a clear, coherent policy which the public can judge for itself. It must be distinguished at once from the neutralism of the C.C.F. which urged Parliament a few days ago to withdraw from NATO, a retreat vigorously opposed by the government and the Liberal party.

Mr. Pearson's policy must also be distinguished from that of the government which, in fact, has not yet defined a policy.

Mr. Harkness hints that our forces are to be given nuclear arms by the United States, Mr. Green takes much the same position as Mr. Pearson in opposing the spread of these devices, and Mr. Diefenbaker says no decision has been made.

Actually, however, if a decision has not been made formally it seems to have been made almost irrevocably just the same. The government has arranged to accept nuclear weapons from the United States and they will arrive here within the present year. Meanwhile Canadian forces will be sent to the United

States and trained in the use of these weapons. Mr. Harkness appears to have won the cabinet struggle against Mr. Green.

The Prime Minister says, however, that his government will not accept nuclear devices unless they are under Canadian, or joint Canadian-American control, as forbidden by existing United States law. Perhaps this legal difficulty can be overcome by some revision, or re-interpretation of the law but in fact Canadian control will be meaningless.

On the one hand, Canada certainly cannot use, and would not think of using nuclear power without Washington's approval. On the other, if the great war occurs, we cannot contract out of it or refuse to launch any weapons that we may possess.

Two practical questions face Canada: What is the most useful contribution we can make to North American defence? And how can we contribute best to the defence of peace, which is the only defence against general suicide?

Mr. Pearson's answer to the first question is that we can contribute most to North American defence in the field of conventional weapons where, as President Kennedy has indicated, the United States is alarmingly weak. Mr. Pearson's answer to the second question is that the spread of nuclear weapons beyond the United States, Britain, France and Russia would be a great and unnecessary threat to peace.

Until recently all these arguments were deeply confused in the public mind. When the British Columbia Legislature unanimously opposes the introduction of atomic weapons in Canada it is evident that the views of Mr. Pearson and Mr. Green are winning strong support. It is especially significant that the Legislature's vote cut straight across party lines. No one, fortunately, was ready to play politics in an issue touching the nation's survival.

In Parliament also the sincerity of the government and the opposition cannot be questioned. But a decision on a practical question between men equally sincere cannot be delayed much longer. Meanwhile, through its Legislature, British Columbia has declared its opinion unmistakably.

## Where the Wealth Lies

THE OLD CRY OF "SOAK THE RICH" is not heard so often these days. Most Canadians have learned that there are not enough "rich" to soak with any appreciable results. Department of National Revenue figures support this view.

Taxing rich Canadians more than at present, or even confiscating all of their incomes, would not add enough to Canada's revenues to make it worth while. If the maximum income permitted in this country were set at \$10,000 a year, and everything over that amount were distributed evenly among the population, the individual share would be only \$2 per month.

Against this infinitesimal gain would have to be balanced the sudden loss of incentive for anyone to make more than the maximum income—with a consequent collapse of jobs and markets all over the country.

The national average for Canadian incomes in 1958 was \$4,008. British Columbia's average was higher—the highest in Canada—at \$4,152. But the idea that there is a large number of Canadians with enormous incomes is dispelled by the statistics.

Of Canada's four million taxpayers, most are in the \$4,000 per year bracket—37 per cent. In the \$5,000 class fall 20 per cent. Only 11 per cent receive \$6,000-odd a year, 3 per cent are in the \$10,000 category, 1 per cent earn \$15,000. Out of Canada's 18 million inhabitants, only 475 receive \$100,000 or more a year.

It is the vast bulk of the middle-bracket population that provides Canada's wealth, and Canada's tax revenue. The higher brackets contribute their share, but they can never, in the present numbers, become the major source.

## Beatniks at Home

RECENT LETTERS OF protest in the Soviet newspaper Pravda are said to be highly critical of Russia's new class of beatniks. Far too many young people, it seems, are adopting a poor attitude to Soviet life—or any life. The letter writers agree—and some of the more prominent persons—that Russian youth in part is suffering from excessive fondness for alcohol, a frivolous attitude to sex, a devil-may-care attitude to work, and a slavish addiction to Western styles.

There are too many Russian equivalents, they complain, of Britain's teddy boys, North America's juvenile delinquents and Europe's hooligans.

Most of the new class of angry young men are said to come from the families of the well-to-do intelligentsia. One writer says that such youths are "still under bourgeois influence" although how the bourgeois influence can have survived

more than 40 years of determined efforts to stamp it out is puzzling.

The correct judgment seems to be that youth is youth anywhere in the world, that it will refuse to be regimented given half a chance, and that even the enforced conformity of a dictatorial society cannot indefinitely hold down unruly spirits.

Youth is essentially non-political. It will rebel against school, against church, against convention, and against demands to think and act in line with a political ideology.

Although hooligans aren't an asset to any country, Russia's realization that it has a delinquency problem shows at least one thing in that country's favor: it is interesting to read that the hooligans are being discussed with a view to reform, instead of being carted off into the night to disappear into Siberia.

If the Russian revolution is growing up, maybe there is hope for Russian youth too.

## Whodunit?

THE BRITISH GOVERNMENT wants to find out what's wrong with the country's secret service and its information exchange with American spy-catching agencies.

As a distinguished British personality might have said: "Elementary, my dear Watson. They need television's Eliot Ness and The Untouchables."

MY FIRST PAPERBACK TITLE WAS "THE NAKED SLASHER PENTHOUSE CAPER." THE JACKET WAS IN BLOOD RED WITH THE DRAWING OF A CHAINED, HALF-NAKED GIRL HOLDING A KNIFE AT THE THROAT OF A PRIVATE COP IN A TRENCH COAT.

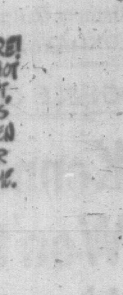

THE SUB-READ ON THE COVER ABOUT "WHEN THE SEDUCTRESS FROM ANTIOCH TARRUM HIRED DETECTIVE MIKE WESTERDAH ALL THE RULES HAD TO BE REWRITTEN."

IT WENT FOR TWENTY-FIVE CENTS. IT SOLD TWELVE MILLION. I HAD FIFTY PAPERBACKS AFTER THAT. BING! BING! BING! TWELVE MILLION! TWELVE MILLION!

THEN—ALL OF A SUDDEN—NOWHERE! PRICES GO UP, HOT COPS GO OUT, CLASS COMES IN. I CAN'T EVEN GET AN EDITOR TO TALK TO ME.

40 LAST YEAR I GOT WITH MY NEW BOOK CAME OUT UNDER THE TITLE "FUNCTIONAL ASPECTS OF THE MORAL DICHOTOMY IN JUDEO-CHRISTIAN MAN." THERE'S A PICTURE OF MOHART BY BEN SHAW ON THE COVER.

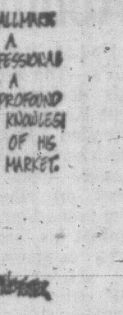

AND ONLY WHEN YOU TURN TO THE INSIDE DO YOU SEE THE SUB-HEAD—"WHEN THE SEDUCTRESS FROM ANTIOCH TARRUM HIRED DETECTIVE MIKE WESTERDAH ALL THE RULES HAD TO BE REWRITTEN."

IT'S SOLD FORTY-FOUR MILLION COPIES, I'VE GOTTEN DOZENS OF OFFERS TO SPEAK AT UNIVERSITIES, AND 'OHIMBUS' IS DOING MY LIFE STORY.

THE HALLMARK OF A PROFESSIONAL IS A PROFOUND KNOWLEDGE OF HIS MARKET.

## RUNNING HARD TO STAY WHERE WE ARE

# When You Can't Stand It Any Longer, Dial for Advice

By B. A. TOBIN

IN an age of wonders, one of the greatest wonders arises from the way in which man misdirects his efforts. We make heroic efforts to accomplish things, and then are required to make even more heroic efforts to counteract the first achievement. The billions spent on the nuclear bomb, for instance, have been matched by the time and wealth spent on methods of protection from it and negotiations to keep it from destroying mankind. The automobile provides its own example of scientific tail-chasing: the motorized ambulance saves many a life by rushing a victim to hospital—after he has been injured in an automobile accident.

Tobin

We have our blows and counter-blows, our checks and counter-checks, but who's ahead?

What community has ever had the opportunity to boast that "we have so cleverly designed our civic environment as a proper place for human habitation that mental illness is unknown here?" Yet how many continually boast of their facilities for treating mental illness, or bid enthusiastically for the privilege of having a mental hospital built nearby?

It is as though we had elevated remedies to a far higher position than prevention. We are so busy devising better splints for broken legs that we don't bother much to see that manhole covers are in place to keep people from falling down and breaking legs.

We invent better silver fillings for teeth, and dentures that can hardly be distinguished from the real thing, and better techniques for plugging cavities and nursing teeth along as best we can. But we won't take the obvious step of fluoridating the water supply and thereby almost eliminating tooth decay among the generation now growing up.

This is twentieth-century wisdom. But surely it is a wisdom of the hands rather than of the head. Surely we're only half-way along the road to becoming really homo sapiens, the thinking man.

Back of it all is the fact that it's easier to think up a gadget or a technique than it is to devise a principle. It's easier to swallow a pill to cure yourself than to follow a health rule to safeguard yourself. It's easier to plan a massive retaliation than a save-the-peace policy.

Several modern cities have a new proud boast. They have combined the wonders of science with humanitarian thoughtfulness and can now offer the citizen a 24-hour-a-day service.

Any person who feels the need can look up a number in the telephone book and phone a bureau staffed day and night with experts ready to talk him or her out of committing suicide.

There we have a triumphant flowering of our civilization. Our way of living

is so good that even when you can't stand it a minute longer it provides a gadget and a technique to talk you out of leaving—permanently—Montreal, Vancouver, Winnipeg and Toronto will soon have the service. They need it.

One can imagine the publicity folders designed to persuade prospective residents to choose one city or another:

"This fine community offers every amenity—pleasant location, excellent climate, varied job opportunities, wide choice of recreational facilities, abundant water supply, two mental institutions within easy driving distance, round-the-clock anti-suicide bureau..."

We're doing very well, I guess, within the limits of our twentieth-century capabilities. We're building a civilization of sorts. But so much of what we are doing, and doing so proudly, will have to be scrapped when we start to build a real world for living in.

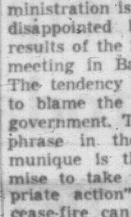

I'll warrant the bureau will be a lot busier before it's closed.

## FROM WASHINGTON

# 'Appropriate Action': Difference Is Not Only Linguistic

By MAX FREEDMAN

DESPITE the public statements of Mr. Rusk, who could hardly have said anything else, the Kennedy administration is deeply disappointed by the results of the SEATO meeting in Bangkok. The tendency here is to blame the French government. The key phrase in the communiqué is the promise to take "appropriate action" if no cease-fire can be arranged in Laos. But

Freedman

this phrase means different things to France and to the United States. The French government wants to go slowly in all plans for military action; the United States still regards intervention through SEATO as an inevitable policy of last resort.

tions could have provided a similar stiffening for the Royal Lao Forces, the result of the struggle would have been very different. It would be different even now if the United States could provide such troops.

Under the Geneva settlement of 1954 it was the responsibility of France to provide military training for the Lao troops and to protect the kingdom from subversion and attack. This task was performed most inadequately.

Added clerical costs. Ridiculous! No matter what the tax, the clerical work is just the same. He also says "It is necessary to keep the price structure on a percentage basis."

The gas stations are not paying more for the gas so why are we asked to pay them a profit on a tax which does not involve any investment on their part?

A further example of their gouging is that a mechanic did a garage job for me recently in less than 30 minutes. When I was charged \$3.50 for labor I asked why I was charged for a full hour. His answer was "We charge a full hour for any part of an hour."

F. C. HIGHFIELD.

PTA Thanks

May I, on behalf of the Victoria and District Parent-Teacher Council, thank the Victoria Daily Times for the space allotted to various meeting notices and the Children's Movie Guide. We were particularly pleased with the coverage given to the panel discussion on the Chant Report which was sponsored by the council.

MRS. EVA E. JOHNSTON, Recording Secretary, VDPTC.

Ridiculous!

The new three-cent tax on gas is bad enough but the president of the auto retailers puts the lid on it when he tells us that the gas stations must collect more than that to cover the cost

of added clerical costs. Ridiculous! No matter what the tax, the clerical work is just the same. He also says "It is necessary to keep the price structure on a percentage basis."

The gas stations are not paying more for the gas so why are we asked to pay them a profit on a tax which does not involve any investment on their part?

A further example of their gouging is that a mechanic did a garage job for me recently in less than 30 minutes. When I was charged \$3.50 for labor I asked why I was charged for a full hour. His answer was "We charge a full hour for any part of an hour."

At the request of the government of Laos and with the approval of France the United States in 1957 agreed to provide some military equipment and help. This assistance therefore was wholly legal in the sense that it was consistent with the terms of the Geneva settlement.

But the United States kept its direct military training to a bare minimum. Meanwhile the Communists were engaged in a constant process of subversion. Hence the unequal result today.

The defence department has been able to establish—by numerical and markings on the wings—that several of the planes that were sent by Russia into the Congo have now been sent into Laos. Although there is a lull at the moment in the fighting the Russian aircraft—including the delivery of artillery—is continuing without pause.

Ugly Facts

These ugly facts have made a far greater impression on the Kennedy administration than they have on the SEATO conference. The only interpretation of the SEATO communiqué is to realize that it will be given the maximum rather than the minimum meaning by Washington. Otherwise the road to another cheap Communist triumph will be wide open.

Every word of this report reflects the thinking of the most senior advisers of the Kennedy administration. The crisis in Laos is still being taken most seriously in Washington. Nothing has happened thus far in Bangkok or Moscow to suggest that the time for grim preparations has passed.

## FROM OTTAWA

# One of the Biggest Questions on Parliament Hill

By TOM GOULD

THE Canadian National Railways has submitted its annual report to Parliament and the Commons wolf pack is moving in for the kill. Leader of the pack is CCF MP Doug Fisher, who, having knocked the late C. D. Howe out of political life in 1957, has now set his sights on CNR president Donald Gordon. Mr. Fisher makes no secret of his intentions. He informs all and sundry "Gordon must go!" Parliament Hill is awaiting the meeting of the two men in the Commons railway committee, scheduled to take place after the Easter recess, with more than the usual interest.

Gould

Perhaps it is unfortunate for Mr. Gordon that this year's CN annual report is a very gloomy document, complete with a \$67,000,000 deficit, the biggest in CN history.

If that won't provide Mr. Fisher with ammunition what will?

## Bad Year

Altogether, it was a bad year for the publicly-owned railroad. The recession hit revenues with unexpected force. At the beginning of 1960, Mr. Gordon and his aides forecast a slight increase in revenue ton-miles.

In the words of the report "this prediction had to be drastically revised once the slackening in economic output and the associated downward trend in traffic was established in the third quarter."

It said that "instead of the anticipated increase, revenue ton-miles decreased 4.3 per cent. Operating revenues dropped \$47,000,000, or 6.4 per cent."

The CN's management made what can only be described as heroic efforts to minimize the traffic loss. It cut operating expenses by \$35,000,000.

The bulk of the deficit is comprised of fixed charges, more particularly, of interest on bonds, debentures, interest on government loans, and amortization of discount on bonds.

The CN's operating loss was only \$12,000,000, and its deficit before the above-named fixed charges was a mere \$6,000,000.

MPs intent on attacking the CN because of its deficit position are extremely vulnerable to counter-attack. The government itself imposed a freeze on freight rate increases, a move that

went unmentioned in the CN annual report.

The report contains but a passing reference to the approaching rail crisis, and the events that have led to that crisis.

It reads: "A wage dispute between Canada's railways and employees represented by the 15 non-operating unions culminated in the unions calling a strike for Dec. 3, 1960. Before that date, Parliament enacted the Railway Operation Continuation Act. The unions have since announced they will withdraw from service at the expiration of the act on May 16, 1961."

Behind that emotionless paragraph lies the whole issue of financing railway operations at a time of transition in the field of surface transportation.

More Pay

The non-operating unions want more pay. To meet their demands, the CN and the privately-owned CPR sought a freight rate increase. Because of the inherent unfairness of across-the-board increases, the government imposed a freeze on rate increases, and appointed a royal commission on transportation. Railway employees were forbidden to strike until May 16.

What happens on that date is one of the biggest questions on Parliament Hill. Until the royal commission reports, and the government acts, Mr. Gordon and his confidants on the CPR, N. H. Crump, have little control over the financial destinies of their respective rail operations.

Unlike most businessmen, they can't raise the price of their product to meet wage demands. Since, in the CN's case, wages and fringe benefits to employees total 63.2 per cent of expenses, this state of affairs gives them little elbow room.

# Cause of Hemophilia

Emeritus Consultant in Medicine, Mayo Clinic and Emeritus Professor of Medicine, Mayo Foundation

Many people who watch anxiously over a son who is a "bleeder" write to ask me what is wrong with these unfortunate people.

I was just reading a letter in the Journal of the AMA by Dr. Armand J. Quick, of Milwaukee, one of the world's experts on blood-clotting. He said that before 1947, the cause of hemophilia was unknown. Then, with the "prothrombin consumption test," it could be shown that the blood platelets—very tiny solid components of the blood—react with a factor in the plasma (the liquid part of the blood) to form thromboplastin.

It is this plasma factor that is lacking in cases of hemophilia. Since 1947, other factors have been found to be involved. In 1956, Drs. Quick and Hussey showed how the "hemophilia factor" can be measured exactly.

I regret that the process of blood clotting is so complicated, and the language so technical, that I cannot hope to explain it to a layman; I have a hard enough time to understand it myself!

As Dr. Quick says, as yet the new knowledge hasn't given us a cure for hemophilia but it has so helped experts to treat these sufferers that today "few hemophiliacs die from bleeding." Before 1946, few lived past the age of five years.

Many women who suffer from heavy menstrual or intermenstrual bleeding write to ask me what can be wrong. I cannot guess. The woman would do well to go to a good gynecologist who can check her pelvic organs for signs of disease.

If he cannot find any, he will ask a hematologist (blood specialist) to see if she has any abnormality in the clotting of her blood.

Recently, Drs. A. H. Seaman and B. C. Benson reported a study of 43 such women who bled abnormally, but did not have any demonstrable pelvic disease.

Six of them showed a prolonged bleeding time; four had prolonged partial thrombo-

plastin times; three had an abnormal thromboplastin generation, and others showed other rare abnormalities in blood clot formation.

Six of the patients evidently had inherited a tendency to bleeding. The rule that only men are bleeders is not 100 per cent true. A number of these women bled badly whenever they were operated on.

In a recent number of the Journal of the AMA, Dr. Warren H. Cole wrote that the board of directors of the American Cancer Society have now stated "The strong association between cigarette smoking and lung cancer has been established by an extraordinarily large amount of evidence."

"Twenty-eight studies have indicated that a history of smoking is more common among lung cancer patients than among those without the disease."

"Three follow-up studies of smokers and non-smokers have demonstrated that the death rate from lung cancer among cigarette smokers is about 10 times as great as among non-smokers."

"Cigarette smoking is associated with about 75 per cent of all cases of lung cancer. The incidence of the disease increases with the amount of cigarette smoking."

In a recent study, Drs. C. B. Thrasher and P. M. Beglin, of San Francisco, reported what happened to 2,000 men operated on for enlargement of the prostate gland.

The operation was transurethral (through an electrically lighted tube) in 1,327 cases; it was suprapubic in 614; perineal in 43; and retropubic in 16.

Important is the observation that the mortality rate for the transurethral operation was 1.8 per cent; while for the retropubic it was 6.25 per cent. Death usually was due to a heart attack or a blood clot lodging in the lung.

Some experts complain because, in some cases, a few years after a suprapubic operation the man may have to go back for another operation; but others say that it is better to have two operations with a very low risk than one with a fairly large risk.

Other experts have reported that in their hands, the big operations have been performed with a mortality under two per cent.

## LONDON LETTER

### The Price of a Minute Goes Up

LONDON—The rising cost of living—or at least of entertaining: the BBC reports that it now costs them an average of \$11,200 to put out each hour of television.

This is twice as much as it was five years ago.

Reflection of soccer's ever-falling gates: The Performing Right Society, which looks after the collecting of fees for music performed in public, has given the Football Association a new deal.

Formerly charges were based on the capacity of each ground.

But now that's considered "unrealistic" because of the dwindling crowds and in future the fees for music put out over the loudspeakers will be on a basis of how many fans show up, so much per thousand.

The proud boast of a million Britishers watch soccer each Saturday: these days has to be rephrased "varying between 400,000 and 600,000."

## HOME GARDEN

### Herb Study Fascinating Hobby

Small herb gardens are becoming more popular each year. Surprisingly enough, it is in the new gardens that we see the largest collections and what is more important, it is the younger women of our new communities who are interested in the growing and the use of these delightful plants.

Herb gardens are as old as the art of gardening itself. Centuries ago all the medicinal remedies were known as herbs. The study of even the herbs in common use today would make a fascinating hobby and many books are available on the subject. However, it is with the general culture of cooking herbs we are here concerned.

Choose a sunny spot of a size suitable for the number of plants you wish to grow, allowing one section for the permanent plants and a separate section for the annual kinds which must be sown each year.

The soil should not be made rich with fertilizer or manure, but well rotted compost may be added to a poor soil. It should be well drained, and near full sun is a necessity in order to obtain full fragrance and flavor.

Permanent herb plants are

attractive in appearance as well as useful. Shrubby little dark green thymes, light grey sage, grey-green rosemary with masses of dainty mauve flowers in April, and the grey of the purple-flowered lavender are all worth a spot in the landscape picture around the back door of the home.

Other perennial herbs are the yellowish-grey rue, bright green lemon balm and dark green mint. The last two should be confined in large metal cans sunk into the herb bed to control their wandering roots.

All the perennial kinds can be planted now, and if you can find French tarragon, plant that too. It is a scarce item, and I haven't seen any for the last three or four years.

As a move to combat poor attendances, there are conferences going on between the bosses of neighboring Chelsea and Fulham, two of London's best known soccer clubs, with a view to sharing one ground.

Craven Cottage, The Fulham headquarters, would be sold and both teams would be based on Chelsea's home, Stamford Bridge.

Advantages of this would be twofold. The money from the sale of Craven Cottage could be used for wide-scale improvements at Stamford Bridge, especially more comfort for the customers.

(Much of the blame for falling attendances is attributed to fans tiring of standing in the rain rather than sitting under cover.) And running costs would be cut by the over heads being halved.

Kirk Douglas, here to help Spartacus along, on why he's never written his life story: "I sat down to write it once and when I had it transcribed from tape it read like a script for a B picture."

"I could practically hear violins throbbing in the background. Tough guy? I could have wept. My life has been corny."

## WEATHER SYNOPSIS

**CITY'S WEATHER RECORD**  
Sunshine, 1961 292.7 hrs.  
Last year 326.4 hrs.  
Normal (30 yrs.) 325.0 hrs.  
Precip. to date 14.72 ins.  
Last year 9.94 ins.  
Normal (30 yrs.) 9.97 ins.

**SYNOPSIS**—A surge of cooler air moving over B.C. is accompanied by variable cloudiness, a few widely scattered showers near the mountains and strong northwesterly winds in many areas. Winds are expected to decrease slowly tonight otherwise weather across the province should remain much the same through Tuesday. The new air mass moving over the province will bring cooling of up to 10 degrees.

**DOMINION PUBLIC WEATHER OFFICE OFFICIAL FORECASTS**  
Valid until midnight Tuesday  
Victoria: Mostly sunny today and Tuesday. A little cooler. Winds westerly 30 and gusty, decreasing to 20 tonight. The low tonight and high Tuesday at Victoria 40 and 52.  
Vancouver: Mostly sunny today and Tuesday. A little cooler. Winds northwest 30, locally gusting to 50 this morning, decreasing to 15 tonight. The low tonight and high Tuesday at Vancouver airport 38 and 52.

40 and 52; Abbotsford 38 and 52; Nanaimo 35 and 52.

## UN STAYS IN BACKGROUND

### Peace Emissary To Meet Gizenga On Congo Pact

LEOPOLDVILLE (AP)—In the role of mediator, a Lumumbist official who is on speaking terms with President Joseph Kasavubu's central government arranged a peace flight today to the rebel stronghold in Stanleyville.

Cleophas Kamitatu, president of Leopoldville province, said he would sound out Antoine Gizenga, head of the Stanleyville regime in Oriental province, about joining the confederation of Congolese states that The Congo's anti-Communist political leaders are putting together.

The UN Congo command agreed to give Kamitatu transportation to the rebel capital 775 miles northeast of Leopoldville, but it is not a party to any negotiations.

Gizenga, who calls himself premier of all The Congo and is recognized by the Communist bloc and a few African states, has snubbed previous bids to join the new confederation.

Kamitatu said he was undertaking his mission as a neutral and not as an emissary of the Kasavubu government.

**POLITICAL ASSOCIATES**  
Kamitatu and Gizenga were both political associates of the slain Patrice Lumumba, who had advocated a strong central government rather than a loose federation of states. After independence Lumumba's government was unable to hold The Congo together.

When Lumumba was ousted by Kasavubu last September, Gizenga fled to Stanleyville, set up a rump government and claimed the premiership after the nationalist leader was slain.

Kamitatu remained in Leopoldville and once was arrested by the central government. Since then he has shown a degree of co-operation with Kasavubu and was one of the signers of the Tananarive proclamation of confederation.

For days Kamitatu had been trying to arrange a meeting with Gizenga. He charged that Kasavubu's government had blocked his previous efforts.

The Leopoldville provincial leader said he was going now as sort of a messenger—bringing a proposition to Gizenga and returning immediately with counter proposals.

This is the most ambitious effort yet to bring about a reconciliation of the two factions.

**STILL OPPOSED**  
Reports from Stanleyville, however, say that Gizenga's regime is still opposed to changing The Congo constitution to set up semi-independent states in place of the republic government.

Gizenga has recognized Kasavubu's position as president of The Congo—largely an honorary post under the constitution but he has accused him of falling under the domination of Katanga province's president Moise Tshombe, the Lumumba faction's bitterest enemy.

As a followup to the meeting in Tananarive, another conference was scheduled to start Wednesday at Kamina, Katanga, to formulate further the confederation. But the Katanga government raised the possibility the meeting would not be held after the UN command sent 1,000 Gurkha troops from India into the province.

Tshombe charged that the sending of the Indian troops was a "deliberate manoeuvre on the part of certain elements in the United Nations" to block the confederation.

## JFK Wants

### Negroes In Top Jobs

WASHINGTON (UPI)—The Kennedy administration has embarked on the first step in a nationwide drive to recruit college-trained Negroes for upper-level jobs in the federal service.

It is in line with an order by President Kennedy for the government to take "positive measures for the elimination of any discrimination, direct or indirect, which now exists" in government hiring.

Ross Clinchy, a civil service commission official assigned to minority group matters, left Sunday on a six-week tour of 24 predominantly Negro colleges. Later, he will visit 70 additional colleges with heavy Negro enrollments.

## MERIT SYSTEM

There, according to the commission announcement, he will try "to encourage more well-qualified Negroes to apply for federal employment through the merit system."

Clinchy's mission—which could have eventual political importance—is the brainchild of commission chairman John W. Macy Jr., and is strongly backed by Vice-President Lyndon B. Johnson, chairman of the president's committee on equal employment opportunity.

The endeavor is the first concrete move by the new committee to implement what Johnson has described as "the basic policy of this administration" that federal jobs shall not be denied on the basis of race, creed, color or national origin.

## WEAKER SEX? WELL, IT'S LIKE THIS

WASHINGTON (AP)—The margin by which American women outnumber—and outlive—men is increasing.

The census bureau said Sunday preliminary data from the 1960 census shows there were 100 women for every 97 men when the count was taken last April. In 1950, the ratio was 100 women to 99 men.

Prior to 1950, men outnumbered women.

## 'MONSTER LOOSE'

### Labor Youth Seeks Scalp Of Gaitskell

LONDON (Reuters)—Young socialists called Sunday for the resignation of Hugh Gaitskell as Labor Party leader after a stormy debate at their annual conference.

They carried a resolution urging Gaitskell's resignation by a vote of 189 to 113. One speaker said there was "a monster loose in the party" and another denounced "the so-called leader" for openly opposing decisions of the party's annual conference.

Gaitskell told the annual conference of the Labor Party last October that he and his Parliamentary colleagues would fight the conference's resolution demanding unilateral renunciation of nuclear weapons.

**Oil Industry to Run Ahead Of Nation's Full Economy**  
 MONTREAL (CP)—A. N. Lilley, president of Texaco Canada Ltd., predicts the petroleum industry this year will grow at a faster rate than the economy as a whole.  
 His forecast in the company's annual report followed remarks that excess refining capacities in 1960 sharpened competition and forced prices down.  
 The report showed, as previously reported, net earnings in 1960 of \$11,100,187, or \$3.38 a common share, up from \$10,388,014, or \$3.18 a common share in 1959.  
 Sales increased to 31,691,651 barrels from 31,376,915 barrels in 1959, despite reduced heating oil sales in the fourth quarter of 1960 due to mild weather.  
 Capital expenditures last year totalled \$15,574,658, down from \$15,924,089 in 1959. The long-term debt was cut by \$2,229,500.

**Construction Awards Down For Quarter**  
 TORONTO (CP)—Canadian construction awards in the first three months of the year totalled \$515,466,609, down \$102,350,700 from the corresponding period last year, says Hugh C. MacLean, Buildings Reports.  
 An 18-per-cent increase in the residential category and a small increase in engineering, were more than offset by decreases in industrial and business contracts. All regions, except Quebec, were below last year's level.

**Imperial Oil Ltd.**  
 W. O. Twaits, president of Imperial Oil Ltd., in the company's annual report, has a planned search under way for new uses for petroleum, and this and other phases of company development were backed by "the largest industrial research and development effort in Canada."  
 With growth of pleasure boating, the company had increased its representation in fuels and products for this trade.

Imperial's export sales of Canadian crude in 1960 averaged 44,000 barrels a day, higher than for any other year except 1956 and 1957 when the Suez crisis resulted in large sales volumes. A new export market was opened in the Detroit-Toledo area.  
 As announced earlier, Imperial in 1960 had net earnings of \$61,202,000, or \$1.94 a share, compared with \$54,525,000, or \$1.73, in 1959.  
 Income from 1960 operations was \$361,886,633 as compared with \$357,433,797 in 1959.

**Gatineau Power Reports Increase In 1960 Profit**  
 MONTREAL (CP)—Gatineau Power reported net earnings in 1960 of \$4,549,328 or \$2.25 a share, compared with \$4,089,773 or \$1.98 a share in 1959.  
 Operating revenue increased to \$19,212,493 from \$18,109,567 in 1959.  
 Electricity demands, 10 per cent higher over 1959, was 738,000,000 kwh. The total number of customers served amount to 101,800, all in the province of Quebec.

**March contracts totalled \$173,869,300, down \$14,611,200 from March, 1960.**  
 Three-months figures by categories are: residential \$142,860,900, up \$21,860,400; business \$160,324,800, down \$72,223,900; industrial \$41,318,200, down \$55,751,700; engineering \$170,962,700, up \$3,764,500.  
 Three-month figures by regions: Atlantic \$43,246,700, down \$42,860,600; Quebec \$122,393,800, up \$4,582,000; Ontario \$213,125,500, down \$35,734,800; Western \$136,701,200, down \$28,837,300.  
 March figures by categories: Residential \$58,905,800, up \$18,056,200; business \$47,400,700, down \$32,072,800; industrial \$6,399,500, down \$16,033,000; engineering \$61,163,300, up \$15,438,400.  
 March figures by regions: Atlantic \$6,709,800, down 20.3 per cent; Quebec \$53,022,500, up 50 per cent; Ontario \$51,692,700, down 46.8 per cent; Western \$62,464,300, up 31.5 per cent.  
 The figures represent about 50 per cent of total new and repair construction and more than 80 per cent of new construction.

**Savings, Loans Both Increased Over Last Year**  
 OTTAWA (CP)—Savings on deposit in Canada's chartered banks at Feb. 28 amounted to \$7,402,000,000, up from \$7,319,000,000 a month earlier and the \$7,005,000,000 total for Feb. 29, 1960.  
 The chartered bank statement for February also showed that call and short loans in Canadian funds amounted to \$253,000,000 at the end of February, compared with \$247,000,000 a month earlier and \$228,000,000 a year earlier.

**Buy an annuity and live**  
 Financial insecurity can lead to a barren and lonely existence for the older person. Those years after 60 can also bring the fear of out-living capital and the worry of managing the savings of a lifetime. The result—often severe stresses that can be dangerous to both physical and mental health.  
 People who buy annuities buy freedom from worry and fear. Our annuitants find that a regular income guaranteed for life brings peace of mind, helps make those sunset years a rich and satisfying experience. And we know that many live to a ripe old age.  
 Whether you are 30 and buying an annuity in advance or you are 70 and want payments to start now there's an annuity designed to bring you peace of mind. The Man from Manufacturers would be pleased to give you the complete story. Be sure to ask him about the favourable tax picture.

## PRIEST GUNS CONVICT AFTER BURGLARY BID

DENVER, Colo. (AP) — A convicted burglar and narcotics violator was shot to death by a priest during an attempted burglary of St. Catherine's Roman Catholic Church rectory in north Denver Sunday night.

Police said Msgr. Delisle A. Lemieux, 59, surprised Richard Eugene Sanders, 26, and a companion as they searched drawers in the dining room of the rectory.

Detective Capt. Roy Tangye said the priest was alone in the rectory when he heard noises in the dining room. The priest, armed with a .12 gauge shotgun, surprised the pair.

Tangye said the priest reported he was holding the men at bay when they tried to jump him. He fired, hitting Sanders. The other man fled.

Sanders died a short time later in the operating room at hospital.

## 'PRAY FOR PLAY'

## Teenagers Flock To First United

By HAL JONES

One of the most active boys clubs in Victoria is run by First United Church and regular church-going is one of the main conditions to be met by prospective members.

For 10 years, now countless numbers of teenagers have taken advantage of the club's sporting activities, and in return teenage attendance at First United has been increased.

The club program revolves around basketball, although members do get an opportunity to learn business sense and also to conduct charitable projects.

### 125 MEMBERS

At the moment membership totals 125 youngsters. For the purposes of basketball these are split into three groups and meet three nights a week.

The bantamweight division—under 16s—meet Wednesday; midjets—under 14s—meet Thursdays, and pre-midjets—under 12s—meet Friday.

They are controlled by no fewer than 25 leaders.

The excellent facilities have paid off handsomely with the club's representative teams notching up quite a few titles.

The bantams were runners-up in the B.C. championships last year and were champions the previous year, while the midjets have been B.C. champions for the last two years in their division.

### SIX YEARS

The club has only been entering the bantams in provincial tournaments for six years and has ended up representing

Vancouver Island in the tournaments each year.

Already this year the bantams have taken the lower Vancouver Island championship and recently won the Island title by beating Nanaimo 82-18 in the second game of a total-point final.

At Duncan on Saturday the midjets beat Alberni 34-24 in a thrilling final to take the Vancouver Island championship. (See page 10.)

First United's pre-midjet team didn't fare so well a week ago when it lost its provincial title to St. Patrick's by a score of 13-32 in the final.

Pre-midjet-teams from all over Vancouver Island travelled to Victoria to take part in the all-day tournament to decide the champions of B.C.

The girls title went to Duncan for the third year after a 4-2 win over Brentwood.

### 20 REFEREES

A team of 20 referees kept a check on the games which ran from 8:54 a.m. until after 9 p.m.

On normal club nights the boys are umpired by city league referees who donate their services and time to the club free of charge.

Apart from their sports nights, however, the whole club meets once a month for a business session. At these they usually hear an experienced speaker or see an interesting film.

Each year the boys collect magazines and give them to the TB ward of Royal Jubilee Hospital. At Christmas they collected food for First United Church's welfare program.

## CITY OPTIMISTIC

## Record Building Year

Victoria appears headed for a record construction year with March building permit values rocketing past all previous marks.

City Hall issued 539 permits worth \$1,179,768 last month, compared with permit values ranging from \$555,165 in 1956 to a previous high of \$741,192 in 1960 for the month.

Well over \$500,000 worth of new construction is slated for the downtown area, including permits for a \$450,000 Canada Permanent Mortgage building, the \$105,000 bus terminal at the Empress Hotel and two 19-suite apartment buildings valued at \$140,000.

The March figures pushed the totals for the year's first quarter to a record value of \$2,254,645 from 1,509 permits. Last year the totals stood at 1,585 permits worth \$212,878 by the end of March.

City planning and inspection

chief Roderick Clack said there is every indication of a record year "particular projects in Victoria during the coming months."

# Courtesy Squads Shunned

LONDON (Reuters) — British drivers are steering away from gas stations with squads of attendants standing ready to scrub windshields, measure oil levels and check radiators while they "fill 'er up." The idea of increased sales through increased service boomeranged and many "forward-looking" garage owners found that sales were dipping despite well-trained courtesy squads.

"It is part of the British character not to like the act some garages put on in other countries of getting attendants to wipe all over the windshield and sometimes the customers," an official of the Motor Agents' Association explained.

But, he added, "the British motorist does like the pump attendant with a cheerful smile who remembers his name and says 'good morning.'"

Some British cynics, however, attributed the aversion to drivers' fears of having to pay a tip for such "un-British" behavior.

**\$200,000 GEM THEFT**  
GRAND RAPIDS, Mich. (AP)—A gang of burglars, described by police as "obviously professionals," escaped with \$200,000 in raw gold and other jewelry items from a jewelry manufacturing firm early Sunday.

**HEIR** of her own was born Sunday in a New Jersey hospital to runaway heiress Mrs. Gamble Benedict Porumbearnu, 20. Since her marriage to Romanian-born chauffeur last year, Gamble has been embroiled in court battle over grandfather's estate, reputed to run into millions.

## Freak Mishap Kills Woman

VANCOUVER (CP)—Nasib Singh, 28, of Vancouver, was killed in a freak accident here Sunday when she fell from a three-ton dump truck. It is presumed the vehicle ran over her after the fall. Police have been unable to locate the driver of the truck and say he may be unaware of what happened.

## STAGE SHOW SEEN LIVE ON PAY TV

NEW YORK (AP)—For the first time, a current Broadway stage show was displayed live Sunday over a pay-television circuit.

Show Girl, a revue starring Carol Channing, went in its two-hour entirety to the 5,800 subscribers participating in the TelemeTer installation at Etobicoke, Ont., a suburb of Toronto.

The performance, given before an audience at the Eugene O'Neill Theatre, was taped simultaneously for repeat showings over the same circuit later in the week.

## ALL-ROUND GOOD SHOW

# City Talent Fans Ice Capers Spark

The Victoria Skating Club annual "Ice-Capers" in the Memorial Arena Saturday afternoon and evening showed primarily what "home grown" products can do.

Performances were excellent, better than the casual viewer would have expected.

### THEY FANNED IT

While guest stars Judianne and Jerry Fotheringhill, brother and sister and U.S. junior pairs champions, put the original spark in the performance, it was kept fanned and brightly lit by club participants.

Among these were Karen Kattler, a promising junior; Janet Stenstrom, a clever skater; Carol Johnson, ability plus personality; Berna Pedneault, who exemplified fluent style.

Tops in teamwork was shown in the duo number of Sharon Wood and Deirdre Humphries and in the quartet presentation of Lorraine Hyne, Linda Roe, Len Simpson and Martin Bowles. The comedian, young Bruce Kaiser, was popular.

Lighting effects and costumes were carefully and competently used to the best effect.

### Mine Sitdown Ends

CAGLIARI, Sardinia (AP)—About 300 lead and zinc miners seeking higher wages Sunday ended a 17-day sitdown strike 1,300 feet underground in the nearby Montevecchio mines after agreement by union and management representatives to resume contract negotiations.

# Old Jinx, and Bigelow, Too Much for Medallist

## Wakeham, Munn Victims In First-Round Matches

By ERNIE FEDORUK

The pro's prize for winning medal honors in the Times Vancouver Island Open and Handicap Golf Championships is \$50, and as of Sunday Art Donaldson and Laurie Carroll both feel much better that they missed it.

The honors went to amateur Bill Wakeham, and one-time Canadian junior tee king promptly fell victim to the jinx that has plagued all medallists in the Island's most important match play golf test.

"Maybe it's a good thing I didn't win that medal," muttered Donaldson as he watched Wakeham fall victim to a jinx that has prevailed ever since the tournament became a major fixture in 1950.

No medallist has ever won The Daily Times Trophy.

The old bugaboo got able assistance from Dr. George Bigelow Sunday. A former victim of the jinx himself, the medical man downed Wakeham on the 18th green in what was the highlight of the opening round of match play.

Bigelow, Donaldson, Carroll and 13 other survivors of Sunday's matches at Uplands now pick out a line towards Oak Bay, where next weekend's battles take place.

Quarter-finals are scheduled for Royal Colwood, April 16, the semi-finals at Gorge Vale, on April 23, and the finals at Uplands, April 30.

Wakeham was one of two former champions falling to the wayside in a round that provided one surprise. Donaldson defeated Uplands' Joe Briggs, the 1956 titleholder, but the day's upset was recorded when Norm Bodin, a crew-cut greenskeeper from Gorge Vale, sidlined Cedar Hill's Dick Munn.

Bodin, showing his greatest strength on the greens, defeated the 18-year-old Munn on the 18th.

Munn, runnerup for the British Columbia Amateur title last season, couldn't match Bodin's strong and steady putting although he hit 13 of 18 greens compared to only seven by his Gorge Vale rival.

MacLeod looms as a distinct threat. Located in the bottom half of the draw — seemingly the easier half — MacLeod was even par in defeating BCGA president John Carlow, 6 and 5.

More important, very few of the golfers who teed off Sunday could have matched the sureness and authority which the blond pro displayed on all shots.

MacLeod looms as a distinct threat. Located in the bottom half of the draw — seemingly the easier half — MacLeod was even par in defeating BCGA president John Carlow, 6 and 5.

More important, very few of the golfers who teed off Sunday could have matched the sureness and authority which the blond pro displayed on all shots.

## FAMED BLACKPOOL ACE TO JOIN TORONTO CLUB

TORONTO (CP)—Stanley Matthews, 46-year-old veteran of England's Blackpool soccer team will play for Toronto in the newly-formed Eastern Canada Professional Soccer League.

The famed wing forward of the English League's first division is reported to have rejected an offer from Israel. Officials of Toronto City, one of four teams in the new league, declined to say how much Matthews cost them.

Montreal industrialist Sarto Marchand is president of the new league.

## Barber Enjoys Azalea Event

WILMINGTON, N.C. (AP)—Jerry Barber parred the first extra hole of a sudden-death playoff Sunday to beat Chandler Harper of Portsmouth, Va., for top money of \$1,200 in the \$12,000 Azalea Open golf tournament.

Barber, who will be 45 this month, scored a pair of one-under-par 71s Sunday for a 213 total to tie with Harper, 47, who closed with 68-74 in the 54-hole tournament.

On the extra hole, Barber unleashed one of his best drives of the day, and was on the green in two, about 35 feet from the hole. Barber tapped his first putt four and one-half feet from the pin and nailed down his winning par after Harper had missed a putt.

SECOND WIN

Victory for Barber made him the first two-time Azalea champion in the tournament's 13-year history. He scored his first major victory here eight years ago. Harper, 1950 PGA champion, won \$1,000 runner-up money.

Dow Finsterwald shot a 72 that gave him 215 and a three-way tie for third with Tom Nieporie of Bronxville, N.Y., the defending champion, and George Knudson of Toronto. Each won \$806.

Toronto's Jerry Magee finished with a 74-75-77-224 in a seven-way tie for 19th place and pocketed \$110.16.

Montreal's Al Johnson ended with 78-75-77-230, good for \$50. So did Calgary's Keith Alexander, an amateur, who had rounds of 79, 75 and 76.

## UNDERSTANDING AUDIENCE

Lending sympathetic ear, Joe Briggs (right) listens while Bill Wakeham explains how close he came to making bold putt on last green in bid to avert elimination from Times Vancouver Island Open golf tournament. Close wasn't good enough, and

Wakeham joins Briggs on sidelines. Both former winners of Island Open title, they were major casualties in Sunday's first-round battles at Uplands. Second round is slated next Sunday at Oak Bay. (Times Photo.)

## Jones Wins Point Title; Cougars Face Canucks

Art Jones, a journeyman centre with Portland Buckaroos, came through with an assist Sunday night and it was enough to give him his first Western Hockey League scoring title.

He beat out Calgary's high-scoring winger Lou Jankowski by one point.

Jones finished with 36 goals and 64 assists for 100 points while Jankowski had a record-breaking 57 goals and 42 assists for 99.

The slick Portland centre

won the title in the final game of the season as his team dropped a 5-4 overtime decision to the fifth-place Spokane Comets.

In other action Sunday, Totems blasted Victoria Cougars 5-3 at Seattle.

Buckaroos were shut out for the first time this season Saturday night when the visiting Vancouver Canucks blanked them 3-0.

Jankowski was not in action Saturday as the league-winning Stampede wound up

their schedule with a 5-3 win over Winnipeg Warriors.

In Saturday's other game, Cougars went down to their fifth straight defeat, losing a 7-2 decision at Spokane.

The double losses by Portland and Victoria meant little to either team but Vancouver's victory was a big one since it enabled Canucks to take third place over Seattle.

Seattle now plays Calgary in a best-of-seven semifinal. Vancouver and Victoria meet in a best-of-five series with Portland and Spokane playing a best-of-five semifinal series.

Winner of the Calgary-Seattle playoff advances to the WHL final while the winners of the other two series meet in a best-of-five semifinal.

START TUESDAY

Cougars and Canucks open their series at Vancouver Tuesday night, play the second game at Victoria Wednesday and return to Vancouver for the third game Friday night.

If a fourth game is necessary, it will be played Saturday at Victoria.

Vancouver and Seattle each finished with 79 point but Canucks got third spot since they had accumulated more wins than Totems.

Portland's double loss was an inglorious way for the rookie club to finish a most successful season. The Buckaroos were only five points from the winning Stampede.

TWO FOR KENNEDY

Jim Powers led Canucks with two goals with Larry Cahill getting the third.

In Spokane, Forbes Kennedy scored twice for Comets with singlesmen Max Meklik and Topoli. Bill Folk, Ching Johnson and Dick Lamoureux.

Victoria marksmen were Barrie Ross and Bert Fizzell. Comets blasted four first-period goals in Portland Sunday and then the Buckaroos came back to tie it 4-4 after the second.

BELL GETS WINNER

The teams then played a scoreless third period before Bell won it for Comets in overtime.

Other Spokane scorers were Steve Withup with two, Kennedy and Carl Kaiser.

Gandy Haworth, Larry Leach, Ed Dudych and Ron Matthews were the Portland snipers.

Mare Boileau and Murray Wilkie each scored twice for Seattle Sunday with other goals going to Tom McVie, Ed Stankiewicz, Bill MacFarland and Guy Fiedler.

Victoria marksmen were Bert Fizzell, George Ford, Doug Macauley, with two, and Bill Saunders.

NEW YORK (AP)—Carry Back won the \$115,000 Florida Derby, while a new threat named Songman popped up in California Saturday as the three-year-old horses enter their final five weeks of preparation before the Kentucky Derby.

The first of the classics making up the Derby-Preakness-Baltimore triple crown is the run for the Roses of Louisville May 6, and it still shapes up as a wide-open scramble.

At Gulfstream Park Saturday, Carry Back, the Caliente

book's Kentucky Derby favorite at 5 to 1, came from far back to beat Crozier by a head. Beau Prince was third.

Jenny Sellers rode Carry Back. The colt paid \$5.20 and earned \$75,000.

Songman scored a neck victory over the Alberta Ranches

Flutterby, while Wire Us was third, another neck away in the \$10,975 California Derby trial at Golden Gate Fields.

Songman ran the mile in 1:36, fastest of the meeting, and qualified for the \$50,000 California Derby at Golden Gate April 15.

MIAMI BEACH, Fla.—Emile Griffith, 145, New York, knocked out Benny "Kid" Perez, 160, Cuba, (13) Griffith wins world's welterweight title.

### VICTORIA 3, SEATTLE 5

FIRST PERIOD

# Wings Waiting for Hawks To Make It 'All-American'

Superb Checking By Black Hawks Blanks Canyans

MONTREAL (CP) — Montreal Canadiens today find themselves in a plight they haven't experienced in five championship years — on the ropes in a Stanley Cup playoff series.

And unless a formula can be found to upset Chicago Black Hawks' effective checking, the desperate Canadiens may miss the cup finals for the first time in 11 years.

This situation was brought about Saturday night when the Black Hawks, checking superbly and backed by Glenn Hall's faultless goaltending, blanked the Canadiens 3-0 to take a 3-2 lead in their best-of-seven semifinal.

Hawks now are in a position to wrap up that series at home Tuesday and reach the finals for the first time since 1943-44. If a seventh game is necessary it will be played at Montreal Thursday. The winner goes against Detroit Red Wings in the final.

Defenceman Elmer (Moose) Vasko shot the Hawks in front in the second period with a whistling 45-footer that eluded goalie Jacques Plante while the Canadiens were short-handed.

## BID STALLED

The Habs opened up in the last period but the last-ditch bid was stalled. The Hawks, meanwhile, struck for quick goals by Ab McDonald and Stan Mikita in the dying minutes to make sure this clutch game was theirs.

"Well, you can't say now that we can't come up with a clutch game," coach Rudy Pilous exclaimed while greeting reporters in the Black Hawks' dressing room after the game.

"But we've still got to win one more," Pilous added.

Coach Toe Blake of the Canadiens was dejected.

"We were simply outplayed and outthrust," Blake said. "But we've done it the hard way all season. So why should we stop? There's no reason why we can't come back and beat them."

Canadiens, winners of the historic cup for the last five seasons, have never failed in any other series since they lost in the seventh game of the 1955 cup final to Detroit.

And if losing the game was a blow to Canadiens' championship hopes, the shutout was something of a humiliation in itself.

The last time they were shut out in a Stanley Cup series was at Boston, April 14, 1957. The score was 2-0.

## HABS INEFFECTIVE

Lack of effectiveness, with a disappointed crowd of 14,758 looking on, proved to be the Canadiens' downfall Saturday. When they did muster an all-out attack and the Chicago defence wavered, Hall came to his mates' rescue and was the whole show.

Hall, the NHL's ironman goaltender, who hasn't missed an appearance in 428 scheduled and 30 playoff games, turned back one blistering shot after another.

He said he felt "tremendous" after recording his first shutout in playoff competition.

## Len Shakes Early Jitters For First Win

VANCOUVER — Medalist Len Collett, Marine Drive professional, survived early jitters to come on and defeat Ed Sparrow at the Vancouver Golf Club, one up, Sunday to advance into the second round of the Vancouver City match play open.

Second round will be played next Sunday.

Feature match should be between Joe Jeroski and defending champion Lyle Crawford. Both won their first-round matches easily Sunday. Jeroski defeating Al Kennedy, 3 and 2, and Crawford winning by the same score over Babe Goodfellow.

Collett, only player in a field of 132 to break par, led qualifiers with a one-under 71-Fri. day. George Meeker and Gord Fairbairn shared runner-up honors with 74. Crawford qualified with a 78.

## Great Gordie the Culprit As Leafs' Pockets Picked

TORONTO (CP) — It wouldn't be entirely incorrect to say that Gordie Howe has picked Toronto Maple Leafs pockets of a few thousand-dollar bills. When a guy skates you dizzy and scores the clutch goals as Howe has done, what else could Leafs think?

This was the way the Toronto hockey players probably looked at the situation today when they thought of the pay cheques Howe and his Detroit Red Wing teammates will pick up by advancing into the Stanley Cup final at their expense. After all, Leafs were only supposed to show up for the best-of-seven semifinal with Wings because that's what the schedule called for.

The Wings refused to roll

over and play dead despite the 1-to-4 odds quoted against them. They rewrote the script after Leafs won the opener 3-2 in overtime and smacked Leafs' four straight, ending with a 3-2 victory Saturday night for a cup final berth.

Now they can rest a few days while Montreal and Chicago fight for the other final spot.

## ALL-AMERICAN FINAL?

Prospects for the first "all-American" final since 1950 squared Saturday when Chicago grabbed the lead in their series with Montreal.

Wings are already \$9,000 up on the Leafs. They picked up \$22,500 for their semi-final victory against Toronto's share of \$13,500. But the big dough is in the championship round where players of the winning team divide a \$31,500 pot and the losers a mere \$13,500.

The 33-year-old Howe, one of hockey's all-time greats, must be itching for that extra money. Detroit teams haven't hit the final since 1956 when Wings lost in five games to Montreal and he's playing now at almost the peak of his 15-year National League career.

He scored the game-winning goals against Leafs in the third and fourth games when Wings won 2-0 and 4-1 and then celebrated his 100th appearance in a cup game Saturday by scoring the opener and assisting on the second that shot Detroit into a 2-0 first-period lead.

Nearly 14,000 fans, who usually die for their heroes, reserved their applause for the 200-pound rightwinger from Floral, Sask., who performs as if he has a string attached to the puck.

Len Lunde and Al Johnson were the other Detroit snipers and Red Kelly and Dave Keon looked after the Toronto scoring in the game that, at times, was a poor excuse for pro hockey.

Howe scored when Wings were short-handed through a tripping penalty to Howie Glover and fired a perfect strike to Lunde for the second goal that broke Leafs' heart. Both came in the first period and the Leafs didn't come to life again until near the end of the second when Kelly popped one past Sawchuk.

two, Alex Stewart, Tim Walker and goalie Al Davies, on a penalty kick—scored for Evcoes.

At Vancouver, Victoria all-stars received a great net-minding display from Barry Sadler but still lost a 3-2 decision to the Mainland League's select on Saturday.

Art Hughes scored twice, and Roy Nysella supplied the other counter for Vancouver, while Walker and Antol Major counted for Victoria.

**RED BOUND-ROBIN PLAYOFFS** — Muskegon 1, Port Wayne 1.

**EASTERN PROFESSIONAL** — Sault Ste. Marie 1, Kingston 4.

## Chapman Extends Top-Ranked Star

NELSON (CP) — Bert Fergus of Vancouver, Canada's second-ranked player, retained one of three titles in the Kootenay Open badminton championships here Sunday.

The 28-year-old school teacher won the singles title after wearing down a determined bid by Mel Chapman of Victoria, 15-8, 12-15, 15-12.

Fergus and his partner were defeated in the quarter-finals of the doubles and he did not enter the mixed doubles. He won both titles last year as well as the singles.

Marlene Gardner of Williams Lake won the women's singles.

# Punch, Youth On Emile's Side

MIAMI BEACH, Fla. (AP) — Newly-crowned welterweight champion Emile Griffith appears to be on the road to riches, with a punch to knock his opponents down and the youth to continue it a long time.

The 22-year-old former hatter clouted out champion Benny (Kid) Paret with a 13th-round left hook to the chin Saturday night. He showed both that he packs a wallop and that he can go more than 10 rounds.

Griffith, whose first professional fight was three years ago, limited himself to 10-rounders before he signed for 15 against the Cuban veteran. The Virgin Islands-born Griffith, who fights out of New York, said he felt strong at the finish.

Paret has a return bout coming to him, but he said he first wants some rest—perhaps 90 days.

Griffith said his co-manager, Gil Glancy, "woke me up" after the 12th round.

"He told me I had to have

all the next three," Griffith said. Impressed by this admonition, Griffith saw an opening after he took two body blows and glared Paret's eyes with the knockout punch. Paret took another left and a right on the way down to his first count of 10 in 46 fights.

Griffith, with years of youth ahead of him, can look forward to fighting eventually in welter and middleweight divisions. Both have been popular for telecast and the income from that source should be considerable for a fighter who can stay on top.

## ROCKY GOES TO DOGS

RAYHAM, Mass. (AP) — Former world heavyweight boxing champion Rocky Marciano will do promotional work for the Rayham Park dog track this spring.

## ALL-KIDS' DAY ON THE 'FARM'

Kids met kids today as second annual Easter display by various South Malahat district 4-H Clubs opened for a week's show in Eaton's department store. Admiring kid held by Wendy Baker are Mrs. S. R. Manuel, 867 Seymour, and daughters

Lorraine (left) and Diane. Lambs, kids, calves, ducklings and gardening, home-making and tractor displays are on view until Saturday on third floor of main building. (Times Photo).

## BONNET BONANZA SPARKED BY RAIN

There are 288 women in Greater Victoria entitled to a 20 per cent refund on their Easter bonnets . . . all because it rained Easter Sunday.

Spencer's Stores Ltd. on Douglas and Government promised the staff clientele who purchased chapeaux in the month prior to Easter that if the rains came to dampen Easter Sunday they would get a cash return.

The first woman was in the Douglas Street store a few minutes after 9 a.m. today. She received \$1.08 on the purchase of a hat which originally cost \$5.49.

Spencer's lost by minutes. Payoff was based on official rainfall as measured by the weather office.

While there was rain off-and-on all day, it wasn't measurable. The deal was that it must measure at least one-hundredth of an inch between 6 a.m. and 6 p.m. before refunds could be given.

Rain started to pour at two minutes to six.

## TOPICS OF THE DAY

Esquimalt Golden Age Club will meet in the community hall, Esquimalt Road, Wednesday afternoon at 2 when nomination of officers will take place.

Close to 40 horsemen and women from three local clubs took part Sunday in the first outing of the season under Colwood Trail Riders' sponsorship.

They left from two separate points, at Burnside and Helmcken and in Langford, and met for wieners, beans and coffee at the Brotherston cabin behind Thetis Lake. Later they continued into the Highlands for a total ride of 25 miles.

Organizer was Earle Palliser of Colwood Trail Riders.

Victoria Aged Pensioners No. 3 will hold a general meeting Tuesday at 2 p.m. in the Britannia Legion hall, Blanshard and Cormorant.

The executive reminds members that they are guests each Friday at Cedar Hill golf course.

General meeting of Sangster PTA will be held in the school Tuesday at 8 p.m., when John Williams of the school board will answer questions on the proposed changes in the educational program. A film on underwater photography also will be shown.

Two social events have been organized this week by Victoria Adoption Committee for Aid to Displaced Persons in Europe.

A tour of Weston's Bakery is set for Thursday, at 10.30 a.m. and a program of music, featuring the Goward family, will be held at the home of Dr. D. B. Gaddes, 1345 Victoria Avenue, 8.30 p.m. Friday.

Tickets are obtainable at EV 2-1780 or EV 3-4036. Proceeds will help the committee's work.

W. R. Botton will speak on begonia culture and Robert Pederson will give an illustrated talk on gladiolus at the monthly meeting of the Victoria Horticultural Society at the City Hall, Tuesday, starting at 7.30 p.m.

Two people were fined \$10 and \$2.50 costs each when they appeared in Sidney RCMP court Saturday charged with being in possession of liquor on an Indian reserve.

They were Henry Albert, Cole Bay Reserve, and Catherine Underwood, East Saanich Reserve.

Regular meeting of Victoria Begonia Society will be held at 8 p.m. Wednesday in city hall. Talk on "Potting Up and Taking Cuttings" will be given by W. Turner.

The Easter bunny has had his last fling. City police today investigated complaints from the 1000 block Vista Heights that rabbits being raised by a neighbor were consuming spring growth in their gardens.

The owner rounded them up and re-opened the escapes.

Longshoreman Douglas Weismiller, 24, of 3185 Orillia, was treated and discharged after an accident in which a loader ran over his foot at 2.35 p.m. Saturday.

Police took the man an employee of Empire Stevedoring, to Royal Jubilee Hospital.

Weismiller was working in the hold of the freighter Ethmas at Ogden Point when the loader caught him.

Victoria section, American Institute of Electrical Engineers will hold its monthly meeting Tuesday at 8 p.m. in the Flame Room of the B.C. Electric Building.

J. L. Oxendale, maintenance supervisor of B.C. Electric stations and communications, will present a paper "Maintenance of Electric Equipment."

PEANUTS  
DO YOU THINK ANYONE WILL BE WATCHING OUR GAMES CHARLIE BROWN?

HOW FAR OUT WOULD YOU SAY CENTER FIELD IS? OH ABOUT A HUNDRED YARDS, WHY?

FROM THAT DISTANCE DO YOU THINK PEOPLE WILL BE ABLE TO TELL THAT I HAVE NATURALLY CURLY HAIR?

## Driver Charged As 'Impaired' In City Mishap

Driver of a car in collision with a 73-year-old woman pedestrian Saturday night is charged by city police with impaired driving.

The woman, Mrs. Hannah Poole, 73 Pilot, is described as being in "fairly good" condition today at St. Joseph's Hospital with a broken leg, concussion and minor head injury.

Police have charged Ronald James Wilson, 1351 Vining and he will appear in court Tuesday.

Mrs. Poole was the most seriously hurt of five people taken to hospital with traffic injuries Saturday.

She was thrown about 20 feet in the collision at Courtney Street as she crossed Government.

DARK, WET

The accident happened at 9.50 p.m.; it was dark and streets were wet.

The four others hurt were treated at hospital and later discharged.

Mrs. Joan Empey, 26, of 841 Esquimalt, and Mrs. Valerie Mickelson, 21, of 510 Joffre, both were treated at St. Joseph's for back injuries after the car in which they were riding bounced through a three-foot ditch on Colville.

Grace Buckley, 61, of 676 Rockingham, was treated for face cuts and discharged from St. Joseph's after a three-car crash at Helmcken and Trans-Canada Highway, and in another three-car crash at Fort and Cook at 9.22 p.m., Muriel E. Wright, 53, of 1023 Oliphant, received knee and neck injuries.

Store Burglary Yields Little, Houses Nothing

About \$25 cash and one sock was the loot taken from the Tarran Shop, 1003 Government, in a burglary reported to city police Saturday.

Storekeepers reported the cash consisted of 18 U.S. silver dollars and \$7.50 in small change.

There was no explanation of why only one sock—with a design of the clan Campbell—was taken.

Nothing was stolen in two house burglaries reported Sunday night.

The homes of Mrs. Dorothy Woodward, 780 Richmond, and Dennis Riley, 2580 Prior, were entered by bedroom windows. Bedrooms were ransacked at both places.

Ex-Postmaster's Funeral Set For Thursday

Funeral service for Ernest Jeffrey, postmaster at Langford for several years, who had been active in Royal Canadian Legion and church affairs, will be held Thursday at 3.15 p.m. in St. Paul's Naval and Garrison Church, Esquimalt.

Overseas four years with the 28th Battalion, he was past president of Legion branches in Shellbrook, Sask., and Prince Edward Legion, Langford.

Survivors include the widow, Alice, at the residence, 1216 Lyall, and a daughter, Frances, Rev. T. A. Roberts and Rev. Canon H. Jones will officiate at the service and interment will be in Hatley Memorial Gardens, with McCall's in charge of arrangements.

## FOUR ERRORS CAUSED DEATH OF FISHERMAN

Four mistakes made by a Seattle commercial fisherman combined to cause his death near Alert Bay, after a weekend boating mishap, according to RCMP.

Missing and presumed drowned is Norman Bowden Vines, 61.

Police said Vines vanished Friday when he attempted to swim 50 yards to shore against a strong tide after his troller Marie grounded on a reef. He was heading for Alaskan waters at the time.

Police said a search of the 30-foot boat failed to uncover any maps showing the locations of reefs of Sophia Island, where the accident happened.

Vines' three other mistakes, police said, were that he failed to signal other fishermen anchored nearby, to issue a distress call, he should not have attempted to swim, and when he did attempt it, he should have worn a life jacket.

Death of Gina Kunajevich

in the backyard of her Esquimalt home Friday was by accidental drowning, Coroner Dr. J. H. Moore ruled today.

He conducted an informal inquiry into the tragedy, discovered by Gina's mother, Mrs. Jean Kunajevich, 808 Dominion, shortly before 4 p.m. Friday.

The little girl had gone out to play alone and apparently fell into an 18-inch hole recently dug for a clothesline pole where a few inches of rain water had accumulated.

An earlier report of the death said there had been boards covering the hole, but these were not placed until after the accident.

"The hole was not covered," Allan Cedar, a member of the family, said.

When Mrs. Kunajevich found Gina head-down in the hole, she pulled her out and called for help.

A neighbor, Hector Renton, 801 Dominion, ran over and used mouth-to-mouth artificial respiration for about 10 minutes until Esquimalt police arrived and took the girl to St. Joseph's Hospital, where she was pronounced dead.

## NEW BIBLE 'BEST SELLER' IN CITY

Victorians over the Easter weekend spent more than \$15,000 on the New English Bible published by the Cambridge University Press in Canada.

Book and department stores today estimated that about 5,000 copies of the new

edition of the New Testament were sold Saturday over the counter. Copies of the New Bible are selling in two editions: a larger library edition at \$4.50 and a pocket edition at \$1.75.

Typography and style have been changed and

simplified in the new version. The demand for the New Bible is so great that one store alone reported selling 1,300 copies.

"We are down to a few copies and have ordered additional stock," said a salesman.

Another store estimated that before Easter week is over, total sales will run to about 15,000.

"The trouble is supply," the owner said. "From reports we have received, most centres in British Columbia are short of stock."

# Victoria Daily Times

VICTORIA, B.C., MONDAY, APRIL 3, 1961—PAGE 13

## Mother, Tots Flee Fire On Burnside

Smoke Billows From Basement

A mother and three small boys fled their West Burnside home when smoke and fumes from a basement fire billowed into upper rooms at 9.30 a.m. today.

Flames had started licking into the living room of the home of Alfred Armitage, 1191 West Burnside, when Saanich firemen arrived.

Fire apparently started in a corner of the basement where camping gear and a chestfield were stored, burning through woodwork into cold air vent pipes.

Ruth Armitage and her boys, Bruce, seven; Chris, six; and Robbie, three, ran to a neighbor's house.

CAUSE UNKNOWN

Neither the householder—who came from work when his house was burning—nor Deputy Fire Chief Glen Robbins, could explain the cause of the blaze.

The house had just been rewired and the furnace was in good condition.

Damage was moderate to house and contents.

## Two Islanders On Executive Of GP College

One Victoria and one Courtenay medical man have been elected to the executive of the B.C. Chapter of the College of General Practice at the annual meeting in Vancouver.

Dr. J. B. Anderson, Victoria, is treasurer, and Dr. Henry Williams of Courtenay, member at large.

Dr. John Zack of Vancouver was elected president.

# Four-Mill Boost Faces Taxpayer

## \$18 to \$20 Hike For Average Bill

By JOHN MIKA—Times City Hall Reporter

Victoria appears headed towards a four-mill increase this year which could boost the average tax bill by \$18 to \$20.

## 104-Year-Old Songhees Indian Dies

Tom James, 104, who was born on Songhees Indian Reserve before there was a City of Victoria or Province of British Columbia, died here today.

The Crown Colony of Vancouver Island came into being in 1850, seven years before his birth, and the first legislative assembly of the colony antedated him by only a year.

He lived all his life on the reserve. Surviving are the widow, Alice, at home, 12 Cooper Road; a son, Andrew James, 11 Cooper Road; a daughter, Mrs. F. James, Cowichan; grandchildren, great-grandchildren, great-great-grandchildren and great-great-great-grandchildren.

Prayers will be offered at Sands Thursday at 8.15 p.m., and Mass will be celebrated at Our Lady Queen of Peace Church in Esquimalt Friday at 9 a.m. Interment will be in Songhees cemetery.

## Oak Bay Meeting

Oak Bay council meeting, originally slated for tonight, has been postponed until 8 p.m. Tuesday because of the Easter holidays.

## DROWNING RULED ACCIDENTAL

# 'Post Hole Wasn't Covered'

Death of Gina Kunajevich in the backyard of her Esquimalt home Friday was by accidental drowning, Coroner Dr. J. H. Moore ruled today.

He conducted an informal inquiry into the tragedy, discovered by Gina's mother, Mrs. Jean Kunajevich, 808 Dominion, shortly before 4 p.m. Friday.

The little girl had gone out to play alone and apparently fell into an 18-inch hole recently dug for a clothesline pole where a few inches of rain water had accumulated.

An earlier report of the death said there had been boards covering the hole, but these were not placed until after the accident.

"The hole was not covered," Allan Cedar, a member of the family, said.

When Mrs. Kunajevich found Gina head-down in the hole, she pulled her out and called for help.

A neighbor, Hector Renton, 801 Dominion, ran over and used mouth-to-mouth artificial respiration for about 10 minutes until Esquimalt police arrived and took the girl to St. Joseph's Hospital, where she was pronounced dead.

That is probably all that will be left of original estimates which pointed at a total boost of 25 mills. Virtually all new programs and improvements are expected to be chopped in order to hold down the tax increase.

This is the early speculation on the outcome of current committee slashing at estimates that appear likely to reach an increase of about \$1,200,000 over last year's expenditures for public works, protective services, parks and welfare.

These probably will be cut to the bone by council but one guess is that even then higher costs and a few new projects still will push the total increase over 1960 at about the \$380,000 level.

With one mill expected to bring in close to \$100,000 in revenue this year, this increase would add about five mills to last year's 33.41 mill rate for general purposes.

SURPLUS

But a \$3,000,000 increase in the assessment roll and a substantial, but as yet unrevealed 1960 surplus, are expected to cover about \$200,000 of the boost in tax levy.

Result would be a three-mill boost for general purposes and, as a result of a 5 per cent higher school board budget, another mill would be added to last year's—19.39 school rate.

This would add up to a 56.75 mill rate for this year, resulting in a total tax bill ranging between \$255 and \$283 for the average homeowner with an assessment in the \$4,500 to \$5,000 bracket.

Numerous improvements, like the \$800,000 Blanshard Street extension and \$200,000 start for a one-way street system, would have to be cut from the budget to keep the mill rate from rising even higher.

Council probably will consider a borrowing bylaw to carry these out.

## 2 Education Conferences In Spotlight

Two conferences this week may bring major changes to the field of education in B.C.

In Vancouver today, 1,200 members of the B.C. Federation of Teachers opened their annual four-day convention.

Meanwhile, the B.C. department of education opens a special four-day conference Tuesday in Central Junior High School here, attended by all the district school superintendents.

The teachers' convention will have two major discussions, both of which will have an impact on all B.C. schools.

CHANT REPORT

The meeting will have its first full-dress opportunity to analyze the Chant commission's report on education.

Teachers also will vote on whether or not they will inaugurate a system of policing their own profession as other professional groups do.

The Victoria conference will bring the school superintendents together with headquarters staff of the education department to consider the Chant report too.

From this conference, the department is expected to formulate the general framework of a new approach to the school system based on the superintendents' reaction to the Chant commission's wide-ranging recommendations.

## Driver Fined \$200

Noel William Atkin, 2866 Glen Lake, was fined \$200 and \$5.50 costs when he pleaded guilty in Colwood RCMP court Saturday to impaired driving.

Police said his car rolled into a ditch at Glen Lake and Jacklin Roads, causing about \$250 damage, no injury.

RALPH DAVIS  
first commissioner

## Water Board Ex-Chief Dies at 50

Ralph Davis, Greater Victoria Water Board's first commissioner, died Saturday in a Vancouver hospital. He was 50. He went to Vancouver after resigning as water commissioner in 1952.

Mr. Davis was educated at Oak Bay High School, Victoria College and the University of B.C. from which he graduated in 1935 as a civil engineer.

He spent three years in mining work, then returned to Victoria to join the City Hall staff as a draughtsman.

He joined the RCAF and went overseas in 1940 as a flight lieutenant, later being attached to the USAF in airfield construction work on the continent.

Mr. Davis returned to the city in 1945 and became assistant water commissioner for Victoria.

He was appointed as the first water commissioner when the Greater Victoria water board was established in 1949.

HYDRO WORK

He resigned in 1952 and joined the Stevenson and Kellogg management engineering firm in Vancouver. Later he joined Sandwell and Co. in Vancouver where he specialized in hydro work for the consulting engineering firm.

Survivors include the widow, Margaret, 2237 Palmerston, West Vancouver; a son, Robert Ernest, at home; a daughter, Barbara, at home; the father, Ernest D. Davis, Victoria; and three brothers, Donald, Victoria, Sgdn. Ldr. Wilfred, Ottawa, and Lieut. Cmdr. Lawrence of HMCS Fraser.

## TUESDAY MEETINGS

Victoria Kiwanis Club: Noon, Empress Hotel. L. J. Wallace, deputy provincial secretary, "Barkerville—the Gold Capital of the World."

North Victoria Kiwanis Club: 6.15 p.m., Monterey Restaurant. James H. Fox, Victoria manager, Unemployment Insurance Commission, will talk on the unemployment problem.

## ASK THE TIMES

Q. Is there a Latin word which means "sportsmanship?" S. McG.

A. Not as such. History of the word "sport" dates back to Roman times when it was customary for distinguished men to distribute little baskets of food, or money, to the masses who were their followers. The Latin term sportula means a little basket. Hence an early emperor called the little games he gave the people sportulae, i.e., grabbing at the minor properties of others.

Anyone wishing a question answered is invited to send the problem along to The Times, addressed to "Ask the Times" Editor. Questions and answers will be published daily.

SHOPPING GUIDE

Inflatable Crinolines Make Debut in Victoria

By PENNY SAVER

One Canadian manufacturer has come up with a solution to problem of producing crinolines that will retain shape after a few washings. They are "inflatable".

To be more exact, they have a two-inch band just where shape is most needed in a crinoline and when this band is inflated through a valve that's on it, crinoline will take on that chic hoop effect that's so flattering to many dresses.

These crinolines are completely hand washable. They come in white in either medium or large fittings and they're well worth the \$3.95 price tag.

Women who like to be comfortable and still keep that svelte look will appreciate two-way stretch panties that come with either banded or elasticized leg openings.

Made of rayon, panties are fully cut yet fit snugly. They have flat lock seams for greater strength.

Front and back panels stretch vertically while side panels stretch horizontally.

Panties come in small, medium or large sizes and sell for 59 cents. They're available in white and there are others that have dainty sprigs of flowers in pink, blue, mauve or tan.

Exceptionally good value are sets of half slips and panties that sell at \$1.79.

There are two designs, both featuring nylon flounces that simulate lace on lower hem of slip and around legs of panties. Sets come in cloud pink, Kennedy pink, eggshell blue, and white. Sizes include small, medium and large.

If you would like to know where Penny shopped today give her a ring at EV 2-3131.

WHY GROW OLD?

By JOSEPHINE LOWMAN

Hungry 'Teens Can Eat And Still Lose Pounds

Sooner or later most overweight teen-age boys and girls are unhappy about their extra pounds. They may not say so but most of them are self-conscious about this. They do not like to be different.

Since they are growing and developing so rapidly, and since most of them are quite active physically, it is natural that they have large appetites. They need more food than fully grown persons. However, one thing many youngsters fail to realize is that they can eat well and still lose unwanted pounds.

It is a sad fact that many teen-agers are poorly nourished, not because they do not consume plenty of calories, but because they skip many of the foods which are essential to health and to good looks. Here are a few general rules to help you if you are in this age group and are fat.

Eat three well-balanced meals a day. Do not skip breakfast. Be sure to have fruit juice each morning and milk, eggs and toast. You can vary your breakfast by having eggs one day and cereal the next, if both on the same day are too much for you.

If you eat at the school cafeteria, choose essential foods and forget dessert. If you take your lunch, your sandwiches should have very little butter or mayonnaise. Just a smidgen of butter on the bread and some mustard will give the meat or cheese or chicken filling a pleasant flavor.

I am sure that your mother will have a well-balanced meal for you at night. However, do not take "seconds" and do eat fresh fruit for dessert.

It is the in-between snacks which pile the weight on. I know it is hard to give these up, but it is worthwhile until you lose your overweight. Many of your teen-agers do not realize how heavy the calorie intake is in some of your favorite in-between meal items.

For instance, a chocolate malt gives you about 450 calories. That's equal to a good breakfast or lunch. Most candy bars give you around three or four hundred calories. Ten potato chips give you about 100 calories and 20 peanuts 100 calories.

You can see what I mean! Not only do these add the pounds quickly but they cause you to eat less at your regular meals.

I have a leaflet called "Popularity." It was written especially for girls but is equally valuable to boys. If you would like to have it, send a stamped, self-addressed envelope with your request for leaflet No. 58. Address Josephine Lowman in care of this newspaper.

THE BETTER HALF

By Bob Barnes

"I'm enjoying one of the few pleasures left to man... Paying the last instalment."

Spadea's International Designer PATTERN

Josef Walker

A charming display of apron approval that covers a whole day's doings about the house, combining fashion smartness with down-to-earth practicality. Style I-A pinafore apron for cool cover-up, features a comfortable elasticized waist and giant stand-out pockets. Slips into easily, refreshes quickly with just a wrap, hook and tie. Style II-For the hostess at a backyard barbecue, a bright splash of protection with each pocket patched in a different eye-catching color. Noteworthy are the straps shaped to stay-put at all times; and the ample spatter coverage extended 'round the sides. Style III-This pretty tunic apron has tiers of pockets, circling the flared skirt. Shaped bodice inserts cross the shoulders to form the back buttoning. For this gay, easy-to-make apron trio, we suggest linen, denim, polished cotton, drip-dry cottons, and, for Styles I and III, lengthwise striped cottons. From these corresponding body measurements select the one size best for you. Our sizing is comparable to ready-to-wear.

DEAR ABBY

Business and Pleasure...

By ABIGAIL VAN BUREN

DEAR ABBY: I work with a man who says he's in love with me. I care for him, too, but I'm not as emotional about it as he is. My problem is that the moment we are alone on the job he tries to kiss me. And he expects me to tell him every few minutes that I love him, too. I don't care for that kind of stuff while I'm working, especially since we are not always alone and we never know when someone is going to walk-in on us. How can I let him know I would rather be just "friends" during working hours? He is very sensitive and easily hurt.

DEAR CAREFUL: Since you obviously have better judgment than the Romeo, who is trying to make time on company time, it is up to you to call the tune. Tell him to control his flame during working hours or you both could be fired.

DEAR ABBY: I know there is an "Alcoholics Anonymous" and a "Gamblers Anonymous," but is there a "Charge Accounts Anonymous" for people like me? I don't know why I do it, but I run up charge accounts and can't seem to help myself. It is the craziest thing... when I get into a store I go wild buying things I don't really need. If I don't get help with this problem

TODAY'S RECIPE

ARMENIAN DINNER-IN-A-DISH

One pound ground lamb, 2 tablespoons oil, 1 (1 lb.) can solid pack tomatoes, 1 (1 lb.) can green beans, undrained, 1/2 cup raw rice, 2 tablespoons instant minced onion, 1/2 teaspoon garlic powder, 1/2 teaspoon dry mustard, 1 teaspoon Worcestershire sauce, 1 tablespoon sugar, 1 1/2 teaspoons salt, 1/2 teaspoon pepper.

Brown lamb in hot oil. Combine with all remaining ingredients in a 1 1/2-quart casserole. Cover and bake in a moderate oven (350 degrees F.) 1 hour, until rice is tender. Makes 5 to 6 servings.

Ladies' Aid, St. Paul's Presbyterian Church, Daffodil Tea, church hall, corner of Mary and Henry Streets, Wednesday at 2:15 p.m. There will be stalls of home baking, sewing and superfluities.

soon, I am going to lose my husband.

OVER MY HEAD. DEAR OVER: Go on a cash basis and budget your monthly spending. And tell yourself, when the urge hits, that you're grown up now.

DEAR ABBY: Is it proper for a girl to offer a pencil and paper to a boy she meets at a dance? Many boys I have met at dances ask for my phone number and they never seem to have a pencil and paper. I always carry a pencil and note paper for this purpose. My girl friend said it was not proper as it looked like I was too anxious. I would like your opinion.

PREPARED. DEAR PREPARED: It's not what you do but the way that you do it. Don't whip out a pencil and paper at the drop of a hint. Give the boy a chance to come up with his own, and use yours only in cases of "emergency." And, by the way, young lady, be a little tussy or sour everyone in town will have your number.

Professionally used by leading manufacturers, now available to the Home Craftsman. Easy to use... an authentic oil finish with simple application. For finishing of: Walnut, Teak, Oak, Birch, Mahogany, etc.

### EASTER IN THE WIND

NEW YORK — Peggy Stortz, 6, left, and her sister, Faith, 8, of Plainfield, N.J., posed in their Easter finery before strong winds upset their new bonnets. The girls, children of Mr. and Mrs. Walter Stortz, later joined some 700,000 persons on New York's Fifth Avenue for traditional Easter parade. Pictures were taken on Rockefeller Plaza, just off the avenue. (AP Wirephoto.)

### CLUB CALENDAR

Easter tea, sponsored by Bluebirds Majorettes, Tuesday, 2 to 4.30 p.m., Hudson's Bay Douglas Room. Entertainment. Door prize.

Women's Auxiliary, St. Alban's Church, Easter tea, Wednesday at 2.30 p.m., church hall, Bryan Street. Entertainment by pupils of Florence Clough Dance School.

Three-day rummage sale, Mothers' Auxiliary, St. Michael's School, Thursday and Friday, 2.9 p.m., and Saturday, 10 a.m. to 1 p.m., in school gymnasium.

## Easter Parade Hit By Snow and Wind

NEW YORK (AP) — High winds, 45-degree temperatures and even snowflurries buffeted Easter paraders Sunday, cutting by half the usual number of strollers along Fifth Avenue.

Gusts up to 30 miles an hour hit the paraders as they displayed their spring finery in the march along the avenue between 48th and 56th streets. The peak total was only about 800,000.

Large, ornate Easter bonnets of women, and men's hats, were prime targets of the howling winds.

A brief snow flurry added to the discomfort of the marchers and reduced their ranks to such slim proportions, police officials reopened the avenue to vehicular traffic shortly after 1 p.m.

In previous years, when upwards of 1,500,000 persons turned out for the annual style-strutting classic, movement along the seven-block parade route was a slow and tedious process.

Royal Roads Chapter, IOOE, Wednesday at 8 p.m., at headquarters.

## Sister Makes Bridal Gown Worn Saturday

A white brocade gown, hand-made by her sister, Mrs. F. W. Davenport, was worn by Miss Myrna Caroline Smith for her marriage, Saturday evening, to Timothy Raymond Wright.

Styled on long flowing lines, the gown featured a fitted, sleeveless bodice with sweetheart neckline and short jacket of white peau de sole styled with lily point sleeves and Queen Anne collar. The full skirt, worn over hoops, had back pleats which formed a short chapel train.

A tiny two-tier crown set with teardrop pearls held a short circular veil and the bride's only jewelry was a gold cross. She carried a cascade bouquet of ivory-toned roses, lily of the valley and lily, tied with ribbon that had been on her mother's wedding bouquet. She was given in marriage by her father.

Parents of the couple are Mr. and Mrs. Maurice W. B. Smith, 1632 Oakdale Avenue, and Mr. and Mrs. Sidney Henry Wright, 1236 Faithful Street.

Double ring ceremony took place in St. Matthias Church with Rev. Angus Cameron of Lundavra officiating. Easter lilies and spring blossoms were used in decorations and guest pews were marked with pink and white carnations. Organist was L. Partington, and Miss

Mairi Macdonald sang "O Perfect Love."

Bridesmatron Mrs. Kenneth Buchanan, sister of the groom, wore a blossom pink waltz-length gown, pink taffeta bow headpiece trimmed with seed pearls and a silver and rhinestone necklace, gift of the bride. Her flowers were pink and white carnations.

Little flower girls, Jennifer and Deborah Webb, nieces of the bride, wore short full-skirted dresses of white stiffened nylon over pink taffeta crinolines, with pink sashes and pink pearl-trimmed bows in their hair. They carried white baskets of pink and white spring blossoms and wore tiny silver crosses, gift of the bride.

Peter Wright was best man for his brother and David Sheldrick was usher.

Pink and white theme was

### Of Personal Interest

#### From Out of Town

Mr. David Sheldrick, New Westminster and Mr. and Mrs. D. K. Collicutt of Vancouver, were in the city this weekend to attend the wedding on Saturday evening of Miss Myrna Caroline Smith and Mr. Timothy Raymond Wright.

#### Surprise Shower

Bride-elect Miss Helen Poulsen was honored at a surprise shower given by Mrs. G. Copeland and Mrs. K. Bishop at the latter's home on Millstream Road. Corsages were given to the bride-elect and her mother, Mrs. K. Poulsen. Gifts arranged in a decorated umbrella were presented by little Miss Andrea Bishop. Games were played and a buffet supper served from a table centred with a bride's cake topped with a jeep in compliment to the groom-elect, Mr. Tommy Mazorelle, who is serving in the RCE. Others present were Mrs. L. Coulter, Mrs. R. Raincock, Mrs. P. McLeod, Mrs. K. Piper, Mrs. T. Copeland, Mrs. N. McCallin, Mrs. M. Agrey, Mrs. W. Bishop, Misses Leona Kermode, Arlene Stewart and Betty Poulsen.

#### Carlton Club

Mr. and Mrs. R. H. Huntley entertained a group of friends Saturday at the Carlton Club. With them were Mr. and Mrs. R. Pettie of New Westminster, Mr. and Mrs. A. Cave, Mr. and Mrs. A. Prill, Mr. and Mrs. W. Reil and Mr. and Mrs. D. Crawford.

#### Hosts Party

Miss Ruth Leach was hostess of a party recently held at the Rolando's Dancers Club. Evening included games, dancing and refreshments. Attending were Mr. and Mrs. L. Buckle, Mr. and Mrs. G. Griffin, Mrs. and Mrs. M. Nout, Mr. and Mrs. R. Stevenson, Mr. and Mrs. A. Solonen, Mr. and Mrs. W. Stevenson, Mrs. P. Totter, Miss M. Goldie, Mr. F. Handy, Mr. N. Kruk, Mr. H. Verhey, Mr. D. French and Mr. V. Carlson.

#### To Europe

Dr. W. C. Whiteside, heart surgeon, left on the weekend by air for Europe where he will visit heart centres in Dusseldorf, Stockholm, Moscow, Paris and London. He expects to return to Victoria in about a month's time.

#### B.C. House

Mr. and Mrs. V. R. Sutherland, Mrs. Marjorie Beer, Mrs. H. C. Hunt and Messrs. Roger and Alan Darling, are Victorians who have visited British Columbia House in London, Eng., recently. Also signing the register there in the past 10 days were Major and Mrs. A. M. MacLennan of Qualicum Beach.

#### Engaged

Mr. and Mrs. John Matthews wish to announce the engagement of Mrs. Matthews's sister, Miss Sally Brown, Saseenok, youngest daughter of the late Mr. and Mrs. Alf Brown, to Mr. Glenn Bullen, son of Mr. and Mrs. George Clark of Saseenok.

### Like Parties? You May, But Your Rug Doesn't!

Most of us like parties, and with the Spring season we will be making merry again in our living rooms. But how about your rug? Is it ready for company? Why not let the CARPETORIUM give your rug new beauty with professional "deep cleaning"? They will make your rug "like new" again with all its original lustre. If you should be unlucky enough to have an accident to your rug, don't cry—call the CARPETORIUM. EV 3-2861. The cost of complete "deep cleaning" is very low and the work will be done promptly by experts who have cared for Victoria's most valuable rugs and carpets for over 35 years. For FREE estimate call the CARPETORIUM, 1219 Wharf Street, at EV 3-2861... the CARPETORIUM, Victoria's professional RUGS CLEANERS.

## 'Easter Only' Flock Criticized by Bishop

### Cancer Drive Aims For \$50,000

Target for the 1961 Conquer Cancer Campaign in Greater Victoria this month is \$50,000, almost a sixth of the provincial goal, chairman Dugald Gillespie, said today.

Cancer research will continue to get the emphasis in this private and public fund-raising campaign, which last year supplied almost 90 per cent of the cost of cancer research in Canada, Mr. Gillespie said.

"We must not fail the dedicated men and women who are making a gigantic effort to bring cancer within the field of controlled diseases," he said.

In this community, Conquer Cancer dollars help in many ways: assistance is available for needy cancer patients; the Victoria unit of the Canadian Cancer Society helps with transportation to and from the local cancer clinic, pays for drugs, boarding or nursing care, housekeeping services or VON visits for those who have no other way to turn.

**AT JUBILEE**

Victoria donations have already supplied radiation equipment for cancer treatment for installation in the addition to Jubilee Hospital now abuilding.

By the same token, funds have helped in the construction at University of British Columbia of a cancer research centre that will serve the public through the National Cancer Institute of Canada when completed.

Local campaign headquarters are in the Black Ball Ferry Building, 816 Wharf.

#### Prehistoric 'Find'

TRIPOLI, Libya (AP) — A graveyard of prehistoric beasts has been uncovered by American and French oilmen drilling in the barren, lifeless desert of southwest Cyrenaica. The ground around the well is thick with fossilized bones of mastodons — huge extinct elephant-type mammals, alligators, reptiles and various other creatures which roamed the earth millions of years ago.

#### DO FALSE TEETH

**Rock, Slide or Slip?**

**FASTTEETH**, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, sticky taste or feeling. **FASTTEETH** is alkaline (non-acid). Does not sour. Checks "plate odor breath". Get **FASTTEETH** at drug counters everywhere. Advt.

Open Daily 9 a.m. to 5:30 p.m., including Sundays  
PHONE GR 7-2658

The "once-a-year" brand of churchgoers was soundly criticized Easter Sunday by a visiting Vancouver clergyman.

Irrked by people who attend church only at Easter, Bishop R. Raggs told the congregation at Evensong service in St. Mary's Church, Oak Bay:

"Too many people resurrect Christ for a day, then put Him away again in the tomb for the remainder of the year."

His tongue-lashing was the exception among clergymen, who were generally pleased with the large turnouts at churches throughout Greater Victoria.

Only at a 7.45 a.m. outdoor service in Beacon Hill Park, sponsored by the Gideons with the Salvation Army band in attendance, was the congregation below expectations. Elsewhere services were packed with entire families present.

Nowhere was this more noticeable than at St. Andrew's Cathedral, where arrival of a "pilgrimage" cross from Nanaimo coincided with the devout streaming out from one mass and parishioners arriving for the next.

A 120-pound cedar cross, carried 70 miles from Nanaimo on the shoulders of devout Roman Catholic men from various parishes, today rests in the crypt under St. Andrew's Cathedral after arrival ceremonies at 10.45 a.m. Sunday on the cathedral steps.

The cross will stay there

#### YM-YW NOTES

### Orphans 'Adopted' By Y-Teens Club

Victoria YM-YWCA's "Y-Teens" include high school girls from five city schools and from Milnes Landing.

Apart from doing service work among their own schools, the girls take part in community activities and generally take an interest in the world around them.

Two of the clubs have "adopted" orphans in Malta and Korea, to whom they send gifts of money for necessities and write letters of friendship and encouragement. Other clubs have sent money to underprivileged areas through world organizations.

At their regular meetings the clubs hear speakers on varied subjects. They hold several social events in conjunction with H-Y boys' clubs — dances, bowling, panel discussions. Many of their social functions raise money for service work.

The spring millinery class offered two weeks ago at the YWCA has now expanded into four classes — all full. Sixty

women are taking advantage of the course. Further classes will be offered in the fall.

Two industrial tours have been organized for the Youth Department during Easter vacation.

The first was to the government grain elevator Saturday when the boys watched loading and unloading of ships and learned about grain storage.

The second tour is set for Wednesday with the boys travelling to the cement works at Bamberton.

### ITCH in Women Stopped like Magic

Here's blessed relief from itches of vaginal itch, genital itch, chafing, rash and sores with an amazing new scientific formula called LANACANE. This fascinating, painless medicated cream kills harmful bacteria germs while it soothes raw, irritated and inflamed skin tissue. Stops scratching — no more itching. Don't suffer another minute. Get LANACANE at your druggists today!

#### Arms Budget Drops

LONDON (Reuters) — Soviet defence expenditures dropped from 20 to 12.9 per cent of the budget during the period from 1950 to 1960, the Soviet news agency Tass reported.

### NEW HELP FOR ASTHMA & SINUS DRAINAGE

Men, women and children now avoid much severe wheezing, sneezing, rattling, difficult breathing, coughing and stuffiness during recurring attacks of Bronchial Asthma and Sinusitis by taking new improved, Quick Action MENDACIO. Works fast to combat allergy, help remove thick, choking mucus from bronchial tubes and aid sinus drainage. Thus promotes easier breathing, sounder sleep and greater energy. Safe for young or old. Get MENDACIO from druggist today. Feel better fast. Advt.

The large crowd consisted of both Catholics and the curious. About 35 men accompanied the symbol of the crucifixion from Langford. It came from Nanaimo in seven stages, carried in turn by parishioners of Nanaimo, Ladysmith, Chemaluns, Duncan, Mill Bay, Langford and Victoria — 180 all told over five days.

The walk from Langford took about 2½ hours. Pilgrims were accompanied by a Victoria police squad car.

#### PLEA FOR PEACE

There were no incidents en route, apart from fairly constant rain which cleared for the blessing.

Three men at a time assisted in the carrying of the cross. They passed this privilege in sequence to others of the groups after recitation of three decades of the rosary.

Reason for the pilgrimage, similar to that carried out in other parts of the world at Easter, was public profession of faith and a visual plea for peace.

## SOLUTION WEDNESDAY

## IT HAPPENED LAST NIGHT

By EARL WILSON

LONDON TO PARIS TO N.Y.—The British pride grows these troubled days. My B.W. (Barfoot Wench) discovered this in our kindly suite at the London Westbury without even putting her shoes on.

A maid, puttering about, praised American TV cowboys. B.W. said, "But we have better entertainment—I'm sure you've heard of Bob Hope."

"Heard of him, madam!" exclaimed the maid. "He's British!"

Embarrassed, the B.W. switched to Liz Taylor. And

## Cubans Seek Asylum Here

MONTREAL (CP)—Nine Cubans arrived here Sunday after being refused asylum by United States immigration authorities in New York Saturday night.

A BOAC spokesman here said the Cubans were in the hands of the immigration and RCMP authorities at the airport here.

The Cubans were among 25 that left Kingston, Jamaica, Saturday for Montreal. Their flight was diverted to New York when snow closed in Montreal.

Twenty of the Cubans apparently asked for U.S. asylum. Sixteen refused to board the BOAC flight for Montreal Sunday after their plea was refused.

The other nine boarded the flight.

## Buzzed Soviet Ship

ARGENTINA, Nfld. (CP)—Officials of the United States naval station here said in a statement Friday one of their planes buzzed a Russian vessel March 24 at the sealing front off Newfoundland's northeast coast.

the maid said "English girl, you know."

N.Y. Flash: Marguerite Piazza's suite at the Hotel Plaza was burgled of \$10,000 worth of rings, necklaces and furs Saturday afternoon. Miss Piazza, wife of snuff tycoon Bill Condon, found her door jammed. The burglars were evidently scared; they passed up a drawer with even lusher loot.

Fred Brisson, phoned Roz Russell, London-to-Beverly Hills. Knowing she was preparing for her Molly Berg role in "Majority of One," he casually asked "What are you doing?"

Roz replied: "Sitting beside the pool studying my Yiddish."

PARIS—The studio where Jackie Gleason's film "Gigot" is on the Rue de Silly... Rome: Peggy Cass, seeing Tobie and all the other Americans at the Excelsior, screamed, "This is Italy's answer to the Miami Beach Fontainebleau!"

Tel Aviv: Molly Parris was introduced to Mrs. Paula Ben-Gurion as Mamie Eisenhower's dress designer and candid Mrs. B.G. said, "That's not saying very much."

LONDON: Dining at the famous Mirabelle; beautiful Joan Collins and Warren Beatty, still much in love after two years' romancing perhaps because they didn't get married.

THE MIDNIGHT EARL—Toronto pay-TV subscribers get a promotion letter reading: "Your ticket entitles you to park your car in your own garage free during the performance."

Arthur Miller said at the Leonardo da Vinci he still hopes to do a musical of his show "A View From the Bridge" (originally planned for Monroe)... A famed comic made a gag en-

trance into a swank restaurant wearing his wife's mink coat... Insult comic Don Rickles'll join Robert Wagner in "Sail a Crooked Ship."

Comics Rowan and Martin are keeping pace with the times—they changed their gag Kennedy-Nixon debate to Sullivan and Paar... Joe E. Ross celebrated his new NBC-TV show by getting a Miami divorce.

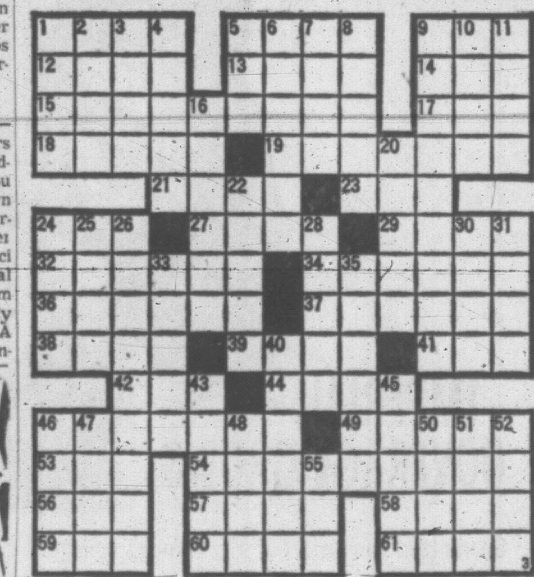

TODAY'S BEST LAUGH: A TV rating service recently phoned 1,000 men and asked, "To whom are you listening at this moment?" And 967 of them answered: "To my wife."

WISH I'D SAID THAT: All of us are working for the government. The trick is to get paid for it—Max Kosiba.

EARLY'S PEARLS: Too many people today think that being a devoted parent consists of checking the baby-sitter's references.—Hal Holbrook.

Among those who would like to see school teachers get more money, enough to retire—are schoolkids... That's earl, brother.

Earl Wilson

## HE GIVES AWAY GRAND PRIZES

Is there something you want to know? Do you want to win a set of valuable books or other instructive prizes? Then ask Andy.

Andy will answer questions submitted by child readers and those who submit the questions he sends to answer will receive worthwhile prizes.

The youngster who asks the first question answered each day receives a 20-volume set of the World Book Encyclopedia, and of the second question a Hammond Atlas or Globe.

Address your questions to "Ask Andy," Victoria Daily Times.

Andy sends a complete, 20-volume set of the World Book Encyclopedia to Robert Wasden, age 15, of Cedar City, Utah, for his question:

## What are birds' feathers made of?

A feather from the tail of the eagle is like a wide ribbon of stiff brown taffeta. The feathers over the shoulders of the ruffled grouse are like silken bands, banded around with taffy-brown stripes. A long feather from the peacock's tail is fringed with green and tipped with a huge eye, painted with jewel-tone blue and fringed with gold. The little kiwi's feathers are like long, silken brown hairs and the fancy plumage of the bird of paradise is like ferny foliage.

It takes between 2,000 and 3,000 separate feathers to clothe robin redbreast in his neat plumage and he has more than a dozen different kinds of feather. In the entire bird world there are more than a hundred different types of feather. But all of them are made from the same basic material and all of them grow in more or less the same way.

The feathers of the bird world are closely related to the scales of the lizard world and to the hair and fur of the world of mammals. All of these widely different forms of clothing are made from the same basic material. They are all outgrowths of the skin, dry and lifeless cells like the cells which make the hairs on your head.

Each bird feather grows from a small pit in the skin which is fed by tiny blood vessels. The dry, lifeless cells of the feather material are pushed up as more cells form be-

low them. The shape of the feather, however, depends upon the bird and even upon the part of the bird where it is to do its work.

The basic material of all feathers is dry cells of horny skin material, but the colors come from a variety of sources. The glossy black color of the crow, the candy browns of the pheasant and the pearly greys of the pigeon are built into the cells with the growing feather.

They are pigments which come from the bird's blood stream. The red of the cardinal and the golden yellow of the canary are also built-in colors. They are formed from fatty deposits in the bird's body.

The radiant jewel tones of the hummingbird, the rainbow gloss on the neck of the drake and the shimmering colors of the peacock are not pigments built into the feathers. These dazzling, iridescent colors are tricks of bent or refracted light. Tiny ridges in the feathers act like prisms to break up the rays of light and scatter them in rainbow colors.

He may be drab or gaily colored, but a bird is certainly the most sensibly dressed creature in the entire animal world. He can fluff up his feathers to keep himself warm and smooth them down flat to keep out the summer's heat. His entire wardrobe, summer or winter, weighs next to nothing and the silken feathers all overlap in a smooth slicker to keep out the rain.

## Three Changes Made In Basketball Rules

KANSAS CITY (AP)—The  
national basketball commit-  
tees of the United States and  
Canada have made three  
major rule changes.

The changes, recommended  
by the National Association  
of Basketball Coaches will:  
1. Eliminate free throws  
when a foul is called against  
a player on offence and in  
control of the ball. The fouled  
team will be given possession  
of the ball out of bounds as  
is now done in the professional  
leagues.

2. Stop the clock after every  
violation in order to give  
coaches greater opportunity  
to make substitutions. Under  
the old rule substitutions  
could be made only when the  
ball was dead or the clock  
was stopped.

3. Create a neutral or but-  
ter zone along the free throw  
lane to separate the first and  
second players by a foot when  
they line up for free throws.  
Officials believe this will tend  
to lessen shoving and jockey-  
ing.

CONSTRUCTION of 14 classrooms  
at a cost of \$182,000 began today  
while schools are closed for Easter  
holidays. Bulldozer above clears site  
for a four-room addition to Frank

Hobbs School. Other additions will  
add four rooms to Gordon Head Ele-  
mentary School and six more rooms  
to Esquimalt High School.

## Gene Says He's Better But How About Phils?

By LEO PETERSON

CLEARWATER, Fla., (UPI) — Gene Mauch in-  
sists that the Philadelphia Phillies will be an improved  
ball club this year because:

"I'll be a better manager."

"The kids we played last  
year are bound to improve."

So the youngest manager in  
the majors at 35 has set 40  
victories as the goal for this  
season and he hopes that will  
be enough to enable the Phil-  
lies to climb out of the Na-  
tional League cellar.

He seems to be aiming  
mighty high, considering the  
talent he has available.

Mauch admits the Phillies  
definitely need a power hitter  
in order to take the pressure  
off such kids as John Callison  
and Tony Gonzalez, and a  
catcher who can work in 130  
or 140 games. There are no  
candidates for either job in  
camp and the only way the  
Phillies can get them is  
through deals. They haven't  
much material which the other  
clubs want except relief  
pitcher Dick Farrell, and he  
isn't on the market.

Mauch claims his pitching  
will be okay.

### ROBIN OVER HILL?

It will be anchored by the  
veteran Robin Roberts, who  
appears to be nearing the end  
of one of the most brilliant  
pitching careers in the Na-  
tional League. Last year, Ro-  
berts won 12 while losing 16.

To go along with Roberts  
as starters, Mauch is counting  
on Frank Sullivan, 6'10" with  
the Red Sox last season; Art  
Mahaffey, who won seven and  
lost three after the Phillies  
recalled him from Buffalo  
where he had a 11-9 record;  
John Buzhardt (3-16) and  
Chris Short (6-9).

Mahaffey is regarded as a  
coming star. Mauch thinks he  
can get Sullivan back on the  
winning track and that Buz-  
hardt and Short have good  
potential.

### MEYER QUESTION MARK

Farrell will be the relief ac-  
tivist with Jack Meyer, who was  
out most of last season with a  
bad back, a bullpen and starting  
possibility if he is sound  
again.

Clay Dalrymple and Jim  
Coker, who hit 272 and 214  
respectively in their first full  
season in the majors, will  
again share catching duties  
unless Mauch comes up with a  
better one in a trade.

Two infield positions are set  
— the hard-hitting Pancho Her-  
rera at first and Tony Taylor  
at second. Herrera last year  
hit 289 with 17 homers and 71  
runs batted in. Taylor, one of  
the better second basemen in  
the league, batted 284.

Joe Koppe, who held down  
the job last season until he  
was hurt, has the inside track  
for shortstop although he hit  
only 111. Ruen Amaro, who  
hit 231 when he took over for  
Koppe, is another candidate.

### WOODS GETS LONG LOOK

For third, Mauch is giving  
Jim Woods a long look. Lee  
Walls, the former outfielder  
with a .223 mark last season,  
also is in the fight for the job.  
Ted Lepcio (.227) and Bob

Malkmus (.211) are available  
for utility infield duty.

Six outfielders are in the  
running for regular jobs. Cal-  
lison, who hit 260 last season,  
probably will win one of the  
jobs. The others are up for  
grabs with Tony Curry, a .261  
hitter last year, the most im-  
pressive thus far.

Bobby Del Greco (.237), Gon-  
zalez (.274), B. G. Smith (.286)  
and Ken Walters (.239) are the  
other gardeners.

None of the six appears ca-  
pable of generating the power  
the Phillies need to offset the  
lack of infield and catching  
punch.

So they could well be known  
as "the Forlorn Phillies" again  
this season.

## 'Here I Am' Radio Gadget Locates Sub

WASHINGTON (AP) — A  
magnetic radio device that  
grips the side of a prowling  
enemy submarine and broad-  
casts information on its loca-  
tion has been listed as new  
navy equipment.

Data magazine, a monthly  
journal in the defence market-  
ing field, said the magnetic  
broadcasting devices can be  
sown in enemy channels  
through which enemy sub-  
marines must pass.

It said that as soon as it  
fastens itself magnetically to  
the metal hull of a submarine,  
it begins broadcasting a "Here  
I am" message.

"No amount of manoeuvring  
by the sub will dislodge the  
parasitic transmitter," the  
magazine said.

"Assuming the sub knows  
or suspects that it has picked  
up a magnet, the act of sur-  
facing to remove it would, of  
course, also betray the sub-  
marine's position."

The United States navy  
information office said the  
project is classified and no  
information has been released  
on it. Murray Smith, the  
magazine's publisher, said his  
information came from non-  
classified sources.

### Great With a Gun

MINNEAPOLIS (CP) — Bar-  
ney Hartman, 45-year-old  
RCAF squadron leader from  
Ottawa, has been named to  
Sports Field's 1961 all-Amer-  
ica skeet team for the second  
year. The Canadian was sec-  
ond only to California's Wil-  
liam Rogers in the all-Amer-  
ican high average roll, .983 to  
.984.

NEW PRESIDENT of the  
B.C. Yukon Council of Boy  
Scouts of Canada is Lawrence  
Dampier, assistant publish-  
er of the Vancouver Sun. Mem-  
ber of the Canadian General  
Council since 1946, he has  
been a member of provincial  
Council for past four years.  
He succeeds David P. Shep-  
herd.

## U.S. HAS 59 H-MISSILES READY TO FIRE

WASHINGTON (AP) — The  
United States now has 59 mis-  
siles with hydrogen bomb war-  
heads ready, if needed, to hurl  
against enemy targets.  
The combat-ready missile  
force soon will increase to 91.  
The information is not class-  
ified.

The present stockpile in-  
cludes 27 models of the 5,500-  
mile range Atlas ICBM, which  
packs the destructive power  
of 2,000,000 to 3,000,000 tons of  
TNT, and 32 of the submarine-  
fired Polaris, which has a  
1,200-mile range and warheads  
with blast power equivalent to  
about 400,000 tons of TNT.

By way of comparison, the  
atom bomb which wrecked  
Hiroshima was rated at the  
equivalent of 20,000 tons of  
TNT.

### 64 MEMBERS

## Diabetics Apathetic

Mrs. Diane Brown, 3895  
Scotton Road, has been elected  
president of the Victoria and  
district branch, Canadian Dia-  
betic Association, succeeding  
Jack Neale.

Dr. Neil Stewart was elected  
vice-president at the recent an-  
nual meeting.

### APATHY HIT

Mr. Neale, who had headed  
the organization five years,  
blamed a lack of interest in  
the organization on "the  
apathy of diabetics, especially  
parents of diabetic children."

He said there were only 64  
active members out of a po-  
tential 2,500-3,000 diabetics in  
Greater Victoria.

A long-term aim of the  
branch will be to hire a paid  
part-time secretary.

Miss M. O'Brien was named  
corresponding secretary, Miss  
E. Moon, recording secretary,  
and Mrs. H. Storrs, treas-  
urer.

Directors are Ed Arrol, Mrs.  
J. Borradaile, J. Chaplin, F.  
Manson and H. B. Witter.

Educational advisors are  
Sister Mary Perpetua, Mrs. K.  
Rumpel and Mrs. C. Sinnott.

## Population Up Yearly 45 Million

UNITED NATIONS (AP) —  
The world's population is  
growing by 45,000,000 to 55-  
60,000,000 persons annually,  
the United Nations said Sunday  
night, and will pass the 3,000-  
000,000 mark some time this  
year.

Covering the years since  
1953, the UN report also said  
people are making and spend-  
ing more money in most in-  
dustrialized countries.

The report, prepared by the  
UN's bureau of social affairs,  
included these points:

The net percentage gain in  
per capita income was small  
in Canada and the United  
States, larger in Europe.

The normal work week was  
cut to between 41 and 46 hours  
from 48 in West Germany, the  
Soviet Union and Europe gen-  
erally, and still lower in Can-  
ada, Britain and the U.S.  
Overtime was common.

Food consumption, suffi-  
cient in most places, is lower  
than before the Second World  
War in Africa and the Far  
East.

### Civil Defence

#### Exercise

Set for May 5

Another "paper exercise" of  
civil defence will be held on  
May 5.

Greater Victoria will partici-  
pate with the rest of Canada  
in Operation Toscin.

Only CD officials will be af-  
fected by the alert—wailing  
sirens.

Provincial officials will leave  
immediately for provincial  
headquarters, probably in the  
Nanaimo area, while Greater  
Victoria officials will hurry to  
emergency headquarters, an  
underground bunker at Keat-  
ing Cross Road.

About 75 controllers there  
will await further information  
from the Canadian army via  
radio network.

On the basis of data received  
—when and where an atomic  
bomb has fallen—theoretical  
control and evacuation meas-  
ures will be undertaken.

## Border Crossings Set Mark

OTTAWA (CP) — Border  
crossings from the United  
States into Canada set a re-  
cord in 1960, but an increase  
in the number of returning  
Canadian travellers was re-  
sponsible for it, the Dominion  
Bureau of Statistics has re-  
ported.

The number of non-Canadians  
crossing the border was  
29,654,600, down about one per  
cent from 1959 figures. But re-  
turning Canadians totalled 29-  
045,800, nearly four per cent  
above 1959, helping to boost  
total traffic three per cent  
over year-earlier totals.

Vehicle crossings totalled  
18,632,400, with Canadian ve-  
hicles accounting for just un-  
der half of this number.

### Flood of Refugees

BERLIN (AP) — Refugees  
from Communism streamed  
into West Berlin at about  
twice the usual rate over the  
Easter weekend. An official  
at the Marienfelde reception  
centre estimated that by the  
middle of "Easter" morning  
about 2,700 had been received.

### Prelate 'Kingpin'

LISBON (Reuters) — A Ro-  
man Catholic prelate has been  
arrested in Luanda as the po-  
ssible kingpin behind recent  
terrorist attacks in the Portu-  
guese West Africa territory of  
Angola, it was reported Satur-  
day.

### ESKS ACQUIRE FULLBACK

EDMONTON (CP) — Full-  
back Ron Quillen of East Ten-  
nessee State College has  
signed with Edmonton Eskis-  
mos of the Western Football  
Conference.

## Work Starts End of Month On Duncan Shopping Plaza

DUNCAN — Work on the  
new \$250,000 Duncan Plaza  
shopping centre on Trunk  
Road will start at the end of  
this month and the opening  
is scheduled for June.

W. J. Aird, a vice-president  
of Capital Holdings Ltd. of  
Vancouver, promoters of the  
two-acre development, said  
nearly all of the 14 stores de-  
signed for the plaza have been  
signed for the plaza have been  
signed.

**REAL ESTATE**

By Jack Mears, F.R.I.  
**"PRESENTATION"**

The real estate agent's job is to help you find the home of your dreams. It's not just about the house, it's about the lifestyle. The agent can help you find the perfect home for your family, your budget, and your needs. They can help you understand the market, negotiate the best price, and make sure you're getting the best deal. So, if you're looking for a new home, call Jack Mears today. He'll be happy to help you find the perfect home for you.

Believe me there are many different ways in which your home can be presented. The agent can go through your home saying "This is the living room, this is the dining room, this is the kitchen and etc." Terrible isn't it, but I have heard it done many times. At least if he can't think of anything decent to say about the home he can keep his foot in the door and see what the prospect has to say and then find some decent answers.

The presentation of your home has got to be very carefully thought out. It varies from home to home and from prospect to prospect. Some people like their homes half empty. Strange but true. What is an advantage to one person is a disadvantage to another. Remember a two-up-and-down duplex which were on the market for months last year. So one wanted them until we thought of selling them for conversion back to large family homes. The both came they were sold to the first person that we showed them to. Can you sit-up prospects for your home? Can you stress the points that they will like? Not the ones you like. If you can, and you can also promote the price of property you can have a place in our organization. If you cannot then we had better give up a call now and let us do the job for you.

## New Fund Tops Nobel Awards

MILAN, Italy (AP)—Three new prizes richer than the Nobel awards are expected to be given for the first time late this year for major contributions to mankind.

The Eugenio Balzan prizes have been established in memory of a former Italian newspaper man who amassed a great fortune through wise investment of his termination pay.

Prizes totalling more than \$500,000 every year will be awarded for contributions to (1) peace, humanity and brotherhood among peoples, (2) letters, philosophy and the arts, and (3) science and medicine.

A foundation presided over by the presidents of Italy and Switzerland has worked out almost all of the details except where and when the first awards are to be announced. Balzan, born in northern Italy of middle class parents, did odd jobs in his youth and eventually became a proof reader at Corriere Della Sera in Milan, Italy's biggest and most influential newspaper. He rose to reporter, was transferred to the business office and became business manager. Tiring of the restrictions of Mussolini's fascist government, he quit in 1932. After 35 years with the paper he received a lump sum in liquidation pay.

He moved to Switzerland, invested his money and became an important financier. Under Swiss banking laws, the exact size of his fortune is secret, but it was estimated at from \$13,000,000 to \$20,000,000 when Balzan died in 1953.

One source said the foundation's capital now is considerably larger than the 60-year-old Nobel foundation, which started with \$6,000,000.

## Canada Develops Own Peace Corps

By DON HANRIGHT  
OTTAWA (CP)—A sort of poor man's Colombo plan is being developed in Canada under private auspices.

By mid-summer it will be ready to send 10 young and idealistic university graduates to projects in India and Ceylon under the name of "low-cost technical assistance."

Low cost is right. The volunteer graduates have been offered to Ceylon, for example, in exchange for native food, mud-hut living quarters and a salary of 25 rupees a week—about \$5.20.

So far Ceylon has guaranteed three jobs and India seven for such Canadian volunteers. Most of them involve teaching such subjects as agriculture, English and education. Graduate engineers, doctors and nurses also are ready to go.

**COST \$2,000**  
The first 10 volunteers now have been chosen from among 45 applicants at the University of Toronto where they have been attending extra lectures on the history, language, culture, economy and geography of the host countries.

**SKIN ITCH**  
Ugly skin blemishes on face or body. Redness, pimples, red scalp itching skin. Athlete's foot are quickly cleared by NIKODERM. Stops itch in minutes. Antiseptic action heals. Makes skin softer, smoother, clearer. Ask your druggist for NIKODERM ointment and soap. Revitalize your skin. Look better fast. Adv.

for flawless beauty

**ACTRESS** Kathy Grant and husband Bing Crosby are expecting another baby in November, it was reported today. They are parents of a son, Harry, 2, and a daughter, Mary Frances, 1. They married in 1957 after the death of Crosby's first wife.

**Boy Dies in Crash**  
BELLINGHAM, Wash. (CP)—A four-year-old Vancouver boy died in hospital after a traffic mishap six miles north of here Sunday. Mark Henderson, son of Mr. and Mrs. Peter A. Henderson, was pinned under his family's small car after a blowout in a rear tire caused it to overturn.

**Cuba Smashes Plot**  
HAVANA (UPI)—The government has smashed a counter-revolutionary plot involving more than 300 officers and sailors opposed to Fidel Castro's pro-Communist policies, reliable sources said Saturday.

**CHEAPER THAN COLOMBO**  
The overall cost for each volunteer is about one-fifth the cost of maintaining a regular Colombo plan expert and his family abroad for a year, the organizers say.

A small-scale version of the United States "peace corps" plan involving 5,000 volunteers, the Canadian operation is named "Canadian Overseas Volunteers."

**Tax Threat Did It**  
LOCKNEY, Tex. (AP)—Voters in this West Texas plains city—given a choice of integrating their schools or paying higher taxes—voted Saturday to integrate above the seventh grade. The vote was 333 for integration to 108 against.

**Korea Riot Crushed**  
SEOUL, South Korea (AP)—Steel helmeted South Korean police swinging clubs crushed a scheduled anti-government rally in Taegu Sunday. An undetermined number of persons were injured.

## IRISH PLAYWRIGHT WARNED

## Behan's 'Next,' His 'Last'?

TORONTO (CP)—Brendan Behan has been told to lay off the bottle permanently by doctors who say his next elbow-bending spree may be his last.

"I don't think he'll ever drink again," Eamonn Martin, a friend of the Irish playwright since 1936 when both lived in Dublin, said today.

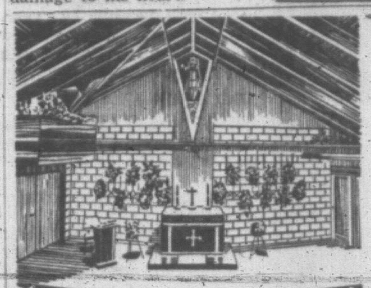

Mr. Martin said he telephoned Behan at a private hospital where he is recuperating after two alcoholic seizures a week ago. The seizures, plus a diabetic and heart condition, prompted the doctors' warning. They said the seizures may have caused permanent damage to his heart.

"Brendan was very much improved," Mr. Martin said. "In fact, he was his usual sparkling, witty self—though he tires quickly."

Mr. Martin said the doctors won't commit themselves as to when Behan will be able to leave hospital for his planned return to New York and a resumption of work on his sequel to the novel Borstal Boy, a part of which is in his publisher's hands.

## THREE-MILL JOLT

### Tax Boost for Ladysmith

NATIONAL SONGS and dances from many countries will be performed at Oak Bay Junior High School auditorium tonight at 8 by 40 girls from Kamloops Indian Residential School. They have appeared twice at the Pacific National Exhibition.

**LADYSMITH** — A tax rate of 37 mills, up three mills from the 1960 rate, has been set by Ladysmith village commission.

There is a possibility that it can be reduced to 36 mills when accurate figures on school costs are available, but no other savings are possible.

One mill of the increase will be used for purchase of a new fire truck, now on order.

General rate is 14 mills, compared with 13 mills last year, and 23 mills are being allowed for school costs. School rate last year was 21 mills.

#### ADJUSTED

R. S. Wood, village clerk, told the commission it was necessary to pass the tax rate bylaw now in order to meet requirements of the municipal affairs department.

If amended school cost figures are available before the next meeting, then the tax can be adjusted for the third and final reading of the bylaw, he said.

An application will be made to the federal government for extension of the winter works program into May. There is considerable work to be done on a storage dam and at the municipal cemetery, according to Commissioner P. R. Battie.

### DEEP-SEA SHIPS IN PORT

Victoria—Inchicastle, Temple Hall.

Chemainus—Pohorje.

Nanaimo—Armar, Cnosa.

## 49 WALKED AWAY FROM THIS 'CRASH'

Safe belly landing at Montreal's International Airport Sunday night climaxed dramatic but futile four-hour struggle by seven-man crew to lower jammed landing gear of TCA Vanguard with 42

passengers aboard. While ambulances stood by, plane made "perfect landing" on its belly, suffered only scratches and bent propellers. Story page 2. (AP Wirephoto).

## SEVEN ARRESTED IN LONDON

# 'Ban-Bomb' Protests In Britain, Canada

### 500 March At Vancouver

By The Canadian Press  
Anti-nuclear weapons demonstrators marched Saturday in centres across Canada.

In Regina, Premier T. C. Douglas told 450 ban-the-bomb marchers the main hope for world peace lies in nations surrendering their national sovereignty to a world authority with powers to maintain and enforce peace.

Other anti-nuclear demonstrations were held in Montreal, Toronto, Vancouver, Winnipeg, Regina and Quebec City. Addressing men, women and children from the steps of the Saskatchewan legislature, Mr. Douglas suggested four steps Canada could take to promote a world authority.

Canada, he said, should withdraw from the NORAD defence agreement with the United States and insist all defence pacts be under United Nations auspices; ban nuclear weapons from its soil; give leadership in UN negotiations for progressive disarmament with inspection; and turn over all its weapons to the UN for use in enforcing world peace.

**1,000 MARCHERS**  
In Toronto, about 1,000 people marched from the University of Toronto to city hall where Rabbi Abraham Feinberg, chairman of the Toronto Committee for Nuclear Disarmament, said he is encouraged by the stand Howard Green, Canadian minister of external affairs, seems to be taking against having nuclear weapons in Canada.

More than 1,000 people, largely university students, converged in Lafontaine Park in eastern Montreal in an anti-nuclear demonstration. In Vancouver, 500 marchers paraded from Kitsilano Park to city hall and the march in Winnipeg followed a nine-mile route from the outskirts of the city to the downtown "centroph" to emphasize the distance effects of a nuclear bomb would be felt.

### KENNEDY TO VISIT DE GAULLE IN PARIS

PALM BEACH, Fla. (AP) — President Kennedy will visit Paris for three days starting May 31 for talks with French President Charles de Gaulle.

The Paris visit will be Kennedy's first trip abroad as president. However, he will go to Canada in advance of going to France.

Chancellor Konrad Adenauer will invite President Kennedy to visit West Germany, authoritative government sources said today.

Adenauer, who leaves for Washington April 11 for his first meeting with Kennedy, will undoubtedly make use of his trip to extend the invitation, the sources said.

## New U.S. Helicopters Ferry Goods to Front

FREED

Red China agreed today to release Robert McCann, critically ill U.S. businessman serving 15-year prison term for espionage. The Communists said McCann, suffering from cancer, was freed in the 'spirit of humanitarianism.' His wife appealed for his release after being allowed to visit him.

VIENTIANE, Laos (UPI) — Five new American-supplied helicopters, assembled by U.S. Marines in neighboring Thailand, made their first supply runs today to "frontline" areas of Laos.

The helicopters were among 16 given by the United States to the Laotian government to ease critical supply and communication problems faced by government forces.

They apparently flew supplies on their initial mission to hard-pressed government troops near the embattled village of Tha Thom in Khammouang province. Government troops were driven from Tha Thom Friday by pro-Communist rebel troops, including some paratroopers reported dropped from Soviet planes.

### Killer Jailed for Life

OTTAWA, Ill. (UPI) — Chester Otto Weger, convicted bludgeon slayer, today was sentenced to life imprisonment for the murder of one of three matrons slain at Starved Rock State Park more than a year ago.

### U.S. Embassy Focal Point

LONDON (AP) — A ban the H-bomb rally spilled over tonight into a riotous demonstration in front of the United States Embassy in Grosvenor Square.

Police arrested seven persons. There was no attempt to damage the embassy and nobody was injured.

The Grosvenor Square disturbance was an offshoot of an earlier anti-nuclear meeting in Trafalgar Square, where 40,000 marchers assembled to roar demands for abolition of atomic weapons.

After this meeting, held in a drizzle of rain, several thousand of those who took part marched through the streets to the U.S. Embassy, about a mile away.

"We stand for sanity in a mad world," Earl Bertrand Russell, 88, philosopher and dean of the nuclear disarmament movement, told the cheering crowd. "The possibility of complete disaster remains deadly and immediate. Nuclear war in the near future is probable unless Eastern and Western governments change their policies."

### LIMPED IN

The crowd had gathered in Trafalgar Square after two columns of demonstrators limped in after tracking through the English countryside.

Hundreds of police mingled with the banner-waving and singing demonstrators packing the square.

Representatives from 30 countries, who had marched under the banners of their home lands, received a rousing cheer from the crowd packed around Nelson's monument.

A roar of applause went up as the 450-strong West German contingent strode into the square. There was another cheer for a lone Japanese.

Several other Japanese had intended to march but Deputy Prime Minister R. A. Butler refused to grant them visas.

### PROTEST RIGHT

"It's a terrible thing that the Japanese have been refused permission to come here," Canon John Collins of St. Paul's Cathedral told the crowd. "The Japanese, if anybody, have the right to protest against nuclear weapons."

Organizers had hoped for a turnout exceeding the 70,000 demonstrators who assembled a year ago at the end of the annual Aldermaston-to-London trudge.

Continued on Page 2

# \$15,000 Theft At Supermarket

## Safe Blown At Colwood

Professional cracksmen early today blasted a Colwood supermarket safe and stole \$15,000 in cash and cheques.

It is believed to be the largest single safe robbery in the Victoria area.

Colwood RCMP said the force of the explosion used to burst a three-ton concrete and steel vault was enough to scatter parts of it through Highway Foodliner, 1860 Island Highway, and twist 8 by 8-in. wooden columns supporting the roof.

Although residents of the Colwood Corner area reported later they heard a detonation at about 6 a.m., police were not called until 8:15 when the shattered interior was discovered by produce manager Victor Lee arriving for work.

Co-owner Earl Dennison said at least \$10,000 of the missing safe contents was in cash, the balance in cheques. Considerable damage was done to other contents of the safe by the force of explosion. The safe's metal door was thoroughly shattered — "like shrapnel," one RCMP said — and blown about the premises with mechanical parts of the lock.

It was thought nitroglycerine was used to do the job. Members of Colwood RCMP detachment, Victoria subdivision criminal investigation branch and identification bureau, city and Saanich detectives are co-operating in investigation.

### Police Know Several Suspects

There are several suspects in the Greater Victoria area, police said, but to noon there were no positive leads.

Entry to the store was gained by forcing a front door, opposite a wide parking area separating the building from the Island Highway, a few yards east of its usually busy intersection with Sooke Road.

The safe, a steel cylinder with round door closing the end, was set in a concrete block about 3½ feet square and fixed in place on the floor.

### \$10,000 Insurance Coverage

Much of the damage was caused by the shock of explosion rather than flying debris, police said.

Mr. Dennison said insurance carried covered only a \$10,000 loss by theft.

Co-owner of the store with Clair Taylor, he was on the premises until 12:30 a.m. today.

### WRONG KIND OF 'JUICE'

SAVONA, Italy (AP) — The Italian radio today broadcast a warning to the thief who stole 20 bottles from a Swiss tourist's automobile Sunday — the bottles contain a poison that kills almost instantly on touch.

Local newspapers said the poison, zinkalium, penetrates the pores and is similar to that used by Hermann Goering when he committed suicide in prison in October, 1946.

## WIRE BRIEFS

### Bennett to Open Fair

VANCOUVER (CP) — Premier Bennett will officially open the 1961 British Columbia International Trade Fair at Exhibition Park in Vancouver May 3.

### 30 Drown in Iran

TEHRAN, Iran (UPI) — Thirty persons were drowned in the Shatt-al-Arab River Sunday when a motor launch carrying 80 persons capsized, press reports said here today.

### Girl, 6, Missing

VANCOUVER (CP) — Police today were searching for a six-year-old girl, missing since Sunday morning. Debbie Volareich was last seen when she left home to attend Sunday school.

### Girl's Injuries Fatal

NEW WESTMINSTER (CP) — Candice Clark, 4, of Coquitlam, severely injured in a highway accident Sunday, died in hospital here today. Her father, Donald Clark, driver of a car hit broadside by another, suffered a broken jaw and other injuries. He was in satisfactory condition.

## RADIO BUSY—SOVIET SPACE TRY IMMINENT

BONN (AP) — There is mounting evidence of an imminent Soviet space experiment, a spokesman of the Bochum Observatory said today.

"Since several days a surprising increase in intensity of Russian telegraphic and telephonic communication on frequencies generally used by space rocket launching stations has been observed," the spokesman declared, adding: "Communication on these frequencies became particularly strong today."

The spokesman said that in the past such increased communication has always preceded a Soviet space experiment.

O.C. SOCCER  
ON PAGE 2

## Radio in Scotland Flashes Atom Sub Data to Soviets

LONDON (Reuters) — Britain's secret service is searching for a radio believed to be transmitting messages from Scotland to a Soviet trawler fleet operating near the U.S. nuclear submarine base at Holy Loch, the London Daily Telegraph reports today.

The newspaper, in a front-

page story, says security officials in the Glasgow area are trying to pinpoint signals from an unknown source strong enough to reach the trawlers, lying outside, the three-mile limit.

"The trawlers are in the area which U.S. nuclear submarines armed with Polaris missiles

must pass through after leaving Holy Loch," the paper says. "A spokesman of the U.S.S. Proteus, a nuclear submarine supply ship at Holy Loch, said he could make no comment."

The Telegraph reports rumors of an unusual number of Soviet trawlers off the west coast of Scotland. "Many of the trawlers have been seen in fishing grounds never before used by the Russians."

It was thought advanced radar equipment carried by the trawlers could be used to check various electronic devices used by naval units and air force shore stations.

"If they are also fitted with a side underwater sounding equipment of the most advanced pattern, it might also be possible for them to trace the course of the Polaris-carrying submarines, and the Russians would know the approximate point of the first dive."

Them, supermarket robber's will also git free parkin'—if they're caught.

Ever'body's against fightin' in Laos, an' ever'body's fer talkin'. So now, uh, if they'll jist stop fightin' an' start talkin'...

Whatever became o' Formosa? Algeria? Th' Congo?

ADOLF EICHMANN

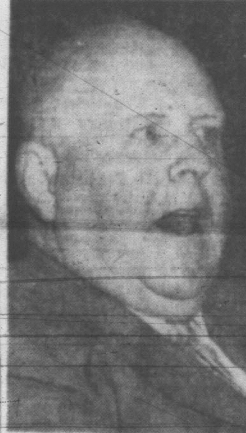

### Eichmann Moved As Trial Nears

JERUSALEM (UPI) — Adolf Eichmann has been brought from his secret prison to stand trial on charges of slaughtering millions of Jews, informed sources said tonight.

Official sources declined to confirm the report.

The trial opens next Tuesday, April 11.

The indictment against Eichmann is to be read the first day of the trial with preliminary defence arguments following April 12 or 14.

TO APPEAL

The U.S. Supreme Court today agreed to hear an appeal by former Teamsters' Union president Dave Beck, 66, against his conviction at Seattle on a charge of grand larceny involving embezzlement of \$1,900 received from the sale of a car owned by the union. He was sentenced to 15 years but has been free on bail.

Leaving Britain Sunday after a month-long visit, the Malaysian leader suggested that the Russians were hedging about ending the fighting. With the Communist-supplied rebels holding the initiative, he said, the Russians "realize they are at an advantage and that if the cease-fire were to take place immediately they would lose that advantage."

Diplomats in Moscow reported that Britain soon would propose to the Soviet Union a definite date for the two countries — as co-chairmen of the 1954 Geneva conference that partitioned French Indochina and gave Laos independence — to issue an appeal to the Laotian factions in the jungle civil war to stop fighting.

### Earl Home to Work With Rusk on Reply

WASHINGTON (AP) — Foreign Secretary Earl Home of Britain arrives here tonight to start preliminary work with U.S. State Secretary Dean Rusk on a Western reply to Russia's note on Laos.

They are expected to have a draft of the reply ready by the time Prime Minister Macmillan reaches here late Tuesday afternoon for conferences with President Kennedy.

## NO 'DONKEY' ON SKATES

Slick skater is three-year-old Pinky, pet donkey of owner-trainer Chick Hoover, Banning, Cal. Not only can Pinky skate but he can jump hurdle while on skates. Full grown, he is on his eighth pair of skates which, for a four-legged skater, adds up to 32 skates. His are especially designed metal half shoes into which the hooves fit. (AP Wirephoto).

# Al-B.C. Oil Pipeline Under Heavy Criticism

By GORDON BELL  
Times Business Editor

For two months now, B.C.'s oil industry has been seething over the proposed Al-B.C. crude oil and gas products pipeline from Fort St. John to Vancouver.

Since Jan. 31 when the B.C. government issued the certificate to build the line to Westcoast Transmission Co. Ltd. almost every person in the industry has said—but privately—that the thing was uneconomical and unnecessary. Finally, this week, E. C. Hurd, president of Trans Mountain Oil Pipeline Company, spoke up in public at the annual meeting of Trans Mountain in Vancouver and said what the industry thinks of the proposition.

Mr. Hurd's contention, in brief, is that this pipeline will not only cost the consumers more in higher prices for petroleum products but it will also have a stifling effect on development of the industry.

The economics of the plan as proposed by Westcoast and agreed to by the B.C. government just don't make sense, says Mr. Hurd.

On the one hand the government has told the industry it will guarantee a well-head price for crude oil of \$2 a barrel and on the other hand has pledged to bring that oil to market at Vancouver at a price which is competitive with Alberta oil, which is now delivered at about \$2.85 a barrel.

The spread in price of 85 cents a barrel is supposed to cover transportation—but the tariff set by the government for the pipeline totals 88 cents and that without taking account of field gathering costs, which must bring the cost of transportation up to at least \$1 a barrel.

One of three things must happen:

**HYDRO CHIEF**—Formerly first vice-president, W. Ross Strike has been named chairman of the Ontario Hydro Electric Power Commission. He succeeds James S. Duncan who resigned. Mr. Strike, 65, was appointed to the commission in 1954.

The oil producers must accept less than \$2 a barrel at the wellhead, in which case exploration will cease and the oil industry in B.C. will collapse.

The refineries at Vancouver must pay more than \$2.85 for crude, which they will surely refuse to do since they can buy Alberta oil for that price.

Or the pipeline tariffs will have to be revised, in which case the financing of the line will likely collapse.

This last point is, in any event, one of the mysteries of the whole operation. How will Westcoast finance the construction of the line by its subsidiary, Western Pacific Products and Crude Oil Pipeline Ltd.?

The certificate issued by the government states that the line must be completed by the end of this year.

Several weeks ago Westcoast announced that surveying for the line had been

started but there has been no announcement of how the line will be financed and, even more important, there have been no orders let for pipe.

Under normal circumstances in pipeline construction, it is necessary to order pipe at least six months, or more before it is needed.

Another of the mysteries surrounding the pipeline is the matter of hooking up with Trans Mountain at Kamloops. So far Trans Mountain has not been approached.

**STILL IN DARK**

The refining companies at Vancouver, who have been ordered by Premier Bennett to take all the B.C. oil which is delivered to them, are also still in the dark. No one has asked them what their requirements will be, how much crude or how much natural gas condensate they can handle and in what proportions.

Mr. Hurd, in his report to shareholders, stated that "when it became apparent that the B.C. government was determined that B.C. oil would be delivered to market by an all-B.C. pipeline, Trans Mountain had an independent study made of the most economical method."

This study showed that for the quantities of crude oil presently visualized this plan (all-B.C.) was uneconomical.

Mr. Hurd made this most important point: "From the standpoint of the province of B.C. a prime consideration should be the revenue from the sale of drilling rights and from royalties on crude oil produced. To foster a transportation system which may result in lower wellhead prices and less exploration activity is quite contrary to this prime interest."

However, as one man in the industry said recently, "One thing the B.C. government has never understood is that the wellhead price is basic to the whole oil industry."

Mr. Hurd's report was the first public criticism of the proposed pipeline from an industry source, but it is not likely to be the last.

British capital is waiting for the Canadian economic outlook to improve before moving this way again, according to Kenneth McGregor, senior U.K. trade commissioner in Canada, who visited Victoria this week.

With only a limited amount of capital to invest, Mr. McGregor said, the bulk of it is going to European countries whose economies are still buoyant.

He stated that recent figures indicated trade between Canada and Britain is on the upswing again.

Shell Oil Co. of Canada is marking its 50th anniversary this month and in a review issued for the event reports that sales of petroleum products went well over one billion gallons in 1960.

With acquisition of North Star Oil Ltd. last year and extension of marketing operations into the Maritimes, Shell for the first time was established as a fully national retail selling organization. Company is now third in sales in Canada, sixth in oil reserves and second in gas reserves.

Since Shell of Canada's outlay in 1911 total capital foundry plus expenditures on exploration for oil and gas have been in excess of \$500 million.

# Insurance Parley Here Wednesday

About 140 life insurance men from all centres on Vancouver Island will gather in Victoria Wednesday at Holyrood House to hear three top speakers from Canada and the U.S. on the latest methods of life insurance marketing and service.

The occasion will be the Vancouver Island sales congress sponsored by the Victoria Life Underwriters' Association which will be officially opened at 9 a.m. by Iseut-gov. G. R. Pearkes.

The speakers will be Alden C. Palmer, Indianapolis, chairman of the board of Insurance Research and Review Inc., and a veteran of 42 years in the insurance business; C. B. Lindsay of Vancouver, president of the Life Underwriters' Association of Canada; and J. L. Etherington of London, chairman of the association's standing committee on ethics and practices.

**IN U.S.**

# Business Recovery Indicated

By ED MORSE  
NEW YORK (AP)—As the United States economy headed into the spring season, there was a confident note that a business recovery was in the making.

Good and bad signs mingled in the pre-Easter week.

The Kennedy administration continued to push forward with a spending program, including one for \$1,900,000,000 in budget increases for a build-up in long-range missile strength. The president signed legislation which will speed nearly \$1,000,000,000 in unemployment funds to jobless workers.

The budget bureau estimated a deficit of \$2,800,000,000 in the federal budget beginning July 1.

These were among Washington developments which foreshadowed more money being pumped into the economy.

**GOLD DRAIN HALTED**

The drain on the nation's gold stockpile has been halted, at least temporarily. The week was the fifth without a loss.

One of the brightest signs was a climb in weekly steel production to its highest level since last June. Reports were that orders for delivery of steel in April were running ahead of those in March. Plans for bigger auto production appeared to be an important factor.

On the darker side was news that orders for machine tools declined sharply in February. A spokesman for the industry called for federal action to revive the business. He said that machine tool industries in practically all foreign countries are working at full capacity while the U.S. industry is working at only 60 per cent of capacity.

Department store sales topped 1960 levels for the sixth straight week. But the pre-Easter shopping would be enough to account for the advantage. Merchants were disappointed that the gain was only moderate.

Confidence in recovery was bolstered by news that manufacturer's orders and sales both rose in February after long declines. Manufacturers reduced their inventories by less than \$100,000,000 during the month.

President Kennedy and his economic advisers agreed there was some improvement in the economy but warned that the recovery is likely to be slow.

# MARKET SUMMARIES

A spectacular jump of 8 points by A T & T to an all-time high of 129 1/2 paced a rising Wall Street market today; only rubbers, aircraft and tobacco went against the trend and prevented an outstanding overall gain.

# TODAY'S GRAIN

WINNIPEG (CP)—Trading was low today on the Winnipeg Grain Exchange and export interest was quiet due to the continuing Easter holiday in Europe.

Lakehead prices for Class Two, IWA and domestic wheat all were unchanged from Thursday.

# Oils, Industrials Climb Steadily

AT MONTREAL, papers and golds eased and other sections edged ahead this afternoon. Trading was active.

Among active stocks, Loeb advanced 1 1/2 to 14 1/2 on 9,225 shares. Bell Telephone Rights sold 104,000 shares at 93 cents.

Refining oils improved with Imperial Oil at 42 1/2 and Canadian Oil at 28, both up 1/2.

In mines, Quebec Cobalt rose 95 cents to \$4.70, Saucan gained 30 cents at \$2.28, and Chemalloy eased five cents to \$2.10.

Western oils moved quietly ahead, Home Oil B gained 62 cents at 10 1/2 and Pacific Petroleum gained 1/2 at 12 1/2.

AT NEW YORK stock market prices held to a mixed trend in heavy trading today. American Telephone soared to another all-time high.

A T & T, in which trading didn't begin until shortly after noon, jumped 8 1/2 to 129 1/2. The previous peak was 122 1/2.

## ALL-KIDS' DAY ON THE 'FARM'

Kids met kids today as second annual Easter display by various South Malahat district 4-H Clubs opened for a week's show in Eaton's department store. Admiring kid held by Wendy Baker are Mrs. S. R. Manuel, 867 Seymour, and daughters

Lorraine (left) and Diane. Lambs, kids, calves, ducklings and gardening, home-making and tractor displays are on view until Saturday on third floor of main building. (Times Photo)

## BONNET BONANZA SPARKED BY RAIN

There are 288 women in Greater Victoria entitled to a 20 per cent refund on their Easter "bonnets" . . . all because it rained Easter Sunday.

Spencer's Stores Ltd. on Douglas and Government promised the staff clientele who purchased chapeaux in the month prior to Easter that if the rains came to dampen Easter Sunday they would get a cash return.

The first woman was in the Douglas Street store a few minutes after 9 a.m. today. She received \$1.08 on the purchase of a hat which originally cost \$5.49.

Spencer's lost by minutes.

Payoff was based on official rainfall as measured by the weather office.

While there was rain off-and-on all day, it wasn't measurable. The deal was that it must measure at least one-hundredth of an inch between 6 a.m. and 6 p.m. before refunds could be given.

Rain started to pour at two minutes to six.

## TOPICS OF THE DAY

Esquimalt Golden Age Club will meet in the community hall, Esquimalt Road, Wednesday afternoon at 2 when nomination of officers will take place.

Close to 40 horsemen and women from three local clubs took part Sunday in the first outing of the season under Colwood Trail Riders' sponsorship.

They left from two separate points, at Burnside and Helmecken, and in Langford, and met for wieners, beans and coffee at the Brotherston cabin behind Thetis Lake. Later they continued into the Highlands for a total ride of 25 miles.

Organizer was Earle Palliser of Colwood Trail Riders.

Victoria Aged Pensioners No. 3 will hold a general meeting Tuesday at 2 p.m. in the Britannia Legion hall, Blanshard and Cormorant.

The executive reminds members that they are guests each Friday at Cedar Hill golf course.

General meeting of Sangster PTA will be held in the school Tuesday at 8 p.m., when John Williams of the school board will answer questions on the proposed changes in the educational program. A film on underwater photography also will be shown.

Two social events have been organized this week by Victoria Adoption Committee for Aid to Displaced Persons in Europe.

A tour of Western's Bakery is set for Thursday at 10:30 a.m. and a program of music, featuring the Goward family, will be held at the home of Dr. D. B. Goward, 7933 Victoria Avenue, 9:30 p.m. Friday.

Tickets are obtainable at EV 2-1780 or EV 3-4036. Proceeds will help the committee's work.

W. R. Botton will speak on begonia culture and, Robert Pederson will give an illustrated talk on gladiolus at the monthly meeting of the Victoria Horticultural Society at the City Hall, Tuesday, starting at 7:30 p.m.

Two people were fined \$10 and \$2.50 costs each when they appeared in Sidney RCMP court Saturday charged with being in possession of liquor on an Indian reserve.

They were Henry Albert, Cole Bay Reserve, and Catherine Underwood, East Saanich Reserve.

Regular meeting of Victoria Begonia Society will be held at 8 p.m. Wednesday in city hall. Talk on "Potting Up and Taking Cuttings" will be given by W. Turner.

The Easter bunny has had his last fling. City police today investigated complaints from the 1000 block Vista Heights that rabbits being raised by a neighbor were consuming spring growth in their gardens.

The owner rounded them up and re-opened the escapes.

Longshoreman Douglas Weismiller, 24, of 3185 Orilla, was treated and discharged after an accident in which a loader ran over his foot at 2:35 p.m. Saturday.

Police took the man an employee of Empire Stevedoring, to Royal Jubilee Hospital.

Weismiller was working in the hold of the freighter Ethmas at Ogden Point when the loader caught him.

Victoria section, American Institute of Electrical Engineers will hold its monthly meeting Tuesday at 8 p.m. in the Flame Room of the B.C. Electric Building.

J. L. Oxepdale, maintenance supervisor of B.C. Electric stations and communications, will present a paper, "Maintenance of Electric Equipment."

PEANUTS DO YOU THINK ANYONE WILL BE WATCHING OUR GAMES CHARLIE BROWN?

WELL I IMAGINE WE'LL HAVE A FEW SPECTATORS FRIEDA.

I'LL BE OUT IN CENTER FIELD WON'T I?

HOW FAR OUT WOULD YOU SAY CENTER FIELD IS?

OH, ABOUT A HUNDRED YARDS, WHY?

FROM THAT DISTANCE DO YOU THINK PEOPLE WILL BE ABLE TO TELL THAT I HAVE NATURALLY CURLY HAIR?

BOAT SHOW BELLES Adele Sinnott, left, and Fay Schickerowsky are enough to tempt any young gent to go to sea, but he'll have to be a fast swimmer. Their seven-foot-long "WeeCraft," capable of 25 miles an

hour, is only a two-seater! It will be one of the door prizes at the Victoria Curling Rink Thursday, Friday and Saturday. Proceeds go to charity.

Survivors include the widow, Alice, at the residence, 1216 Lyall, and a daughter, Frances.

Rev. T. A. Roberts and Rev. Canon H. Jones will officiate at the service and interment will be in Hatley Memorial Gardens, with McCall's in charge of arrangements.

Funeral service for Ernest Jeffrey, postmaster at Langford for several years, who had been active in Royal Canadian Legion and church affairs, will be held Thursday at 3:15 p.m. in St. Paul's Naval and Garrison Church, Esquimalt.

Overseas four years with the 28th Battalion, he was past president of Legion branches in Shellbrook, Sask., and Prince Edward-Legion, Langford.

Store Burglary Yields Little, Houses Nothing

About \$25 cash and one sock was the loot taken from the Tartan Shop, 1003 Government, in a burglary reported to city police Saturday.

Storekeepers reported the cash consisted of 18 U.S. silver dollars and \$7.50 in small change.

There was no explanation of why only one sock—with a design of the clan Campbell—was taken.

Nothing was stolen in two house burglaries reported Sunday night.

The homes of Mrs. Dorothy Woodward, 780 Richmond, and Dennis Riley, 2580 Prior, were entered by bedroom windows. Bedrooms were ransacked at both places.

## Driver Charged As 'Impaired' In City Mishap

Driver of a car in collision with a 73-year-old woman pedestrian Saturday night is charged by city police with impaired driving.

The woman, Mrs. Hannah Poole, 75 Pilot, is described as being in "fairly good" condition today at St. Joseph's Hospital with a broken leg, concussion and minor head injury.

Police have charged Ronald James Wilson, 1351 Vining and he will appear in court Tuesday.

Mrs. Poole was the most seriously hurt of five people taken to hospital with traffic injuries Saturday.

She was thrown about 20 feet in the collision at Courtney Street as she crossed Government.

DARK, WET

The accident happened at 9:50 p.m.; it was dark and streets were wet.

The four others hurt were treated at hospital and later discharged.

Mrs. Joan Empey, 26, of 841 Esquimalt, and Mrs. Valerie Mickelson, 21, of 510 Joffre, both were treated at St. Joseph's for back injuries after the car in which they were riding bounced through a three-foot ditch on Colville.

Grace Buckley, 61, of 676 Rockingham, was treated for face cuts and discharged from St. Joseph's after a three-car crash at Helmecken and Trans-Canada Highway, and in another three-car crash at Fort and Cook at 9:22 p.m., Muriel E. Wright, 53, of 1023 Gilphart, received knee and neck injuries.

Store Burglary Yields Little, Houses Nothing

The homes of Mrs. Dorothy Woodward, 780 Richmond, and Dennis Riley, 2580 Prior, were entered by bedroom windows. Bedrooms were ransacked at both places.

Ex-Postmaster's Funeral Set For Thursday

Funeral service for Ernest Jeffrey, postmaster at Langford for several years, who had been active in Royal Canadian Legion and church affairs, will be held Thursday at 3:15 p.m. in St. Paul's Naval and Garrison Church, Esquimalt.

Overseas four years with the 28th Battalion, he was past president of Legion branches in Shellbrook, Sask., and Prince Edward-Legion, Langford.

Survivors include the widow, Alice, at the residence, 1216 Lyall, and a daughter, Frances.

Rev. T. A. Roberts and Rev. Canon H. Jones will officiate at the service and interment will be in Hatley Memorial Gardens, with McCall's in charge of arrangements.

## FOUR ERRORS CAUSED DEATH OF FISHERMAN

Four mistakes made by a Seattle commercial fisherman combined to cause his death near Alert Bay, after a weekend boating mishap, according to RCMP.

Missing and presumed drowned is Norman Bowden Vines, 61.

Police said Vines vanished Friday when he attempted to swim 50 yards to shore against a strong tide after his troller Marie grounded on a reef. He was heading for Alaskan waters at the time.

Police said a search of the 30-foot boat failed to uncover any maps showing the locations of reefs of Sophia Island, where the accident happened.

Vines' three other mistakes, police said, were that he failed to signal other fishermen anchored nearby to issue a distress call, he should not have attempted to swim, and when he did attempt it, he should have worn a life jacket.

Two Islanders On Executive Of GP College

One Victoria and one Courtenay medical man have been elected to the executive of the B.C. Chapter of the College of General Practice at the annual meeting in Vancouver.

Dr. J. B. Anderson, Victoria, is treasurer, and Dr. Henry Williams of Courtenay, member at large.

Dr. John Zack of Vancouver was elected president.

DROWNING RULED ACCIDENTAL

'Post Hole Wasn't Covered'

Death of Gina Kunalevich in the backyard of her Esquimalt home Friday was by accidental drowning, Coroner Dr. J. H. Moore ruled today.

He conducted an informal inquiry into the tragedy, discovered by Gina's mother, Mrs. Jean Kunalevich, 808 Dominion, shortly before 4 p.m. Friday.

The little girl had gone out to play alone and apparently fell into an 18-inch hole recently dug for a clothesline pole where a few inches of rain water had accumulated.

An earlier report of the death said there had been boards covering the hole, but these were not placed until after the accident.

"The hole was not covered," Allan Cedar, a member of the family, said.

When Mrs. Kunalevich found Gina head-down in the hole, she pulled her out and called for help.

A neighbor, Hector Renton, 801 Dominion, ran over and used mouth-to-mouth artificial respiration for about 10 minutes until Esquimalt police arrived and took the girl to St. Joseph's Hospital, where she was pronounced dead.

## NEW BIBLE 'BEST SELLER' IN CITY

Victorians over the Easter weekend spent more than \$15,000 on the New English Bible published by the Cambridge University Press in Canada.

Book and department stores today estimated that about 5,000 copies of the new

edition of the New Testament were sold Saturday over the counter.

Copies of the New Bible are selling in two editions: a larger library edition at \$4.50 and a pocket edition at \$1.75.

Typography and style have been changed and

simplified in the new version.

The demand for the New Bible is so great that one store alone reported selling 1,300 copies.

"We are down to a few copies and have ordered additional stock," said a salesman.

Another store estimated that before Easter week is over total sales will run to about 15,000.

"The trouble is supply," the owner said. "From reports we have received, most centres in British Columbia are short of stock."

VICTORIA, B.C., MONDAY, APRIL 3, 1961—PAGE 13

## Mother, Tots Flee Fire On Burnside

### Smoke Billows From Basement

A mother and three small boys fled their West Burnside home when smoke and fumes from a basement fire billowed into upper rooms at 9:30 a.m. today.

James had started heating into the living room of the home of Alfred Armitage, 1191 West Burnside, when Saanich firemen arrived.

Fire apparently started in a corner of the basement where camping gear and a chestfield were stored, burning through woodwork into cold air vent pipes.

Ruth Armitage and her boys, Bruce, seven; Chris, six; and Robbie, three, ran to a neighbor's house.

CAUSE UNKNOWN

Neither the householder—who came from work when told his house was burning—nor Deputy Fire Chief Glen Robbins, could explain the cause of the blaze.

The house had just been rewired and the furnace was in good condition.

Damage was moderate to house and contents.

Two Islanders On Executive Of GP College

One Victoria and one Courtenay medical man have been elected to the executive of the B.C. Chapter of the College of General Practice at the annual meeting in Vancouver.

Dr. J. B. Anderson, Victoria, is treasurer, and Dr. Henry Williams of Courtenay, member at large.

Dr. John Zack of Vancouver was elected president.

Oak Bay Meeting

Oak Bay council meeting, originally slated for tonight, has been postponed until 8 p.m. Tuesday because of the Easter holidays.

# Four-Mill Boost Faces Taxpayer

## \$18 to \$20 Hike For Average Bill

By JOHN MIKA—Times City Hall Reporter

Victoria appears headed towards a four-mill increase this year which could boost the average tax bill by \$18 to \$20.

That is probably all that will be left of original estimates which pointed at a total boost of 25 mills. Virtually all new programs and improvements are expected to be chopped in order to hold down the tax increase.

This is the early speculation on the outcome of current committee slashing at estimates that appear likely to reach an increase of about \$1,200,000 over last year's expenditures for public works, protective services, parks and welfare.

These probably will be cut to the bone by council but one guess is that even then higher costs and a few new projects still will push the total increase over 1960 at about the \$380,000 level.

With one mill expected to bring in close to \$100,000 in revenue this year, this increase would add about five mills to last year's 33.41 mill rate for general purposes.

SURPLUS

But a \$3,000,000 increase in the assessment roll and a substantial, but as yet unrevealed 1960 surplus, are expected to cover about \$200,000 of the boost in tax levy.

Result would be a three-mill boost for general purposes and, as a result of a 5 per cent higher school board budget, another mill would be added to last year's 19.39 school rate.

This would add up to a 56.75 mill rate for this year, resulting in a total tax bill ranging between \$255 and \$283 for the average homeowner with an assessment in the \$4,500 to \$5,000 bracket.

Numerous improvements, like the \$800,000 Blanshard Street extension and \$200,000 start for a one-way street system, would have to be cut from the budget to keep the mill rate from rising even higher.

Council probably will consider a borrowing bylaw to carry these out.

2 Education Conferences In Spotlight

Two conferences this week may bring major changes to the field of education in B.C.

In Vancouver today, 1,200 members of the B.C. Federation of Teachers opened their annual four-day convention.

Meanwhile, the B.C. department of education opens a special four-day conference Tuesday in Central Junior High School here, attended by all the district school superintendents.

The teachers' convention will have two major discussions, both of which will have an impact on all B.C. schools.

CHART REPORT

The meeting will have its first full-dress opportunity to analyze the Chant commission's report on education.

Teachers also will vote on whether or not they will inaugurate a system of policing their own profession as other professional groups do.

The Victoria conference will bring the school superintendents together with headquarters staff of the education department to consider the Chant report too.

From this conference, the department is expected to formulate the general framework of a new approach to the school system based on the superintendents' reaction to the Chant commission's wide-ranging recommendations.

Driver Fined \$200

Noel William Atkin, 2866 Glen Lake, was fined \$200 and \$5.50 costs when he pleaded guilty in Colwood RCMP court Saturday to impaired driving.

Police said his car rolled into a ditch at Glen Lake and Jacklin Roads, causing about \$250 damage, no injury.

RALPH DAVIS  
... first commissioner

## Water Board Ex-Chief Dies at 50

Ralph Davis, Greater Victoria Water Board's first commissioner, died Saturday in a Vancouver hospital. He was 50.

He went to Vancouver after resigning as water commissioner in 1952.

Mr. Davis was educated at Oak Bay High School, Victoria College and the University of B.C. from which he graduated in 1935 as a civil engineer.

He spent three years in mining work, then returned to Victoria to join the City Hall staff as a draughtsman.

He joined the RCAF and went overseas in 1940 as a flight lieutenant, later being attached to the USAF in airfield construction work on the continent.

Mr. Davis returned to the city in 1945 and became assistant water commissioner for Victoria.

He was appointed as the first water commissioner when the Greater Victoria water board was established in 1949.

HYDRO WORK

He resigned in 1952 and joined the Stevenson and Kellogg management engineering firm in Vancouver. Later he joined Sandwell and Co. in Vancouver where he specialized in hydro work for the consulting engineering firm.

Survivors include the widow, Margaret, 2237 Palmerston, West Vancouver; a son, Robert Ernest, at home; a daughter, Barbara, at home; the father, Ernest D. Davis, Victoria; and three brothers, Donald, a Victoria; Sgt. Ldr. Wilfred, Ottawa, and Lieut. Cmdr. Lawrence, of HMCS Fraser.

TUESDAY MEETINGS

Victoria Kiwanis Club: Noon, Empress Hotel. L. J. Wallace, deputy provincial secretary, "Barkerville—the Gold Capital of the World."

North Victoria Kiwanis Club: 6:15 p.m., Monterey Restaurant. James M. Fox, Victoria manager, Unemployment Insurance Commission, will talk on the unemployment problem.

ASK The TIMES

Q. Is there a Latin word which means "sportsmanship?" S. McC.

A. Not as such. History of the word "sport" dates back to Roman times when it was customary for distinguished men to distribute little baskets of food, or money, to the masses who were their followers. The Latin term sportula means a little basket.

Hence an early emperor called the little games he gave the people sportulae, i.e., grabbing at the minor properties of others.

Anyone wishing a question answered is invited to send the problem along to The Times, addressed to "Ask The Times" Editor. Questions and answers will be published daily.

All questions should deal with matters of fact and be of general interest. The Times does not undertake to solve conundrums or legal problems. Nor will it attempt to put a value on old coins, stamps or antiques. These should be submitted to a dealer.

# ISLAND DIGEST

28 Victoria Daily Times MONDAY, APRIL 3, 1961

## THREE-MILL JOLT

### Tax Boost for Ladysmith

LADYSMITH — A tax rate of 37 mills, up three mills from the 1960 rate, has been set by Ladysmith village commission.

There is a possibility that it can be reduced to 36 mills when accurate figures on school costs are available, but no other savings are possible.

One mill of the increase will be used for purchase of a new fire truck, now on order.

General rate is 14 mills, compared with 13 mills last year, and 23 mills are being allowed for school costs. School rate last year was 2 mills.

#### ADJUSTED

R. S. Wood, village clerk, told the commission it was necessary to pass the tax rate bylaw now in order to meet requirements of the municipal affairs department.

If amended school cost figures are available before the next meeting, then the tax can be adjusted for the third and final reading of the bylaw, he said.

An application will be made to the federal government for extension of the winter works program into May. There is considerable work to be done on a storage dam and at the municipal cemetery, according to Commissioner P. R. Battie.

### DEEP-SEA SHIPS IN PORT

ADOLF EICHMANN

Eichmann Moved  
As Trial Nears

JERUSALEM (UPI) — Adolf Eichmann has been brought from his secret prison to stand trial on charges of slaughtering millions of Jews, informed sources said tonight.

Official sources declined to confirm the report.

The trial opens next Tuesday, April 11.

The indictment against Eichmann is to be read the first day of the trial with preliminary defence arguments following April 12 or 14.

WRONG KIND  
OF 'JUICE'

SAVONA, Italy (AP) — The Italian radio today broadcast a warning to the thief who stole 20 bottles from a Swiss tourist's automobile Sunday — the bottles contain a poison that kills almost instantly on touch.

Local newspapers said the poison, zinkalium, penetrates the pores and is similar to the one used by Hermann Goering when he committed suicide in prison in October, 1946.

New U.S. Helicopters  
Ferry Goods to Front

VIENTIANE, Laos (UPI) — Five new American-supplied helicopters, assembled by U.S. Marines in neighboring Thailand, made their first supply runs today to "frontline" areas of Laos.

The helicopters were among 16 given by the United States

to the Laotian government to ease critical supply and communication problems faced by government forces.

They apparently flew supplies on their initial mission to hard-pressed government troops near the embattled village of Tha Thom in Xieng Khouang province. Government troops were driven from Tha Thom Friday by pro-Communist rebel troops, including some paratroopers reported dropped from Soviet planes.

## LAOS

Red China  
Threatens  
To Step In

JAKARTA, Indonesia (AP) — Communist China today held a threat over the West to turn Laos into another Korea if the Southeast Asia Treaty Organization (SEATO) sends troops into the strife-torn Indochina kingdom.

Peking's Foreign Minister Chen Yi, winding up a visit to Indonesia, told reporters that if SEATO sends troops into Laos, "then China will also send troops."

Marshal Chan Yi, who led the Chinese Communist 3rd Army into Korea in 1950 before becoming foreign minister, alluded to SEATO's warning that it was prepared to take "appropriate action" to prevent an armed Communist takeover of Laos.

The marshal insisted "that up to now China has not taken part in the Laotian civil war." The foreign minister said Peking's solution to the fighting between pro-Western and pro-Communist forces in Laos is to "let the Laotian people settle their differences themselves and withdraw all foreign intervention. This would ensure peace and neutrality in the country."

A communiqué on Chen Yi's talks with Indonesian President Sukarno contended that the United Nations efforts to solve world problems would be seriously weakened unless Peking is admitted to membership in the international organization.

On Laos and the Congo, the two leaders declared: "All foreign intervention in all its forms and manifestations in these two countries should be discontinued."

The situation in Laos was described Sunday by Malaysian Prime Minister Abdul Rahman as "still extremely serious." He pointed out the vagueness of the Soviet reply to the British proposal about the timing of a cease-fire in the jungle kingdom.

Leaving Britain Sunday after a month-long visit, the Malaysian leader suggested that the Russians were negotiating about ending the fighting. With the Communist-supplied rebels holding the initiative, he said, the Russians "realize they are at an advantage and that if the cease-fire were to take place immediately they would lose that advantage."

Diplomats in Moscow would propose to the Soviet Union a definite date for the two countries — as co-chairmen of the 1954 Geneva conference that partitioned French Indochina and gave Laos independence — to issue an appeal to the Laotian factions in the jungle civil war to stop fighting.

Representatives from 30 countries, who had marched

under the banners of their home lands, received a rousing cheer from the crowd packed around Nelson's monument.

A roar of applause went up as the 450-strong West German contingent strode into the square. There was another cheer for a lone Japanese.

Several other Japanese had intended to march but Deputy Prime Minister R. A. Butler refused to grant them entry visas.

"It's a terrible thing that the Japanese have been refused permission to come here," Canon John Collins of St. Paul's Cathedral told the crowd. "The Japanese, if anybody, have the right to protest against nuclear weapons."

Organizers had hoped for a turnout exceeding the 70,000 demonstrators who assembled a year ago at the end of the annual Aldermaston-to-London trudge.

## 49 WALKED AWAY FROM THIS 'CRASH'

Safe belly landing at Montreal's International Airport Sunday night climaxed dramatic but futile four-hour struggle by seven-man crew to lower jammed landing gear of TCA Vanguard with 42

passengers aboard. While ambulances stood by, plane made "perfect landing" on its belly, suffered only scratches and bent propellers. Story, page 2. (AP Wirephoto).

## 27 ARRESTED IN LONDON

'Ban-Bomb' Protests Heard  
In London, Across CanadaU.S. Embassy  
Focal Point

LONDON (AP) — A ban the H-bomb rally spilled over tonight into a riotous demonstration in front of the United States Embassy in Grosvenor Square.

Police arrested 27 persons. There was no attempt to damage the embassy and nobody was injured.

The Grosvenor Square disturbance was an offshoot of an earlier anti-nuclear meeting in Trafalgar Square, where 40,000 marchers assembled to roar demands for abolition of atomic weapons.

After this meeting, held in a drizzle of rain, several thousand of those who took part marched through the streets to the U.S. Embassy, about a mile away.

"We stand for sanity in a mad world," Earl Bertrand Russell, 88, philosopher and dean of the nuclear disarmament movement, told the cheering crowd. "The possibility of complete disaster remains deadly and immediate. Nuclear war in the near future is probable unless East and West governments change their policies."

LIMPED IN — The crowd had gathered in Trafalgar Square after two columns of demonstrators limped in after trekking through the English countryside.

Hundreds of police mingled with the banner-waving and singing demonstrators packing the square.

Representatives from 30 countries, who had marched

KENNEDY TO VISIT  
DE GAULLE IN PARIS

PALM BEACH, Fla. (AP) — President Kennedy will visit Paris for three days starting May 31 for talks with French President Charles de Gaulle.

The Paris visit will be Kennedy's first trip abroad as president. However, he will go to Canada in advance of going to France.

Chancellor Konrad Adenauer will invite President Kennedy to visit West Germany, authoritative government sources said today.

Adenauer, who leaves for Washington April 11 for his first meeting with Kennedy, will undoubtedly make use of his trip to extend the invitation, the sources said.

under the banners of their home lands, received a rousing cheer from the crowd packed around Nelson's monument.

Crack Safe  
In Colwood  
Foodliner

Professional cracksmen early today blasted a Colwood supermarket safe and stole \$15,000 in cash and cheques.

It is believed to be the largest single safe robbery in the Victoria area in recent times.

Colwood RCMP said the force of the explosion used to burst a three-ton concrete and steel vault was enough to scatter parts of it through Highway Foodliner, 1860 Island Highway, and twist 8 by 8-in. wooden columns supporting the roof.

Although residents of the Colwood Corner area reported later they heard a detonation at about 6 a.m., police were not called until 8.15 when the shattered interior was discovered by produce manager Victor Lee arriving for work.

Co-owner Earl Dennison said at least \$10,000 of the missing safe contents was in cash, the balance in cheques.

Considerable damage was done to other contents of the safe by the force of explosion.

## 'LIKE SHRAPNEL'

The safe's metal door was thoroughly shattered — "like shrapnel," one RCMP said — and blown about the premises with mechanical parts of the lock.

It was thought nitroglycerine was used to do the job. Members of Colwood RCMP detachment, Victoria subdivision criminal investigation branch and identification bureau, city and Saanich detectives are co-operating in investigation.

There are several suspects in the Greater Victoria area, police said, but to noon there were no positive leads.

Entry to the store was gained by forcing a front door, opposite a wide parking area separating the building from the Island Highway a few yards east of its usually busy intersection with Sooke Road.

The safe, a steel cylinder with round door closing the end, was set in a concrete block about 3½ feet square and fixed in place on the floor.

Normally, Dennison said, there would not be so much money left in the store over a weekend, but with the holiday intervening Friday there was brisk business Saturday.

Besides, he said, "we just Continued on Page 28"

FREED

Red China agreed today to release Robert McCann, critically ill U.S. businessman serving 15-year prison term for 'espionage'. The Communists said McCann, suffering from cancer, was freed in the 'spirit of humanitarianism'. His wife appealed for his release after being allowed to visit him.

## 30 Drown in Iran

TEHRAN, Iran. (UPI) — Thirty persons were drowned in the Shatt-al-Arab River Sunday when a motor launch carrying 80 persons capsized, press reports said here today.

500 March  
At Vancouver

By The Canadian Press

Anti-nuclear weapons demonstrators marched Saturday in centres across Canada.

In Regina, Premier T. C. Douglas told 450 ban-the-bomb marchers the main hope for world peace lies in nations surrendering their national sovereignty to a world authority with powers to maintain and enforce peace.

Other anti-nuclear demonstrations were held in Montreal, Toronto, Vancouver, Winnipeg, Regina and Quebec City.

Addressing men, women and children from the steps of the Saskatchewan legislature, Mr. Douglas suggested four steps Canada could take to promote a world authority.

Canada, he said, should withdraw from the NORAD defence agreement with the United States and insist all defence pacts be under United Nations auspices; ban nuclear weapons from its soil; give leadership in UN negotiations for progressive disarmament with inspection; and turn over all its weapons to the UN for use in enforcing world peace.

Canada, he said, should withdraw from the NORAD defence agreement with the United States and insist all defence pacts be under United Nations auspices; ban nuclear weapons from its soil; give leadership in UN negotiations for progressive disarmament with inspection; and turn over all its weapons to the UN for use in enforcing world peace.

## WIRE BRIEFS

## Killer Jailed for Life

OTTAWA, Ill. (UPI)—  
Chester Otto Weger, convicted bludgeon slayer, today was sentenced to life imprisonment for the murder of one of three matrons slain at Starved Rock State Park more than a year ago.

## Girl, 6, Missing

VANCOUVER (CP)—Police today were searching for a six-year-old girl, missing since Sunday morning. Debbie Volariach was last seen when she left home to attend Sunday school.

## Girl's Injuries Fatal

NEW WESTMINSTER (CP)—Candice Clark, 4, of Coquitlam, severely injured in a highway accident Sunday, died in hospital here today. Her father, Donald Clark, driver of a car hit broadside by another, suffered a broken jaw and other injuries. He was in satisfactory condition.

LADYSMITH — A tax rate of 37 mills, up three mills from the 1960 rate, has been set by Ladysmith village commission.

There is a possibility that it can be reduced to 36 mills when accurate figures on school costs are available, but no other savings are possible.

One mill of the increase will be used for purchase of a new fire truck, now on order.

General rate is 14 mills, compared with 13 mills last year, and 23 mills are being allowed for school costs. School rate last year was 21 mills.

R.S. Wood, village clerk, told

the commission it was necessary to pass the tax rate bylaw now in order to meet requirements of the municipal affairs department.

If amended school cost figures are available before the next meeting, then the tax can be adjusted for the third and final reading of the bylaw, he said.

An application will be made to the federal government for extension of the winter works program into May. There is considerable work to be done on a storage dam and at the municipal cemetery, according to Commissioner P. R. Battie.

## V.I. ROUNDUP

## Leukemia Claims Island Hotelman

Joseph Iaci, 54, prominent Campbell River business man, died of leukemia in Vancouver Sunday.

A former Vancouver resident, where he was well known as an owner of race horses, he bought the Willows Hotel in Campbell River after the Second World War, and later built the Marina Hotel at Willow Point, three miles south of Campbell River.

He was a former chairman of the board of Campbell River School District 72, and served several terms as a trustee. He was prominent in Campbell River Chamber of Commerce, and was a member of the Rotary Club there.

CAMPBELL RIVER — The next paint job on the 14-foot boat owned by Walter Antifave, Bloedel logger, likely will be red and white, with orange spots.

On Friday night he ran out of gas while travelling through Discovery Passage in his pale green outboard. Hours later, after being overlooked by several passing boats and aircraft, a freighter came to his aid.

He blamed the drab color of his boat for his plight, and said the next one will be an "eye-catcher."

PORT ALBERNI — The Alberni district's representatives to the mayor's conference in Richmond this week plan to push a bid from city hall here to the municipal hall in Richmond.

The bid-pushing delegates leave Tuesday. Total distance is 100 miles, 35 of which will be travelled by ferry.

NANAIMO — Historical society here will ask the Holland-American Line to return an anchor taken from the waters of Departure Bay recently by the crew of Ms. Dongedyk.

When the Dutch vessel raised its own anchor, it found it had pulled up another anchor, estimated at 100 years old and weighing four tons. The crew lashed the relic to the foredeck and sailed off.

NANAIMO — New Nanaimo and District General Hospital now under construction cannot be finished too soon. Dr. N. T. Bennett said at the fourth annual banquet of the hospital board.

The present hospital is operating at full capacity, he said. The new building is scheduled for completion in September next year.

SAANICHTON — Central Saanich has been forced to postpone voting on a water utility plan from April 15 to April 22 at the earliest.

Council's plan is to set up a water utility company as a contingent liability, and completely removed from the tax structure of the municipality. The company would take over the water system under construction, and retirement of debt would come from water sales.

Bylaw to establish the system is awaiting approval of the municipal affairs department.

## THEFT

Continued from Page 1  
missed the bank Saturday by 10 minutes.

"It was the only weekend of the year when there was that much money on hand. We usually deposit Friday."

Only other theft noticed amid the upset interior was several cartons of cigarettes taken from stock.

Much of the damage was caused by the shock of explosion rather than flying debris, police said.

Mr. Dennison said insurance carried covered only a \$10,000 loss by theft.

Co-owner of the store with Clair Taylor, he was on the premises until 12:30 a.m. today.

He asked that persons who had cashed cheques at the store Saturday to contact him.

Police are trying to reassemble cheques; many were blown to pieces in the explosion.

The Foodliner suffered a previous robbery a year ago when thieves broke into the store and stole a cash box containing close to \$400.

There is no burglar alarm protection on the establishment.

## Bennett to Open Fair

VANCOUVER (CP)—Premier Bennett will officially open the 1961 British Columbia International Trade Fair at Exhibition Park in Vancouver May 3.
